

24th April 2024

Dear Parent / Carer

Understanding attendance at The Samworth Church Academy

We are writing to inform you of an exciting research project we are working on with our partner ImpactEd. ImpactEd is a social enterprise research company which evaluates what is working well in schools across the country and what impact this is having on the outcomes of our young people.

Improving attendance is a shared goal not only at the Samworth Church Academy but across UK schools as a whole. We are using the ImpactEd platform to complete self-report surveys to help us understand some of the barriers to achieving higher attendance rates. This will help us put in place targeted interventions and support for our pupils.

Over the next few weeks, all pupils will complete a short self-report survey to gather their feedback on the following areas related to attendance rates:

- **School engagement** - measures pupils' behavioural, emotional and cognitive engagement with school.
- **Psychological sense of school membership** - focused on a sense of belonging to the school community.
- **Anxiety** - feelings of worry or fear that is experienced as a combination of physical sensations, thoughts or feelings.
- **Grit** - perseverance and passion for long-term goals.

Pupils will complete their surveys during the school day. While we hope pupils will value the opportunity to give their honest opinions on these topics, pupils will also be made aware that they can opt out of the survey if they wish.

As part of this research, we also want to gather your views as parents and carers. You are invited to complete our survey related to your views on attendance and how we can further support you. We really appreciate your honest feedback and time in completing this survey.

You can access the survey on the link or QR code:

<https://impacted.typeform.com/samworthchurch>

Thank you in advance for your support and we look forward to sharing the findings with you later this academic year.

Yours faithfully,

Mr L Braybrooke
Attendance Lead
