

Samlesbury CE Primary School

'Let your light shine!'

Live as a light to others

Live to do good

Live to love God

Based on Matthew 5:14-16

07051: Online Safety Policy

Date agree and ratified by the Governing Body: June 2025

Date of next review: June 2026

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Samlesbury CE Primary School to safeguard members of our school community online in accordance with statutory guidance and best practice. Schools should be aware of the legislative framework under which this Online Safety Policy template and guidance has been produced as outlined in the attached 'Legislation' Appendix.

This Online Safety Policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Mellor Samlesbury CE CE Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed by the DSL.

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for development, monitoring and review

This Online Safety Policy was approved by the school governing body on:	Resources Committee 11.6.2025 Full GB meeting 2.7.2025
The implementation of this Online Safety Policy will be monitored by:	<i>Computing Subject Lead /DHT/DDSL:</i> <i>Chris Blackburn</i> <i>Online Safety Governor</i> <i>P Metcalf</i> <i>Safeguarding Governor</i> <i>J Taylor</i>
Monitoring will take place at regular intervals:	<i>Termly through Curriculum Committee</i> <i>Annually Full GB</i>

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

The <i>governing board</i> will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	<i>Annually to FGB</i> <i>Feedback from DDSL Online Safety Lead at each termly committee</i>
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	September 2026
Should serious online safety incidents take place, the following external persons/agencies should be informed:	Police LCC Schools Safeguarding Officer - Victoria Wallace: 01772 531196 Michelle Lewis 01772 531196

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- logs of reported incidents
 - monitoring logs of internet activity (including sites visited)
 - internal monitoring data for network activity
- surveys/questionnaires of:
 - learners
 - parents and carers
 - staff.

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals¹ and groups within the school.

¹ In a small school some of the roles described may be combined, though it is important to ensure that there is sufficient 'separation of responsibility' should this be the case.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety may be delegated to the Online Safety Lead.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff².

The headteacher/senior leaders are responsible for ensuring that the Online Safety Lead, technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.

The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.

- The headteacher/senior leaders will receive regular monitoring reports from the Online Safety Lead, also the Computing Subject Lead.
- The headteacher/SLT will ensure that all staff have been trained and understand the filtering and monitoring systems used for online safety in school.
- They will be aware of how they work and understand any breaches that may occur.

Governors

The DfE guidance “Keeping Children Safe in Education” states:

“Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare this includes ... online safety”

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy e.g. by asking the questions posed in the UKCIS document “Online Safety in Schools and Colleges – questions from the Governing Body”.

This review will be carried out by Designated Safeguarding Governor and governing body whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Online Safety Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- reporting to relevant *governors meeting*
- occasional review of the filtering change control logs and the monitoring of filtering logs – all governors will be aware of the school systems and understand how they work effectively for protecting the school.

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Online Safety Lead

The Online Safety Lead will:

² See flow chart on dealing with online safety incidents in ‘Responding to incidents of misuse’ and relevant local authority/MAT/ HR/other relevant body disciplinary procedures.

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

lead the Online Safety within school

- work closely on a day-to-day basis with the Designated Safeguarding Lead (DSL), where these roles are not combined
- take day-to-day responsibility for online safety issues, being aware of the potential for serious child protection concerns
- have a leading role in establishing and reviewing the school online safety policies/documents
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- receive reports of online safety incidents³ and create a log of incidents to inform future online safety developments
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with (school/local authority/MAT/external provider) technical staff, pastoral staff and support staff (as relevant)
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and if possible, filtering and monitoring logs
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team.
- liaises with the local authority/MAT/relevant body.

Designated Safeguarding Lead (DSL)

The DfE guidance “Keeping Children Safe in Education” states:

“The designated safeguarding lead should take lead responsibility for safeguarding and child protection (**including online safety**). This should be explicit in the role holder’s job description.”
... Training should provide designated safeguarding leads with a good understanding of their own role, ... so they ... are able to understand the unique risks associated with **online safety** and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college.”

