1 Roles and Responsibilities

Everyone

Safeguarding and promoting the welfare of children is everyone's responsibility. Everyone in our academy who comes into contact with children and their families has a role to play in safeguarding children. All staff in our academy consider, at all times, what is in the best interests of children.

All staff within our academy are important as they are in a position to identify concerns early and provide help to children to prevent concerns from escalating. All staff contribute to providing a safe environment in which children can learn.

All our staff are aware of the Early Help Process and understand their role in this, this includes being able to identify emerging problems in order to recognise children who may benefit from early help. Staff know in the first instance to discuss their concerns with the Designated Safeguarding Lead and understand they may be required to support other agencies and professionals in assessments for early help.

No one staff member can have a complete picture of a child's needs. In order to ensure the right help is received at the right time everyone who comes into contact with any one child has a role to play in identifying and sharing concerns.

All our staff are aware of systems within The Samworth Church Academy and these are explained to them as part of staff induction, which include our child protection policy; the academy behaviour policy; the safeguarding response to children who go missing from education; the employee code of conduct; the whistle blowing policy; the role of the Designated Safeguarding Lead and Keeping Children Safe in Education Part One and Annex A. Our academy utilises an induction checklist when staff are inducted which includes the above, but also other policy and procedural information

All staff **must** read Keeping Children Safe in Education 2023 Part 1. Staff **not** working directly with children may read Annex A, a condensed version of part 1.

All our staff receive safeguarding and child protection training which is updated every three years. In addition to this training all staff members receive child protection and safeguarding updates throughout the academic year. Each year, and on induction, all academy staff will complete the Hays Online safeguarding training.

All our staff are aware of the process for making referrals to children's social care and for statutory assessments under the Children Act 1989 and understand the role they may have in these assessments.

- All our staff know what to do if a child is raising concerns, discloses abuse or is showing signs of neglect. Staff will maintain a level of confidentiality whilst liaising with the Designated Safeguarding Lead and Children's Social Care. Our staff will never promise a child that they will not tell anyone about a disclosure or allegation, recognising this may not be in the best interest of the child. They

will be aware that a pupil may not feel ready or know how to tell someone that they are being abused, exploited or neglected, and/or may not recognise their experiences as harmful.

Staff are aware, and have received training in respect to online safety; this includes filtering and monitoring systems.

Teachers (including ECTs) and Headteachers – Professional Duty

The Teacher's Standards 2012 (updated 2021) remind us that teachers, early career teachers and headteachers should safeguard children and maintain public trust in the teaching profession as part of their professional duties.

Designated Safeguarding Lead

We have a Designated Safeguarding Lead who takes lead responsibility for safeguarding children and child protection, and who has received appropriate training and support for this role. This Designated Safeguarding Lead is a senior member of the academy leadership team and their responsibilities are explicit in their job description. This includes online safety and understanding the filtering and monitoring systems and processes in place.

We also have a Deputy Safeguarding Lead, who will provide cover for the Designated Safeguarding Lead when they are not available. Our Deputy Safeguarding Lead has received the same training as our Designated Safeguarding Lead. They will provide additional support to ensure the responsibilities for child protection and safeguarding children are fully embedded within the academy ethos and that specific duties are discharged. They will assist the Designated Safeguarding Lead in managing referrals, attending Child Protection Conferences and supporting the child/children. Communication between the Designated Safeguarding Lead and the Deputy Safeguarding Lead will be frequent, confidential and ensure that both have a thorough understanding of the safeguarding and child protection issues in the academy.

We acknowledge the need for effective and appropriate communication between all members of staff in relation to safeguarding pupils. Our Designated Safeguarding Lead will ensure there is a structured procedure within the academy, which will be followed by all the members of the academy community in cases of suspected abuse.

Due to the size of the academy and pupil numbers, or because our academy there are additional Designated Safeguarding Officers on site. All have completed the required training and are overseen by the Senior Designated Safeguarding Lead to ensure child protection responsibilities are met and the needs of the children/young people on roll.

The Designated Safeguarding Lead is expected to:

Manage Referrals

- Refer cases of suspected abuse or allegations to the relevant investigating agencies.
- Support staff who make referrals to children's social care and other referral pathways
- Refer cases where a person is dismissed due to risk/harm to a child

Work with others

- Liaise with the principal to inform her of any issues and ongoing investigations.
- Liaise with the SNMAT safeguarding officer regarding any issues, for support, for training needs and any allegations against staff members.
- Liaise with the case manager and the LADO where there are concerns about a staff member.
- Liaise with staff on matters of safety and safeguarding and deciding when to make a referral by liaising with other agencies. Act as a source of support, advice and expertise for other staff.
- Liaise with the principal to inform her of issues- especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations. This should include being aware of the requirement for children to have an Appropriate Adult. [PACE Code C 2019](#)
- Take part in strategy discussions or attend inter-agency meetings and/or support other staff to do so and to contribute to the assessment of children.
- Liaise with the local authority and other agencies in line with Working Together to Safeguard Children 2018 (amended 12/2020) and the local Nottinghamshire Safeguarding Children Partnership procedures and practice guidance.
- Liaise with the virtual school head with respect to their responsibility to promote the education of children who have a social worker.

