

Week 1

Beginning 22<sup>nd</sup> February 2021

Year 3

$3 \times 2$

- 1) How many tens are in 67?
- 2) Which is greater, a litre or a millilitre?
- 3) Complete using  $<$ ,  $>$  or  $=$   
 $3 \text{ g } \bigcirc 3 \text{ kg}$
- 4) Add 12 and 27 together.

3 × 2

1) How many tens are in 67? **6 tens**

2) Which is greater, a litre or a millilitre? **a litre**

3) Complete using  $<$ ,  $>$  or  $=$

3 g  $<$  3 kg

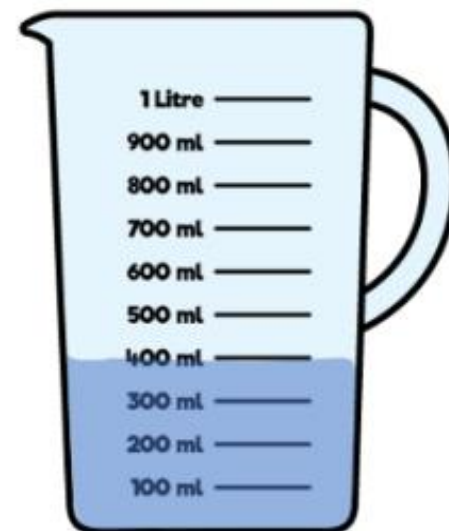

4) Add 12 and 27 together. **39**

$5 \times 4$

- 1) Complete the number track.

100	200	300		500	600
-----	-----	-----	--	-----	-----

- 2) How many millilitres of liquid are in the jug?

- 3) Which is longer, 36 cm or 3 m?

- 4) Find the difference between 35 and 17

# Flashback 4

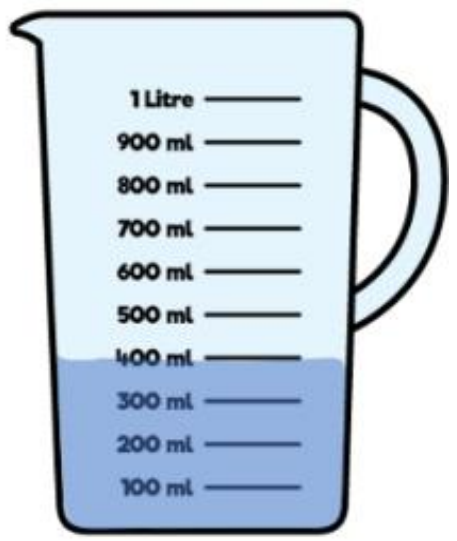

$5 \times 4$

1) Complete the number track.

100	200	300	400	500	600
-----	-----	-----	-----	-----	-----

2) How many millilitres of liquid are in the jug?

400 ml

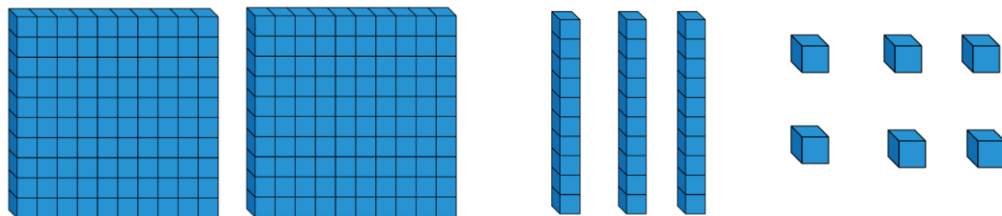

3) Which is longer, 36 cm or 3 m? 3 m

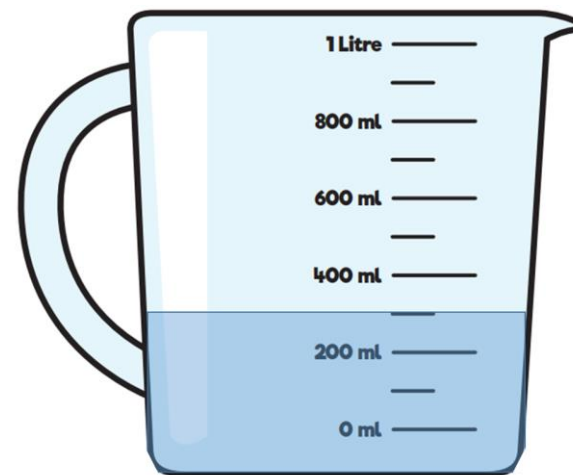

4) Find the difference between 35 and 17 18

$10 \times 3$

1) Write the number represented in digits.

2) How much liquid is in the jug?

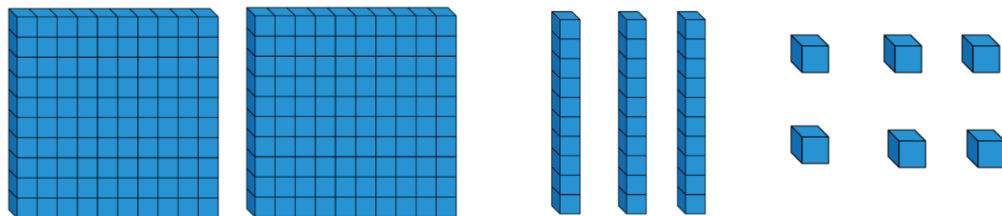

3) Parcel A weighs 12 kg. Parcel B weighs 9 kg more.  
How much does Parcel B weigh?