The Designated Safeguarding Lead should be trained in online safety issues and be aware of the potential for serious safeguarding issues to arise from:

- sharing of personal data ⁴
- access to illegal/inappropriate materials
- inappropriate online contact with adults/strangers

³ The Online Safety Lead will refer any of these to the SLT and the behaviour policy will be followed.

⁴ See ‘Personal data policy’ in the Appendix.

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

- potential or actual incidents of grooming
- online bullying.

Curriculum Leads

Curriculum Leads will work with the Online Safety Lead to develop a planned and coordinated online safety education programme provided by Kapow.

This will be provided through:

- a discrete programme
- PHSE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement
- they immediately report any suspected misuse or problem to Computing Subject Lead for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, staff must have full regard to national safeguarding guidance and local safeguarding policies
- have a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

- All staff must be aware of monitoring and filtering systems that are used in school and know what to do if these are breached.

Network manager/technical staff

Lancashire Education and Digital Services as well as Hudson Hill are responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the local authority/MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to Computing Subject Lead for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person.
- monitoring software/systems are implemented and regularly updated as agreed in school policies. In Samlesbury CE Primary School the filtering system is NETSWEEPER which is managed by Lancashire Educational Services and monitored by School and Hudson Hill.

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy.
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.
- Children are aware that there are monitoring and filtering sites used in school and know what to do if they feel something is inappropriate and has got through the software.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement (AUA)
- publish information about appropriate use of social media relating to posts concerning the school
- seeking their permissions concerning digital images, cloud services, including Google Classroom

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Online Safety Group

The Online Safety Group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and monitoring the Online Safety Policy including the impact of initiatives.

The Online Safety Group has the following members (due to Samlesbury being a very small school one person may have several roles):

- Online Safety Lead
- Designated Safeguarding Lead
- senior leaders
- online safety governor
- teacher and support staff members
- learners
- parents/carers
- community representatives

Members of the Online Safety Group will assist the Online Safety Lead with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy (if possible and if the school chooses to have one) and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe selfreview tool.

Monitoring and Filtering

- We follow the monitoring and filtering guidelines set out in 2023 DFE monitoring and filtering guidance: [Meeting digital and technology standards in schools and colleges - Filtering and monitoring standards for schools and colleges - Guidance - GOV.UK \(www.gov.uk\)](#)

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

- The DDSL leads on monitoring the effectiveness of the school's filtering system in consultation with Lancashire Digital Education Service and Hudson Hill.
- The school online system is managed by Netsweeper, which is run by Lancashire Digital; Education Services who are part of Lancashire County Council.
- Netsweeper identifies, categorises, and blocks harmful or inappropriate web content to promote online safety, child protection and wellbeing, inline with the KCSIE 2024 requirements.
- Reports are sent weekly to the computing subject lead / Hudson Hill (technical services). – the first is a Prevent Report which shows any areas of possible weakness in the school system. This allows Hudson Hill and the computer subject lead to take action to prevent the school system being compromised by the risks assessed.
 - The second report is a suspicious search report, which allows school to identify any suspicious activity on the school system. This will allow school and Hudson Hill to monitor and check on these including where they have come from and how we can support Netsweeper in preventing them in the future.
- All staff are aware of the monitoring systems in place and have the reports shared with them to build their understanding. They are aware that any breaches must be reported to the subject lead / Hudson Hill immediately. If breaches are made by children then these must be reported in line with safeguarding procedures.
- All children are aware that the computer systems have a monitoring and filtering system on them. All children now have their own login which makes it easier to identify where and when a possible breach may have occurred. Children also know that they must report anything suspicious to their teacher immediately.

Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Policy

Online Safety Policy

The DfE guidance “Keeping Children Safe in Education” states:

“Online safety and the school or college’s approach to it should be reflected in the child protection policy”

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels of email and the shared One Drive.
- is published on the school website.