Undertake training

Formal Designated Safeguarding Lead training will be undertaken every two years. Informal training and updating of knowledge and skills will be at regular intervals, undertaken at least annually. The Designated Safeguarding Lead is responsible for their own training and should obtain access to resources or any relevant refresher training.

The training undertaken should enable the Designated Safeguarding Lead to:

- understand the assessment process for providing early help and intervention through the Pathway to Provision, EHAF and the Early Help Unit.
- Have a working knowledge of how the Nottinghamshire Safeguarding Children Partnership operates, the conduct of a child protection conference, and be able to attend and contribute to these effectively when required to do so.
- Ensure that each member of staff has access to the child protection policy and procedures.
- Be alert to the specific needs of children in need, including those with special educational needs and or disabilities and young carers.
- Be able to keep detailed, accurate, secure written records of concerns and referrals.

- Understand the Prevent Duty and provide advice and support to staff on protecting children from the risk of radicalisation.
- Encourage a culture of protecting children, listening to children and their wishes and feelings.
- Keep clear records of all staff safeguarding training.
- Have detailed knowledge of areas of safeguarding that are of specific concern within their local community

Raise awareness

- Ensure that the child protection policies are known, understood and used appropriately.
- Ensure that the child protection policy is reviewed annually, procedures and implementation are updated and reviewed regularly, and that the governing body is kept up to date and actively involved.
- Work strategically to ensure policies and procedures are up to date and drive and support development work within the academy.
- Ensure that the child protection policy is available to parents and carers and make parents/carers aware that referrals may be made about suspected abuse or neglect.
- Liaise with the NSCP and ensure all staff receive induction training covering child protection and are able to recognise and report any concerns immediately as they arise.

Child Protection Files

The Designated Safeguarding Lead is responsible for ensuring that where children leave the academy their child protection file is transferred to the new school or college as soon as possible. A signed receipt must be obtained, where the receiving school or academy does not have CPOMS.

Availability

During term time the Designated Safeguarding Lead (or a deputy) are always available (during school hours) for staff in the academy to discuss any safeguarding concerns. Appropriate arrangements will also need to be arranged for any out of hours activities in line with guidance contained in DfE KCSiE, 2023 page 164.

If, for any reason, the Designated Safeguarding Lead and their Deputy are not available, staff should speak to the SNMAT Safeguarding Officer or a member of the SLT and/or take advice from local social care

Designated Safeguarding Leads should also:

help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues with teachers and academy leadership staff

Principal

The Principal of the academy will ensure that:

- The policies and procedures adopted by the governing body are fully implemented and followed by all staff.
- Sufficient resources and time are allocated to enable the Designated Safeguarding Lead and other staff to discharge their responsibilities, including taking part in strategy discussions and inter-agency meetings, and contributing to the assessment of children.
- All staff and volunteers feel able to raise concerns about poor or unsafe practice with regard to children, and that such concerns are addressed sensitively and effectively in a timely manner in accordance with agreed whistle-blowing policies.
- The principal will ensure all staff have access to and read and understand: the Academy Safeguarding and Child Protection Policy, the Staff Code of Conduct, DfE Keeping Children Safe in Education guidance 2023, part one (or annex A for those not working directly with children), the SNMAT Whistle Blowing Policy, as a minimum.
- The principal will ensure there are mechanisms in place to assist staff to understand and discharge their role and responsibilities as set out in Part One of Keeping Children Safe in Education 2023.
- Any concerns about the conduct of adults in the academy should be taken to the principal without delay (or if not possible, to the Designated Safeguarding Lead).

Governing Body

The governing body and trust directors will be collectively responsible for ensuring that safeguarding arrangements are fully embedded within the academy's ethos and reflected in the academy's day to day safeguarding practices by:

- Ensuring there is an individual member of the governing body to take leadership responsibility for safeguarding and to champion child protection issues within the academy.
- Ensuring that the academy has effective policies and procedures in line with statutory guidance (Working Together to Safeguard Children (2018, amended 12/2020) as well as with local NSCP guidance and monitor the academy's compliance with them.
- Ensuring that safeguarding policies and procedures are in place for appropriate action to be taken in a timely manner to promote a child's welfare.
- Recognising the importance of information sharing between agencies (in line the guidance, Information Sharing: Advice for Practitioners providing Safeguarding Services to Children, Young People, Parents and Carers, July 2018). Ensuring cooperation with the local authority and other safeguarding partners. Working together to Safeguard Children (2018, amended 12/2020) states that, while it is good practice to inform parents/carers that you are sharing personal information, you do not need consent to share personal information provided that there is a lawful basis to process any personal information required. The Data Protection Act 2018 includes safeguarding

of children and individuals at risk as a processing condition that allows practitioners to share information without consent.

