

# Properties of Shapes Recognising Turns

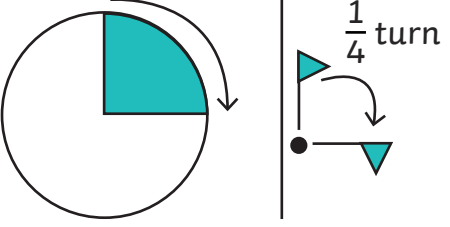

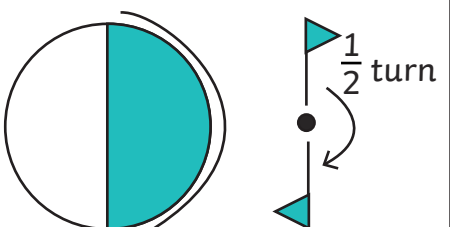

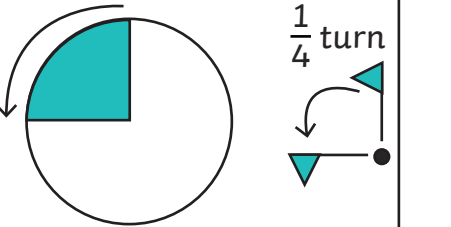

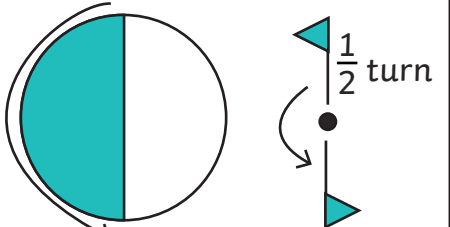

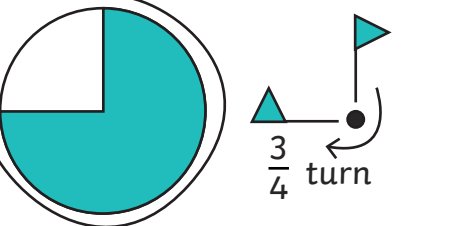

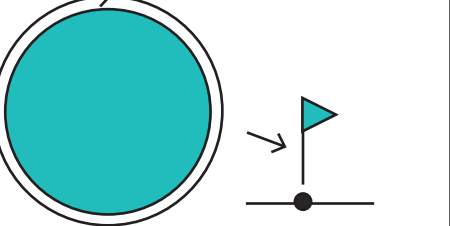

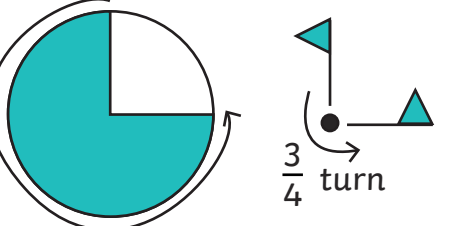

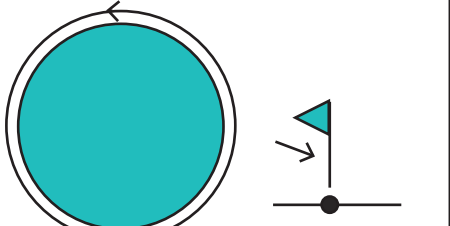

A turn is to rotate about a point.

A turn can be described as a quarter-turn, half-turn, three-quarter turn or a complete turn.

A turn can be completed clockwise and anticlockwise.

## Clockwise

## Anticlockwise

 <p>1 right angle quarter-turn clockwise 90°</p>	 <p>2 right angles half-turn clockwise 180°</p>	 <p>1 right angle quarter-turn anticlockwise 90°</p>	 <p>2 right angles half-turn anticlockwise 180°</p>
 <p>3 right angles three-quarter turn clockwise 270°</p>	 <p>4 right angles complete turn clockwise 360°</p>	 <p>3 right angles three-quarter turn anticlockwise 270°</p>	 <p>4 right angles complete turn anticlockwise 360°</p>