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

User actions		Acceptable	Acceptableat certaintimes	Acceptablefor nominatedusers	Unacceptable	Unacceptableand illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Any illegal activity for example: <ul style="list-style-type: none"> • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering 					X
Users shall not undertake activities that might be classed as cyber-crime under	<ul style="list-style-type: none"> • Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) 					X
User actions		Acceptable	Acceptableat certaintimes	Acceptablefor nominatedusers	Unacceptable	Unacceptableand illegal
the Computer Misuse Act (1990)	<ul style="list-style-type: none"> • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission) 					

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X	X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for noneducational purposes:	Staff and Other Adults	Learners
---	-------------------------------	-----------------

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Schools may wish to add further activities to this list.	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission / awareness
Online gaming	X						X	
Online shopping/commerce			X		X			
File sharing		X					X	
Social media			X		X			
Messaging/chat			X				X	
Entertainment streaming e.g. Netflix, Disney+		X			X

Mobile phones may be brought to school		X				X		
Use of mobile phones for learning at school	X				X			
Use of mobile phones in social time at school		X			X			
Taking photos on mobile phones/cameras	X				X			
Use of other personal devices, e.g. tablets, gaming devices			X		X			
Use of personal e-mail in school, or on school network/wi-fi			X		X			
Use of school e-mail for personal e-mails	X				X			

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Acceptable Use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below

Acceptable use agreements

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction
- built into education sessions
- school website
- peer support

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

The 2021 Ofsted “Review of Sexual Abuse in Schools and Colleges” highlighted the need for schools to understand that reporting systems do not always respond to the needs of learners. While the report looks specifically at harmful sexual behaviours, schools may wish to address these issues more generally in reviewing their reporting systems. The Ofsted review suggested:

“School and college leaders should create a culture where sexual harassment and online sexual abuse are not tolerated, and where they identify issues and intervene early to better protect children and young people. ...In order to do this, they should assume that sexual harassment and online sexual abuse are happening in their setting, even when there are no specific reports, and put in place a whole-school approach to address them. This should include:

- o routine record-keeping and analysis of sexual harassment and sexual violence, including online, to identify patterns and intervene early to prevent abuse”

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

there are clear reporting routes which are understood and followed by all members of the school community (CPOMS) which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.

all members of the school community will be made aware of the need to report online safety issues/incidents reports will be dealt with as soon as is practically possible once they are received the Designated Safeguarding Lead, DDSL Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.

if there is any suspicion that the incident involves any illegal activity or the potential for serious harm, the incident must be escalated through the agreed school safeguarding procedures. any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the LADO - local authority designated officer. where there is no suspected illegal activity, devices may be checked using the following procedures:

- one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
- ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
- once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following: o
 - internal response or discipline procedures o
 - involvement by local authority / MAT (as relevant) o
 - police involvement and/or action