- Appointing a Designated Safeguarding Lead from the leadership team to take lead responsibility for safeguarding and child protection and a Designated Teacher for Looked After Children, who is appropriately trained.
- Ensuring that all staff and governors read at least part one of Keeping Children Safe in Education 2023 and Annex A and ensure that there are mechanisms in place to assist staff to understand and discharge their role and responsibilities as set out in the document.
- Ensuring that the governing body is collectively responsible for the academy's safeguarding arrangements. All members of the governing body will undertake training about child protection to ensure they have the knowledge and information needed to perform their functions and understand their responsibilities by undertaking Hays Online annual training and other training relevant to their role.
- The Chair of Governors and named child protection/safeguarding governors will access role specific training to enable them to discharge and comply with their child protection and safeguarding responsibilities.
- Ensuring there is a training strategy in place for all staff, including the headteacher, so that child protection training is undertaken annually (Hays online) and with face to face refresher training at three yearly intervals. The Designated Safeguarding Lead should receive refresher training at two yearly intervals.
- Ensuring that staff undergo safeguarding child protection training at induction and that there are arrangements in place for staff to be regularly updated to ensure that safeguarding remains a priority.
- Ensuring that temporary staff and volunteers who work with children are made aware of the academy's arrangements for child protection and their responsibilities.
- Ensuring that there are procedures in place to manage allegations against staff.
- Exercising their disciplinary functions in respect of allegations against a member of staff or as a consequence of dealing with a complaint.
- Ensuring a response if there is an allegation against the principal by liaising with the LADO or other appropriate officers within the local authority.
- Ensuring appropriate responses to children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse, including child sexual exploitation and to help prevent the risks of their going missing in future.
- Ensuring that appropriate filters and monitoring systems are in place to protect children online.
- Ensuring that children are taught about safeguarding online through a broad and balanced curriculum and focussed events.
- Ensuring that peer on peer abuse is included in safeguarding child protection policy, sexual violence and harassment and the academy's response is included, as are different gender issues that are prevalent in child on child abuse.
- Prevent people who pose a risk of harm from working with children by adhering to statutory responsibilities to check staff who work with children, members of the governing body, making decisions about additional checks and ensuring volunteers are supervised as required.
- Ensuring at least one person on any appointment panel has undertaken safer recruitment training.

- Recognising that certain children are more vulnerable than others, such as looked after children and children with special educational needs and disabilities.
- Ensuring the academy is taking appropriate steps to educate pupils about how to stay safe on line, that appropriate filtering and monitoring systems are in place.
- Be aware of their obligations under the Human Rights Act 1998, the Equality Act 2010 (including the Public Sector Equality Duty), and the local multi-agency safeguarding arrangements.

Looked After Children – the role of Designated Teacher and the Designated Safeguarding Lead

- A teacher is appointed who has responsibility for promoting the education achievement of children who are looked after. They have the appropriate training. The Designated Teacher will work with the Virtual School Head to ensure that the progress of the child is supported.
- The Designated Safeguarding Lead will also have details of the child's social worker and the name of the virtual head. The Designated Safeguarding Lead will work closely with the Designated Teacher as we recognise that children may have been abused or neglected before becoming looked after and we need to ensure their ongoing safety as well as supporting their education and development by linking with the Designated Safeguarding Lead, their social worker and parents where appropriate.

2 Identifying Concerns

All members of staff, volunteers and governors will know how to identify pupils who may be being harmed and then how to respond to a pupil who discloses abuse, or where others raise concerns about them. Our staff will be familiar with procedures to be followed.

Staff understand that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition, and that in most cases multiple issues will overlap with each other.

All staff, will be aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of these environments; this includes being aware that pupils can be at risk of abuse or exploitation in situations outside their families (extra-familial harms).

Staff who regularly come into contact with children are aware of the DfE guidance [What to do if you are Worried a Child is Being Abused](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/419604/What_to_do_if_you_re_worried_a_child_is_being_abused.pdf)
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/419604/What_to_do_if_you_re_worried_a_child_is_being_abused.pdf March 2015

Some of the following signs might be indicators of abuse or neglect:

(the list should not be considered exhaustive and practitioners should remember children may respond in difference ways to abuse)

- Children whose behaviour changes – they may become aggressive, challenging, disruptive, withdrawn or clingy, or they might have difficulty sleeping or start wetting the bed.
- Children with clothes which are ill-fitting and/or dirty.
- Children with consistently poor hygiene.
- Children who make strong efforts to avoid specific family members or friends, without an obvious reason.
- Children who do not want to change clothes in front of others or participate in physical activities.
- Children who are having problems at school, for example, a sudden lack of concentration and learning or they appear to be tired and hungry.
- Children who talk about being left home alone, with inappropriate carers or with strangers.
- Children who reach developmental milestones, such as learning to speak or walk, late, with no medical reason.
- Children who are regularly missing from school or education.
- Children who are reluctant to go home after school.
- Children with poor school attendance and punctuality, or who are consistently late being picked up.
- Parents who are dismissive and non-responsive to practitioners' concerns.
- Parents who collect their children from the academy when drunk, or under the influence of drugs.
- Children who drink alcohol regularly from an early age.
- Children who are concerned for younger siblings without explaining why.
- Children who talk about running away.
- Children who shy away from being touched or flinch at sudden movements.

