MEMORY BOXES FOR WADHURST MANOR

The school council have been busy making up memory boxes for residents at Wadhurst Care Home as part of Dementia Action Week. The children were given some information about each resident and filled their memory boxes with objects to help them reminisce and recall hobbies, favourite places and events. The memory boxes provide opportunities for conversation and mental and emotional stimulation, which can benefit those suffering from memory problems.

Another busy and exciting week at Sacred Heart School where learning is fun!

NURSERY

The Foundation Stage went on a trip to Wilderness Wood this week. In the morning, the children made a Hapa-Zome flag by hammering the natural dye out of leaves. We also went on a scavenger hunt, to find things that were soft, hard, crunchy, rough and smooth. In the afternoon, we went on a bug hunt, we made small animals out of clay and a shelter for them to live in. An enjoyable day was had by all!

YEAR 1

We had a wonderful time at Wilderness Wood on Tuesday, as you will see from the photos on the website.

Please follow this link: <https://www.sacredheartwadhurst.org.uk/photo-galleries/fs-ks1-trip-to-wilderness-wood>

We enjoyed looking for wild flowers in the school grounds on what was a perfect, sunny afternoon, and identified the species on our wild flower ID sheet. Back in class, we looked at a wider collection of wild flowers and we are now trying to remember all their names. We were very excited to spot so many wildflowers at Wilderness Wood too!

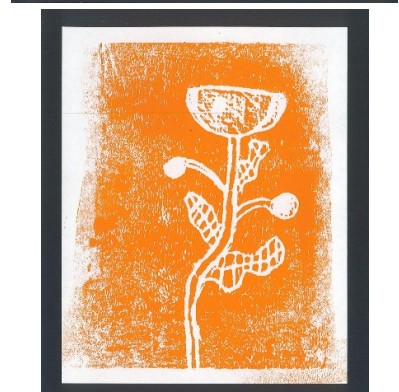

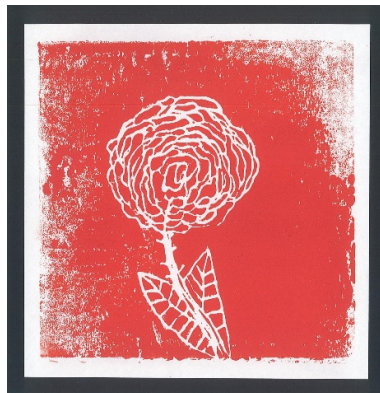

Claude Monet is the focus of our Art lessons, and we think we have made a good start with our Monet-style lily pond paintings.

We were proud to share our special Pentecost story with our parents and the whole school.

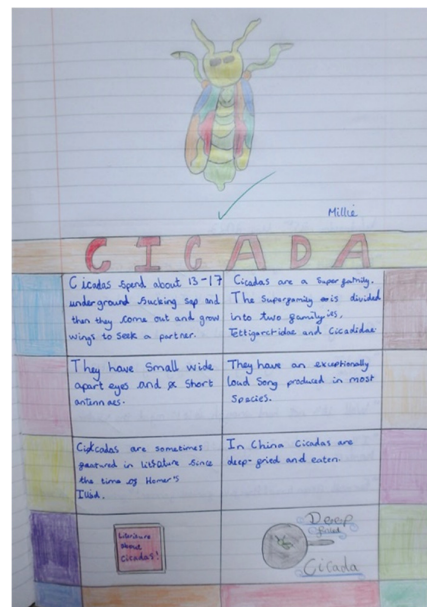

YEAR 3

On their trip to Great Dixter last week, the children started an Art activity by sketching flowers and plants in the beautiful gardens. The children took their sketches back to the Education Room where they etched their favourite sketch onto a polystyrene tile using a pencil. The children then chose the colour they wanted to use for their print and, rolling the ink onto their tile, they created really striking prints, some of which can be seen below.

YEAR 5

Year 5 have been reading a range of stories by Shaun Tan, which have fantastic illustrations, which often tell part of the story. They really enjoyed the story "Cicada" and made their own information posters about cicadas and their lifecycle. This really helped them to understand the story, which compares elements of working in an office to the insect lifecycle. Many of his stories also raise issues about being different and being an outsider and reactions to this. Year 5 have enjoyed debating these issues and thinking about how we treat those in society who are different, and whether we sometimes bully, ignore or exclude some people just because they are different. Everyone enjoyed the story of "The Lost Thing". Children created their own "lost things", drafted original designs, and detailed descriptions for them. The next step is to write their own short stories, with illustrations, which copy aspects of Shaun Tan's style.

In ICT everyone enjoyed learning about different ways of sending information, and they experimented with sending messages using Semaphore flags and Morse Code. This was great fun, but we all agreed that you would need to practise quite a lot to get very good! Year 5 are now focusing on Excel, how to create simple databases, then use formulae to create automatic data calculations.