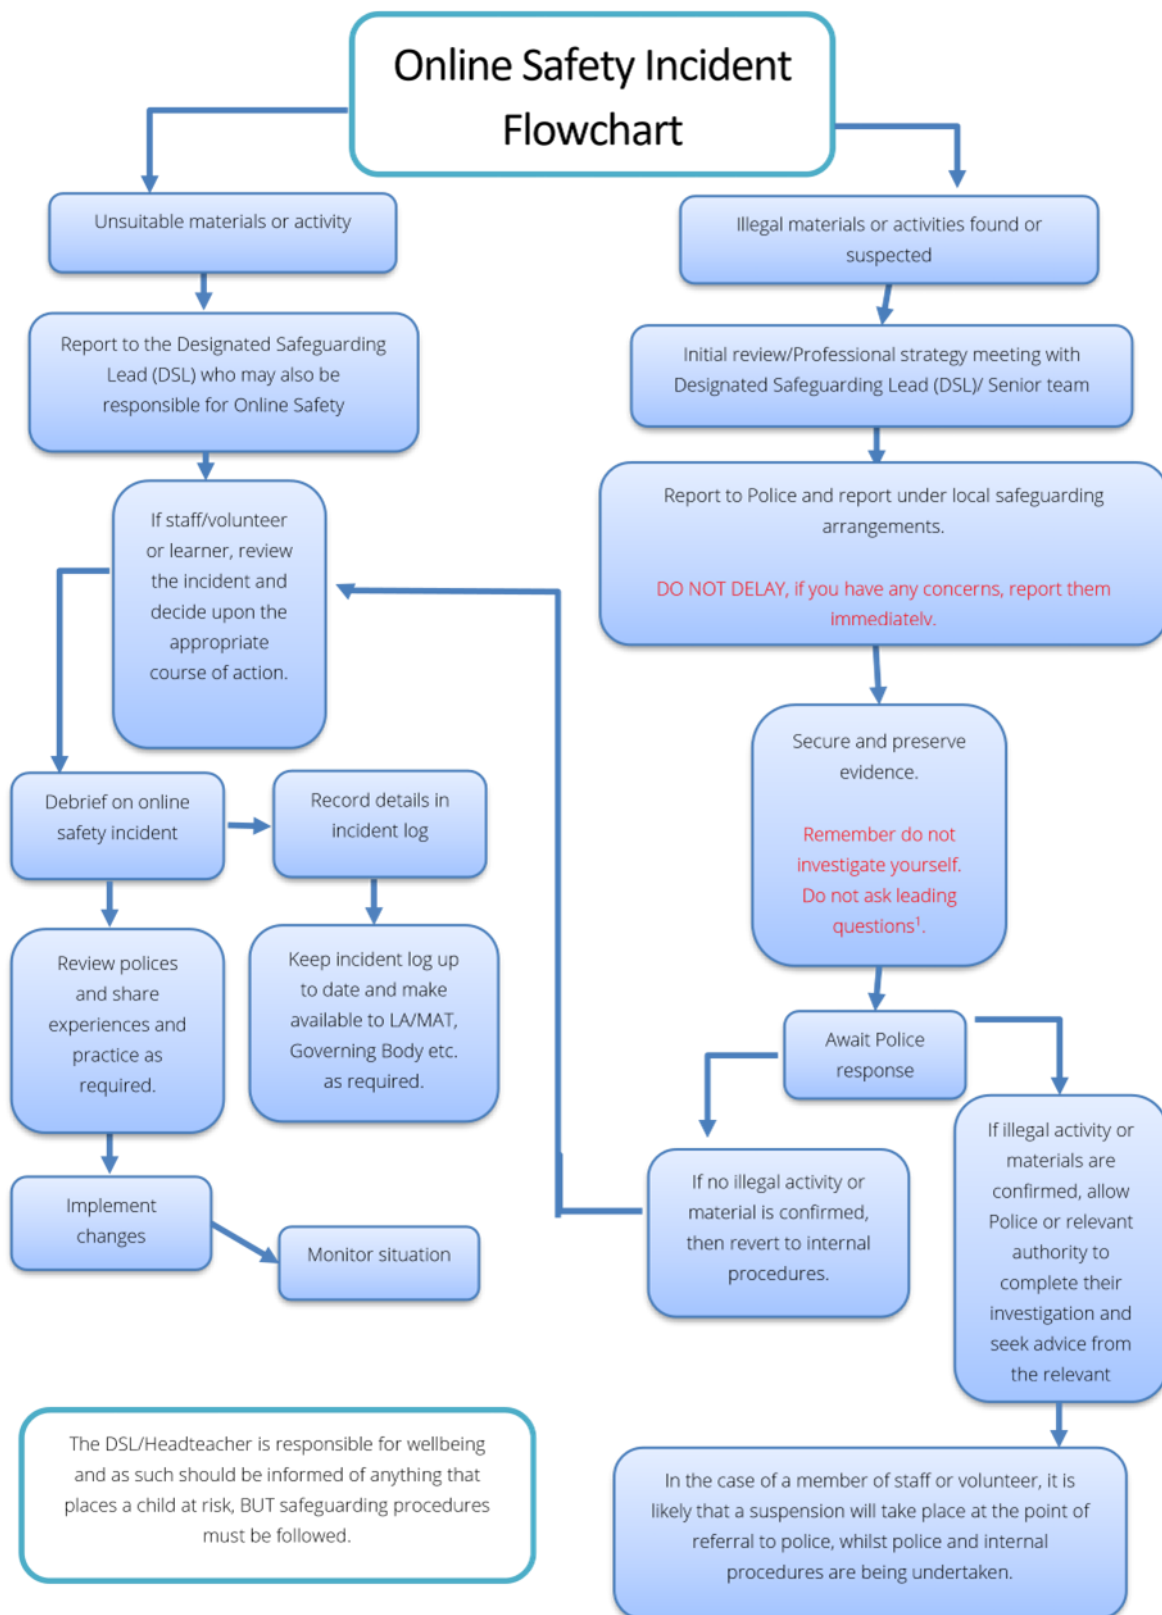

it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident incidents will be logged relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; Professionals Online Safety Helpline; Reporting Harmful Content; CEOP. those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions learning from the incident (or pattern of incidents) will be provided to:

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

- the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
- staff, through regular briefings
- learners, through assemblies/lessons
- parents/carers, through newsletters, school social media, website
- governors, through regular safeguarding updates
- local authority/external agencies, as relevant

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher	Refer Computing Subject Lead/Deputy Head teacher	Refer to Head teacher	Refer to Police / Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	X		X			
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords	X	X							X
Corrupting or destroying the data of other users.		X	X			X			X
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature		X	X			X			X
Unauthorised downloading or uploading of files or use of file sharing.		X							X
Using proxy sites or other means to subvert the school's filtering system.		X	X			X			X

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Accidentally accessing offensive or pornographic material and failing to report the incident.		X	X			X			X
Deliberately accessing or trying to access offensive or pornographic material.		X	X			X			X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.		X							X
Unauthorised use of digital devices (including taking images)		X				X			X
Unauthorised use of online services		X							X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.		X	X			X			X
Continued infringements of the above, following previous warnings or sanctions.		X	X		X	X	X		X

Responding to Staff Actions

	Refer to computing subject leader / head teacher	Refer to head teacher	Refer to local authority / HR	Refer to Police	Refer to LA / Technical support staff for action / refiltering etc	Issue warning	Suspension	Disciplinary action

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)	x	x	x	x				x
Deliberate actions to breach data protection or network security rules.	x	x						x
