

Sacred Heart Primary School

PE and sport Premium report 2023-2024

Allocated funding (2023-24) £ 17,680

Actual expenditure (2023-24 £ 25,000

Action/approach	Amount allocated	Intended impact	Impact areas					Impact report What has the impact been? How will the impact be sustained?
			Engagement of all pupils in regular physical activity	Raising the profile of PE and school sports	Increased confidence, knowledge and skills of all staff	Broader range of sport activities and experiences	Increased participation in competitive sport	
Membership of PNE Sport day per week specialist sports coach provision 22hrs a week. These specialist sports coaches were deployed to teach alongside school staff in PE. They also provided organised physical activity at lunchtimes, and offered after-school club provision.	£15,750 £7320 (cross over from previous provision AFC Fylde)	Children's engagement in physical activity and skill development increases because of support from specialists. PE is of a consistently high quality – teaching and learning staff are upskilled by working alongside specialists. Children make good progress in PE and with their physical	✓	✓	✓	✓		Excellent PE provision sustained across school – pupils continue to achieve academically (with improved skill development) in PE and enjoy lessons. PNE after-school provision (offered daily) attended by 20 children each time (KS1 and KS2), widening participation in physical activity for some of

		development. Extra-curricular opportunities offered to improve participation / engagement in physical activity and offer a wide range of sports. All teaching staff enabled to Team Teach with sports coaches. All teaching staff participating in rolling programme of bespoke CPD based on individual teacher needs.						our youngest and most vulnerable. Children are selected who have not attended clubs previously. Impact will be sustained through: lasting improvements to teaching and learning in PE (as a result of increased staff knowledge); lasting health benefits for younger children who now want to continue accessing after school sport.
Aim to significantly increase the number of children actively representing the school in a diverse range of sports.	£738	More children are taking part in competitive events against local schools in the area. Increased participation in competitive sport for pupils with SEND. Inspire SEND pupils to be aspirational in seeking competitive experiences of sport, at a local, national and international level. Greater engagement with physical activity amongst pupils with SEND.	✓	✓		✓	✓	Children competed and won trophies boosting confidence and moral. Children were celebrated in assembly to raise the profile of competitive sports. Children were able to participate in more competitions and develop a deeper understanding of the sport, thanks to having access to the appropriate resources. Impact will be sustained through: Continued participation in competitions. After school clubs ran for

								competitive sports by skilled staff. SEND children to have more opportunities to compete.
To enhance the accessibility, quality, and impact of resources supporting Physical Education (PE) and sports programs, ensuring equitable opportunities for all participants to engage in physical activity, develop skills, and achieve overall well-being.	£522	Improved tennis equipment to increase access and performance in tennis.		✓		✓	✓	Children were able to access a specialised sport, boosting their confidence and enhancing their performance. Children were able to participate in more competitions and develop a deeper understanding of the sport, thanks to having access to the appropriate resources. Impact will be sustained through: Children will continue to engage in different sports using the correct resources. Resources will be kept separate to playground equipment to ensure high quality.