The four categories of child abuse are as follows:

1. Physical Abuse
2. Emotional Abuse
3. Sexual Abuse, and
4. Neglect

Physical Abuse a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Physical abuse may be recognised by children with frequent injuries, injury such as bruising, bite marks, burns and scalds, fractures but also by aggressive behaviour. It may also be an indicator of concern where a parent gives an explanation inconsistent with the injury or gives several different explanations for the injury.

Emotional Abuse the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of

what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional Abuse may be recognised by developmental delay, attachment issues, aggressive behaviour, appealing behaviour, watchfulness or stillness, low self-esteem, withdrawn or a loner, or having difficulty in forming relationships. Emotional abuse may be difficult to recognise as signs are usually behavioural rather than physical. Signs of emotional abuse may be associated or similar to other forms of abuse, so presence of emotional abuse may indicate other abuse is prevalent as well.

Sexual Abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children (see child on child abuse and sexual violence and harassment).

Sexual abuse may be recognised by: Inappropriate sexualised conduct, age inappropriate sexualised play or conversation, sexually harmful behaviour – contact or non-contact, self-harm, eating disorders, continual, inappropriate or excessive masturbation, anxiousness or unwillingness to remove clothes – sports / PE etc, pain or itching in genital area, blood on underclothes, bruising in genital region and / or inner thighs etc.

[Supporting practice in tackling child sexual abuse](#) - CSA Centre Centre of Expertise on Child Sexual Abuse has free evidence-based practice resources to help professionals working with children and young people to identify and respond appropriately to concerns of child sexual abuse.

Neglect the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Neglect may be recognised by being constantly hungry; constantly tired; have a poor state of clothing; be emaciated; have untreated medical problems; being frequently late or have poor or non-attendance at academy; have low self-esteem; display neurotic behaviour and/or have poor social relationships, have poor personal hygiene. A neglected child may also be apathetic, fail to thrive, or be left with or in the care of adults under the influence of alcohol or drug misuse.

More detail on specific types of abuse that fall within these categories can be found within the appendices of this document.

Children with Special Educational Needs

We recognise that children with special educational needs (SEN) and or disabilities can face additional safeguarding challenges. Children with SEN and or disabilities are especially vulnerable when identifying concerns due to their impaired capacity to resist or avoid abuse. They may have speech, language and communication needs which may make it difficult to tell others what is happening. This policy reflects the fact that additional barriers can exist when recognising abuse and neglect in this group of children which include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- children with SEN and disabilities can be disproportionately impacted by things like bullying-without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

Taking action where concerns are identified

Our staff recognise the difference between concerns about a child and a child in immediate danger.

If staff have concerns about a child they will need to decide what action to take. Where possible a discussion will take place with the Designated Safeguarding Lead to agree a course of action.

If a child is in immediate danger or risk of harm a referral will be made immediately to the Multi-Agency Safeguarding Hub and/or the police immediately. In this case a referral will be made by the member of staff if required, with the Designated Safeguarding Lead being informed of the referral.

Our staff recognise that children are vulnerable to abuse by their peers. Such abuse will be taken seriously by staff and will not be dismissed.

If a child chooses to tell a member of staff about alleged abuse, there are a number of actions that staff will undertake to support the child:

- The key facts will be established in language that the child understands and the child's words will be used in clarifying/expanding what has been said.
- No promises will be made to the child, e.g. to keep secrets.

- Staff will stay calm and be available to listen.
- Staff will actively listen with the utmost care to what the child is saying.
- Where questions are asked, this should be done without pressurising and only using open questions.
 - Leading questions should be avoided as much as possible.
 - Questioning should not be extensive or repetitive.
- Staff will not put words in the child's mouth but subsequently note the main points carefully.
- A full record will be taken. This should be recoded on CPOMS and the DSL alerted. Any written notes must be retained by scanning and attaching to the relevant record.
- Any verbal conversations regarding child protection concerns should be promptly recorded using the above process.
- It is not appropriate for staff to make children write statements about abuse that may have happened to them or get them to sign the staff record.
- Staff will reassure the child and let them know that they were right to inform them and inform the child that this information will now have to be passed on.
- The Designated Safeguarding Lead will be immediately informed unless the disclosure has been made to them.
- Information should be shared with Children's Social Care without delay, either to the child's own social worker or to MASH. CSC will liaise with the police where required which will ensure an appropriate police officer response rather than a uniformed response.
- The Police would only be contacted directly in an emergency. [NPCC When to call the police](#)

Staff will never attempt to carry out an investigation of suspected abuse by interviewing the child or any others involved. The only people who should investigate child abuse are Social Care, Police or the NSPCC.

3 Confidentiality

We recognise that all matters relating to child protection are confidential; however, a member of staff must never guarantee confidentiality to a pupil. Children will not be given promises that any information about an allegation will not be shared.

Where there is a child protection concern it will be passed immediately to the Designated Safeguarding Lead and/or to Children's Social Care. When a child is in immediate danger Children's Social Care and/or the police will be informed.