Deliberately accessing or trying to access offensive or pornographic material	x	x						x
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	x	x						x
Using proxy sites or other means to subvert the school's filtering system.	x	x			x			x

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Unauthorised downloading or uploading of files or file sharing	x							
Breaching copyright or licensing regulations	x	x						x
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	x	x						x
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers	x	x						
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	x	x						x
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	x	x						x
Actions which could compromise the staff member's professional standing	x	x						x

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X						X
Failing to report incidents whether caused by deliberate or accidental actions	X	X						X
Continued infringements of the above, following previous warnings or sanctions.	X	X						X

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Online Safety Education Programme

While regulation and technical solutions are particularly important their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

Keeping Children Safe in Education 2023 and the 2021 Ofsted "Review of Sexual Abuse in Schools and Colleges" highlighted the need for:

"a carefully sequenced RSHE curriculum, based on the Department for Education's (DfE's) statutory guidance, that specifically includes sexual harassment and sexual violence, including online. This should include time for open discussion of topics that children and young people tell us they find particularly difficult, such as consent and the sending of 'nudes'.."

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum for all year groups and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need

- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion through conversations and questionnaires
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

The DfE guidance "Keeping Children Safe in Education" states:

"All staff should receive appropriate safeguarding and child protection training (including online safety) at induction. The training should be regularly updated. In addition, all staff should receive safeguarding and child protection (including online safety) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively."

