Results: We won the first match 3-1 and narrowly lost the second match 3-2.

Well done to all the boys in Y6 and Y5

PTA - Macmillan Coffee Morning

It's that time of year for one of our favourite social occasions at Sacred Heart School and we'd love to see as many of you join us as possible.

From 8.30am on Friday 27th September, we will be hosting the Macmillan Coffee Morning to raise funds for a cause which affects us all in some way.

Donations of bakes are always welcome but not a condition of entry! The event is open to anyone to attend and not restricted to parents currently at the school - please feel free to extend the invite.

We usually sell on bakes to the children at their morning break, so do remember to give your child some money if you would like them to take part.

The team will be available to receive cakes, bakes, biscuits, scones or whatever the Great British Bake Off inspires in the hall from 8.00am on the day. A gentle reminder that we are a nut free school.

We look forward to seeing as many of you there as possible and smashing our fundraising target of £450 this year.

OPEN MORNINGS

- **St Gregory's Catholic School:** Wednesday 25th September, Thursday 26th September, Wednesday 16th October and Friday 18th October 09.00-11.00 and Thursday 26th September 16.30-19.30
- **Beechwood Sacred Heart School:** Saturday 28th September, Tuesday 5th November, Tuesday 3rd March, Tuesday 5th May 2020 - 9.30am – 12.30pm Head's presentation: 11.00am
- **Mayfield Girls School:** Thursday 19th September, Tuesday 5th November, Friday 20th March and Tuesday 21st April 2020
- **Bethany:** Saturday 21st September 10.00-13.00, Wednesday 16th October 09.00-11.30

Another busy and exciting week at Sacred Heart School where learning is fun!

All of Key Stage two complete computer programming as part of their ICT curriculum, and each year group investigates different software. This term Year 5 are learning how to program Kodu, which is a visual programming language that enables children to create their own video games. Programming in Kodu is based on dragging, dropping and sequencing various command tiles to produce different activities. You can also use design tools to create your own world in which your game will take place.

last week, and how to add and then move characters in their worlds. This week they have been learning how to program characters to collect objects. Later on, they will learn how to move objects randomly and continuously, setting up motion paths. They will complete their games

by introducing a points system, where users can gain points by firing at or eating objects.

All that sounds very complicated, but it is very easy to learn how to use the program and the children have been having great fun. I'm sure parents in Year 5 have already heard lots about it! The children are well on their way to becoming Super Coders!

Reception have all settled in brilliantly to the school routines. We have shared a snack whilst getting to know our Year 6 buddies who have been looking out for us during playtimes. We are looking particularly smart in our new school uniform and have created a painting of ourselves. Our theme in RE is Family, therefore we have been learning about the importance of our names and

making sure we call each other by name. Last week we created a watercolour painting, where our special names magically formed.