The headteacher or Designated Safeguarding Lead will disclose personal information about a pupil to other members of staff, including the level of involvement of other agencies, only on a 'need to know' basis.

All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children. The Data Protection Act 2018 and GDPR do not prevent, or limit, the sharing

of information for the purposes of keeping children safe. This includes allowing practitioners to share information without consent.

“Information Sharing: Advice for Practitioners providing Safeguarding Services to Children, Young People, Parents and Carers”. July 2018. The guidance is available via the following link:

[Information sharing advice](#)

4 Records and Monitoring

Our academy uses the CPOMS electronic recording system to record all concerns regarding child protection and safeguarding.

Any concerns about a child will be recorded in writing within 24 hours. All records will provide a factual and evidence based account and there will be accurate recording of any actions. Records will be signed, dated and, where appropriate, witnessed. Any written records **must be** scanned to the CPOMS entry relating to the concern. Where an opinion or professional judgement is recorded this should be clearly stated as such.

At no time should an individual teacher/member of staff or the academy be asked to or consider taking photographic evidence of any injuries or marks to a child's person, this type of behaviour could lead to the staff member being taken into managing allegations procedures. The body map should be used in accordance with recording guidance.

Any concerns should be reported and recorded without delay to the appropriate safeguarding services, e.g. MASH or the child's social worker if already an open case to social care.

All concerns will be recorded on CPOMS even those prior to any action being taken. Staff will take responsibility for alerting the designated person and ensuring the CPOMS entry is appropriately categorised. DSLs may moderate categories to ensure consistency across the academy.

All concerns will be logged onto CPOMS which will alert the Designated Safeguarding Lead. If no acknowledgment is received staff should follow this up as soon as possible. All recording on CPOMS should follow the same format as the chronology and concerns form. The academy has adapted the open field for reporting a concern on the system to ensure staff record all appropriate information.

The main pupil file should have a **red C** in the top right hand corner to denote an electronic file exists (or a similar and consistent coding).

Files will be available for external scrutiny for example by a regulatory agency or because of a serious case review or audit.

Why recording is important

Our staff will be encouraged to understand why it is important that recording is comprehensive and accurate and what the messages are from serious case reviews are in terms of recording and sharing information. It is often when a chronology of information is pieced together that the level of concern escalates, or the whole or wider picture becomes known.

It is also true that without information being recorded it can be lost; this could be crucial information, the importance of which is not necessarily apparent at the time. On occasions, this information could be crucial to safeguard a child or be evidence in future criminal prosecutions.

The Concern File

Establishing a CPOMS entry is Information Sharing Advice for practitioners providing safeguarding services to children, young people, parents and carers. It needs to be borne in mind that what constitutes a 'concern' for one child may not be a 'concern' for another and the particular child's circumstances and needs will differ; i.e. a child subject to a child protection plan, looked after child, Child in Need may be looked at differently to a child recently bereaved, parental health issues etc. Professional judgement will, therefore, be an important factor when making this decision and will need clear links between pastoral staff and designated safeguarding leads in the academy.

All concerns regarding

- A referral to MASH/Children's Social Care.
- A number of minor concerns on the child's main academy file.
- Any child open to social care.

must be recorded on CPOMS and this should include scanned copies of meeting notes, telephone calls, body maps, information shared by others. CPOMS will generate a chronology.

The academy will keep electronic records of concern about children even where there is no need to refer the matter to MASH/Children's Social Care (or similar) immediately.

Records will be kept up to date and reviewed regularly by the Designated Safeguarding Lead to evidence and support actions taken by staff in discharging their safeguarding arrangements. Original notes will be scanned (but clearly identified as such) as this is a contemporaneous account; they may be important in any criminal proceedings arising from current or historical allegations of abuse or neglect.

The record can be active or non-active in terms of monitoring i.e. a child is no longer LAC, subject to a child protection plan or EHAF and this level of activity can be recorded as a start and end date. If future concerns then arise it can be re-activated and indicated as such as new information arises.

Where children leave the academy, their concern/child protection record should be transferred to the new school, academy or college as soon as possible (this should be within five days). This should be transferred separately from the main pupil file, ensuring secure transit and confirmation of receipt should be obtained. It would be good practice, wherever possible, for the file to be hand-delivered to the receiving Designated Safeguarding Lead with a discussion taking place. If the receiving school uses CPOMS then this can be completed electronically. There should be a smooth and safe transition for the child.

Recording Practice

Timely and accurate recording will take place when there are any issues regarding a child. A recording of each and every episode/incident/concern/activity regarding that child, including telephone calls to other professionals, needs to be recorded on CPOMS. This will include any contact from other agencies who may wish to discuss concerns relating to a child. Actions will be agreed and roles and responsibility of each agency will be clarified and outcomes recorded.

NB There are templates attached to illustrate the information that should be mirrored in the CPOMS records made. These include a file front sheet, chronology, record of concern and a body map.

All SNMAT academies are expected to ensure their electronic recording includes everything detailed on these recording templates.