"Governing boards should ensure... that safeguarding training for staff, including online safety training, is integrated, aligned and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning."

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours
- the DDSL Online Safety Lead and Designated Safeguarding Lead will receive regular updates through attendance at external training events, (e.g. UKSIC / SWGfL / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Online Safety Lead will provide advice/guidance/training to individuals as required.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority or other relevant organisation
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. SWGfL; www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).
- Sharing good practice with other schools in clusters and or the local authority

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- the school will provide online safety information via their website and social media for the wider community

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering

- the school filtering policies are agreed by senior leaders and technical staff and are regularly reviewed and updated in response to changes in technology and patterns of online safety incidents/behaviours
- the school manages access to content across its systems for all users. The filtering provided meets the standards defined in the UK Safer Internet Centre
- access to online content and services is managed for all users
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content
- there is a clear process in place to deal with requests for filtering changes (see Filtering policy for more details).
- the school has provided enhanced/differentiated user-level filtering (allowing different filtering levels for different abilities/ages/stages and different groups of users: staff/learners, etc.)
- younger learners will use child friendly/age-appropriate search engines
- filtering logs are regularly reviewed and alert the school to breaches of the filtering policy, which are then acted upon.
- where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content](#) site.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

Monitoring

The DfE guidance “Keeping Children Safe in Education” states:

“It is essential that governing bodies and proprietors ensure that appropriate filters and monitoring systems are in place ...governing bodies and proprietors should be doing all that they reasonably can to limit children’s exposure to the ... risks from the school’s or college’s IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filters and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified. “

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- An appropriate monitoring strategy for all users has been agreed and users are aware that the network is monitored. There is a staff lead responsible for managing the monitoring strategy and processes.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention. Management of serious safeguarding alerts is consistent with safeguarding policy and practice
- Technical monitoring systems are up to date and managed and logs/alerts are regularly reviewed and acted upon.

The school follows the UK Safer Internet Centre Appropriate Monitoring guidance and protects users and school systems through the use of the appropriate blend of strategies strategy informed by the school’s risk assessment. These may include:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- *where possible, school technical staff regularly monitor and record the activity of users on the school technical systems*

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements.

- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- there are rigorous and verified back-up routines, including the keeping of network separated (air-gapped) copies off-site or in the cloud
- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the Computing Subject Lead and will be reviewed, at least annually, by the Online Safety Group
- all users (adults and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

on details. Users must immediately report any suspicion or evidence that there has been a breach of security

- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone.
- See Technical Security policy for more details.

Mobile technologies

The DfE guidance “Keeping Children Safe in Education” states:

“The school or college should have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually harass, bully, and control others via their mobile and smart technology, share indecent images consensually and non-consensually (often via large chat groups) and view and share pornography and other harmful content. Schools and colleges should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection policy.

Social media

Expectations for teachers’ professional conduct are set out in the DfE Teachers Standards but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

Refer to the Social Media Policy for further details.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.

when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.

staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes in accordance with guidance from the Information Commissioner’s Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images care should be taken

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

when sharing digital/video images that learners are appropriately dressed learners must not take, use, share, publish or distribute images of others without their permission photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy learners' full names will not be used anywhere on a website or blog, particularly in association with photographs

written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media. Permission is not required for images taken solely for internal purposes parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy images will be securely stored in line with the school retention policy learners' work can only be published with the permission of the learner and parents/carers.

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Online newsletters
- Email

The school website is managed/hosted by Primary Site. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

- Refer to our school GDPR Policy and Privacy Notice for further details.

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11

- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse,
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school’s online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

“For I know the plans I have for you,” says the LORD. “They are plans for good and not for disaster, to give you a future and a hope.” Jeremiah 29:11

"For I know the plans I have for you," says the LORD. "They are plans for good and not for disaster, to give you a future and a hope." Jeremiah 29:11