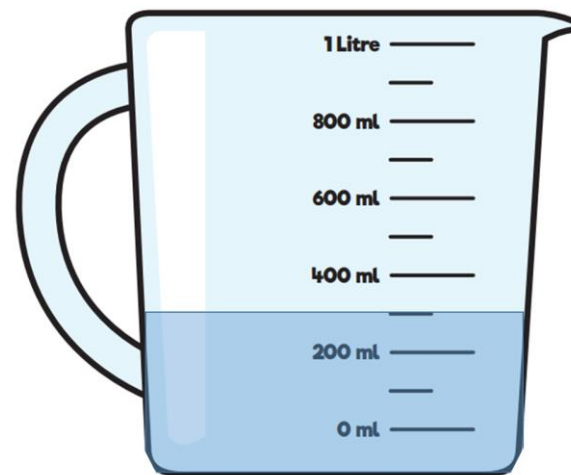

4) Subtract 34 from 50

10 × 3

1) Write the number represented in digits. **236**

2) How much liquid is in the jug? **300 ml**

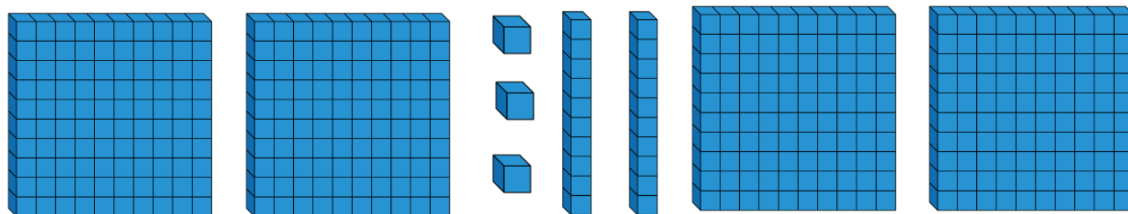

3) Parcel A weighs 12 kg. Parcel B weighs 9 kg more.  
How much does Parcel B weigh? **21 kg**

4) Subtract 34 from 50 **16**

$$5 \times 6$$

1) Write the number in words.

2) Which is greater, 6 litres or 600 ml?

3) How much do the beans weigh?

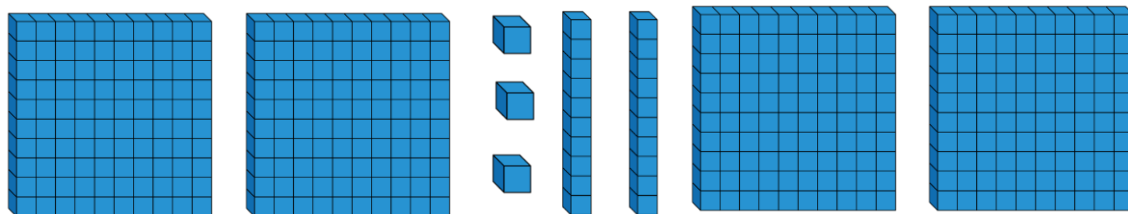

4) What is 3 multiplied by 5?

$5 \times 6$

1) Write the number in words.

Four hundred and  
twenty-three

2) Which is greater, 6 litres or 600 ml?

6 litres

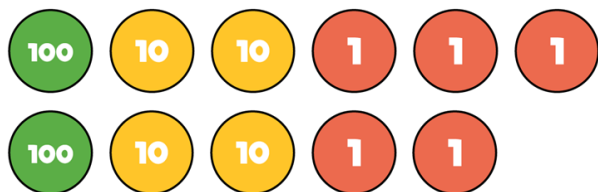

3) How much do the beans weigh? 25 g

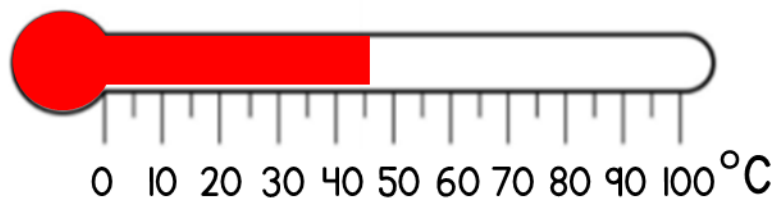

4) What is 3 multiplied by 5? 15

$$6 \times 2$$

1) What number has been represented?

2) What is the temperature?

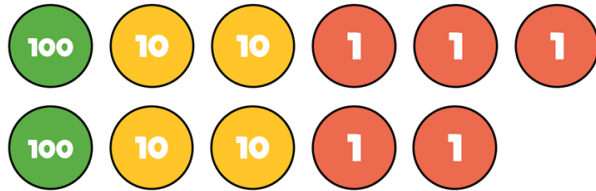

3) Box A weighs 12 kg. Box B weighs 7 kg.

Which box is heavier?

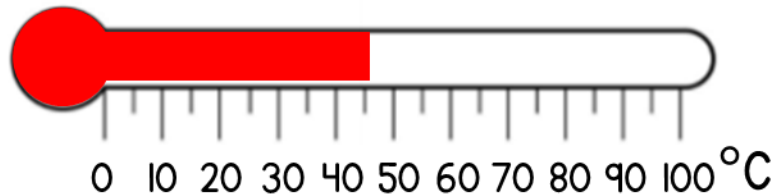

4) Divide 12 by 3

$$6 \times 2$$

1) What number has been represented? **245**

2) What is the temperature? **45°C**

3) Box A weighs 12 kg. Box B weighs 7 kg. **Box A is heavier.**  
Which box is heavier?

4) Divide 12 by 3 **4**