More detailed recording on the record of concern will include an analysis, taking account of the holistic needs of the child, and any historical information held on the child's file. Support and advice will be sought from social care, or early help whenever necessary. In this way, a picture can emerge and this will assist in promoting an evidence-based assessment and determining any action(s) that needs to be taken. This may include no further action, whether an EHAF should be undertaken, or whether a referral should be made to MASH/Children's Social Care in line with the NCC Pathway to Provision Version 9.1 document.

Such robust practice across child protection and in safeguarding and promoting the welfare of children will assist the academy in the early identification of any concerns which may prevent future harm.

When responding to concerns raised the DSL will ensure that each concern has a clear response in the actions field. This will include their professional opinion as to why the course of action was followed. This information is useful evidence in the event of a serious case review.

The Designated Safeguarding Lead will have a systematic means of monitoring children known or thought to be at risk of harm (through the concern file and through an ongoing dialogue with pastoral staff). They will ensure that we contribute to assessments of need and support multi-agency plans for those children.

The Designated Safeguarding Lead will conduct regular sampling of concerns to ensure that reporting is consistent, detail, objective, fitting of external scrutiny and of the highest standard.

5 INFORMATION/FRONT SHEET

Name:		DOB:	Class/Form:	Ethnicity:	
Home Address:			Telephone: e mail:		
Status of file and dates:

9 Body Map Guidance for Academies

Body Maps should be used to document and illustrate visible signs of harm and physical injuries.

Always use a black pen (never a pencil) and do not use correction fluid or any other eraser.

Do not remove clothing for the purpose of the examination unless the injury site is freely available because of treatment.

*At no time should an individual teacher/member of staff or the academy be asked to or consider taking photographic evidence of any injuries or marks to a child's person, this type of behaviour could lead to the staff member being taken into managing allegations procedures, the body map below should be used in accordance with recording guidance. Any concerns should be reported and recorded without delay to the appropriate safeguarding services, e.g. MASH or the child's social worker if already an open case to social care.

When you notice an injury to a child, try to record the following information in respect of each mark identified e.g. red areas, swelling, bruising, cuts, lacerations and wounds, scalds and burns:

- Exact site of injury on the body, e.g. upper outer arm/left cheek.
- Size of injury - in appropriate centimetres or inches.
- Approximate shape of injury, e.g. round/square or straight line.
- Colour of injury - if more than one colour, say so.
- Is the skin broken?
- Is there any swelling at the site of the injury, or elsewhere?
- Is there a scab/any blistering/any bleeding?
- Is the injury clean or is there grit/fluff etc?
- Is mobility restricted as a result of the injury?
- Does the site of the injury feel hot?
- Does the child feel hot?
- Does the child feel pain?
- Has the child's body shape changed/are they holding themselves differently?

Importantly the date and time of the recording must be stated as well as the name and designation of the person making the record. Add any further comments as required.

Ensure First Aid is provided where required and record

A copy of the body map should be attached to the concern on CPOMS.

Academy Safeguarding Action Plan

Name of academy:

Date:

Completed by:

Aim: Enable the academy to carry out their functions with a view to safeguarding and promoting the welfare of children. The following safeguarding areas have been highlighted for improvement:

[illegible]

12 Auditing of Pupil Records

The Named Governor for child protection and safeguarding, on behalf of the governing body, must be able to confirm that the academy's record keeping in relation to children of concern is appropriate, by conducting an audit of a sample of pupil files every year.

Auditing your academy's record keeping.

Good record keeping is not bureaucracy it is safeguarding.

Background: Recent serious case reviews and domestic homicide reviews in Nottinghamshire have repeatedly identified poor record keeping by schools as a problem. Governors need to be confident that the academy keeps careful records in relation to children of concern. One way to do this is for the academy to conduct an audit of a sample of pupil files each year. The audit could be undertaken by the Headteacher, Deputy Headteacher, Designated Safeguarding or their deputy, lead governor for safeguarding or any combination of these people.

Purpose: The aim of such an audit is to learn how effective academy record keeping is in relation to children of concern – potentially the most vulnerable pupils in the academy. Lessons from the audit can then be fed back to all staff to improve future practice.

Sample: Clearly the more files that you examine, the fuller the picture you will have of processes in your academy. However, this needs to be balanced against the time demands of an audit. In smaller primary academies looking at one file from each year group might give sufficient information, while in larger primary academies two from each year group might seem more appropriate. In a secondary academy, the audit may need to look at as many as three or four files from each year group. It is also reasonable to take a proportionate approach; if audits regularly show widespread good practice then fewer files may need to be examined in future. If, however, the audit reveals poor practice this will indicate the need not only for training and guidance but also more careful monitoring of this issue.

Confidentiality: Material in pupil files is often of a very sensitive nature and the highest standards of confidentiality are required by anyone reading these files.

We use CPOMS to maintain records of children causing concern. CPOMS allows the following information to be stored and the Named Safeguarding Governor checks these records and ensures all the required information is appropriately stored.

Learning from the audit

An audit such as this is not intended to be a 'box ticking exercise'. The purpose is to understand how well staff fulfil their duties in relation to safeguarding in terms of how well records are maintained. Following the audit there should be a discussion about any

strengths and weaknesses identified. The intention is not to criticise any individual member of staff but to see what lessons the academy community, as a whole, needs to learn. The lessons from the audit can be fed back to all staff using the academy's normal staff training or briefing routes.

Recording

The safeguarding governor should monitor records at least annually completing the following forms to ensure a complete cycle of monitoring is carried out every year. These can also be found in the SNMAT safeguarding TEAMS folder.

Process and Procedures

Descriptor	RAG rating	Evidence/comments
Do all staff members use a centralised and standardised recording system to keep accurate and contemporaneous records of concerns?		
Does every member of staff have sign in to CPOMS and do they know how to use it? Where this is not the case; what are the academy's reasons and how do these members of staff raise a concern?		
Are records stored securely with controlled access?		
What training arrangements are there in place for staff with regard to recording child protection concerns?		
How do visitors know how to report a concern and how to record this concern?		
Are there clear procedures for transfer of safeguarding information either to a receiving school when a child leaves the school or requesting information when a child is admitted? If the setting is a Secondary school or College, are arrangements made for archiving if the child is not moving on to Further Education?		
What is your school or colleges' arranged retention time? Is the storage, retention and destruction of Child Protection Files clear in your Data Management Policy?		
Does the Headteacher/DSL audit the safeguarding records of concern regularly to ensure that procedures are being followed and adequate records are being kept? If so, how often? Where is this recorded? Where are the actions from findings recorded?		

File Sample *the files sampled should be a cross section of files in respect of gender, year group, minority groups etc. The sample should be a reasonable number relative to the total case load. The number of cases sampled should be reasonable compared to the number of open cases and may exceed 3.*

Descriptor of standard	Case 1	Case 2	Case 3
Are records up to date and complete?			
Do the records show clearly what action was taken by the DSL to safeguard the child? Is the recording of this clear, specific and given a timeframe? Was the action taken in a timely way?			
Do all Records of Concerns within the child's safeguarding file show the feedback that has been given to the member of staff who brought the concern to the DSL's attention?			
Does the child's safeguarding file show the names of any other school staff or external agencies (full name and designation) that the DSL has shared information with, what information was shared and the rationale for this?			
Is there evidence of clear and transparent recording, i.e. can they be easily followed by someone else?			
Is there evidence of timely referrals to other agencies including Children's Services, where necessary?			
Is there any evidence of correspondence with other agencies? Also do any documents from other agencies correlate to the correct entry i.e. ICPC minutes uploaded/attached to the date of the conference?			
Do the record show clearly any feedback/outcome of the actions taken to safeguard the child, e.g. spoke to parents for clarification, a Child Protection Contact Referral was/was not required?			
Is there evidence of work with other agencies?			
Is there evidence of work with parents/carers?			

13 Induction Checklist for Safer Recruitment

Induction of Staff - Checklist for Safeguarding

Name of Employee:

Name of Academy:

Post:

Start Date of Employment:/...../.....

Name of line manager responsible for induction:

Name of Head Teacher:

This safeguarding checklist should be used to supplement the general arrangements academies have in place for the induction of all academy employees, volunteers and all governors.

	Check
1. When advised of the interview the candidates are informed of what they are required to disclose in respect of DBS checks and where they can get advice	
2. Social media and online presence was checked for shortlisted candidates. Any issues arising were discussed at interview.	
3. 2 references are received for the appointed candidate that answers the question 'Do you have concerns regarding this person working with children?'	
4. Employee informed that the senior designated safeguarding lead in the academy is	
5. Employee informed of the procedure in the academy for reporting safeguarding concerns, including the procedure if the head teacher and designated safeguarding lead are absent. CPOMS login activated.	

<p>6. Advised of and discussed the following academy policies or procedures covering the expectations of staff under each one.</p> <ul style="list-style-type: none"> • The safeguarding and child protection policy • The behaviour policy • Code of conduct (including the mandatory duty for reporting Female Genital Mutilation (FGM) and the Prevent Duty • Whistleblowing and Confidential Reporting Policy • Anti-bullying • Anti-racism • Homophobic and Transphobic • Physical intervention • Academy IT Policy, Internet safety (including the Social Media and Internet Usage Policy) • Contact between staff and pupils outside the usual work context • Whole academy safeguarding policy and templates • Allegations of abuse made against teachers and other staff • Visitors policy – the management of visitors on site, including VIPs • Any other relevant policy as determined by the headteacher, governing body, SNMAT or DfE. 	
<p>7. Advised of and discussed all statutory guidance for schools and the responsibility of staff within them.</p> <ul style="list-style-type: none"> • Keeping Children Safe in Education, 2023 (designated safeguarding lead officer will ensure all staff read and have a copy of at least part one and Annex A of the latest edition of Keeping Children Safe in Education). • Children Missing from Education • Working Together to Safeguard Children 2015 • Dealing with Allegations of Abuse made against Teachers and other Staff <p>Disqualification under the Childcare Act 2009 – explanation of ongoing responsibility to self-report to headteacher where circumstances change.</p>	
<p>7. Advised and discussed the Nottinghamshire and Nottingham City Safeguarding Children Partnerships' Safeguarding Children's Procedures and how they can be accessed click here</p>	
<p>8. Advised of and discussed the relevant paragraphs regarding safeguarding under the teacher standards. (See part 2 of the standards, 3rd bullet point)</p>	
<p>9. Arranged safeguarding training as detailed in the latest edition of Keeping Children Safe in Education and the latest Nottinghamshire Safeguarding Children Partnership's Training</p>	

<p>Programme found at https://www.nottinghamshire.gov.uk/nscp/training</p> <p>a) To include whole academy safeguarding training for all academy staff and any governor responsible for leading on safeguarding</p> <p>b) Prevent Duty training for all academy staff</p> <p>c) Specific training for Designated Safeguarding Lead</p> <p>d) Recruitment and Selection training for staff as required (At least one member of any interview panel should have received appropriate training on safer recruitment)</p> <p>e) SNMAT induction</p> <p>Date Checklist fully completed</p> <p>Headteacher /line manager's signature Date.....</p> <p>Employee's signature Date</p>	
--	--

14 Governor Monitoring Activities

The safeguarding link governor is a statutory role on any governing body. Our pupils and staff need to be safe above and beyond anything else we do in schools.

It is, therefore, important that the safeguarding link governor meets regularly with the DSLs (designated safeguarding lead), completes training relevant to the role and has an understanding of how policy is put in to practice at the academy.

Frequency of Visits

1 'Touching base' every week or two weeks (dependant on your context).

This is to make sure you are aware of any current issues and have an understanding of the workload for DSLs. High profile safeguarding concerns can be extremely time consuming and have an impact on other priorities in the academy. This could be by phone, online or in person. Where there is a low case load a phone call of 5/10 mins would be adequate; with a higher caseload a face to face meeting might be more appropriate (30 mins).

2 Half termly – face to face meeting to include some monitoring activities

3 Termly checks and audits

There are checks that need to be undertaken and audits to carry out annually.

It would be expected, therefore, that the safeguarding link governor and the DSL are in contact at least fortnightly to carry out one of the above visits. i.e. a touching base meeting would only take place when no other meeting was scheduled.

Meetings should be diarised well in advance to ensure they take place.

It is often the case that people hold more than one role, Chair of Governors/Safeguarding Link Governor and Headteacher/DSL for example. It is therefore important that dedicated time is allocated for safeguarding to prevent it getting 'lost' in other business.

Touching base visits:

Ask about the current child protection caseload and the workload it is generating.

Does the DSL have enough time to carry out their duties effectively?

Have there been any complaints with a safeguarding element that you should be aware of?

Are there any low-level concerns or allegations against members of staff?

Answers to these questions will indicate the frequency of your next visit, the monitoring you undertake and whether it needs to be face to face.

It is important to remember the workload for the DSL can have an emotional toll and your role is to provide what support you can and ensure they receive further support if needed.

If this meeting is face to face visits you may take the opportunity to undertake some monitoring. To prevent these meetings becoming too long do one activity a visit and take a small sample. Save the detailed wider sample for your termly visit/audits.

Half Termly Visits:

Suggested Agenda

1. Check on the wellbeing of the DSL
2. Review any action points from any previous meetings
3. Check the SCR.
4. Undertake a monitoring activity – the activity undertaken may reflect the academy's current context/cases
5. DSL to brief link governor on any update to guidance/statutory requirements
6. Review the safeguarding action plan

Ensure actions from the meeting are recorded to be followed up at the next meeting

Training

The safeguarding link governor should ensure that the following training has been undertaken:

What	When	Who
Hays online child protection and safeguarding	annually	all governors
Prevent training	no requirement to renew; 3 yearly recommended	all governors
Managing allegations	no requirement to renew; 3 yearly recommended	Chair Link Governor
Safer Recruitment	no requirement to renew 5 yearly recommended	at least one governor on every recruitment panel
In some contexts it may be appropriate that further training is undertaken by the safeguarding governor to support their role. For example; Harmful sexual Behaviours, County Lines, FGM		

15 Child on Child Abuse including Sexual Violence and Sexual Harassment

Our academy recognise that children are vulnerable to and capable of abusing their peers. We take such abuse as seriously as abuse perpetrated by an adult. This includes verbal as well as physical abuse. Child on child abuse will not be tolerated or passed off as part of “banter” or “growing up”.

All victims will be reassured that they are being taken seriously, they will not be given the impression they are creating a problem or made to feel ashamed. They will be reassured, with causing alarm or distress, that the law is in place to protect them.

In cases where child on child abuse is identified we will follow our child protection procedures, recognising that both the victim and perpetrator will require support.

We recognise that child on child abuse can manifest itself in many ways and may include, but not limited to:

- Child Sexual Exploitation
- Sexting or youth produced digital imagery
- Bullying (including cyberbullying)
- Physical abuse such as hitting, kicking, shaking, biting, hair pulling or otherwise causing physical harm
- Sexual violence and sexual harassment
- Gender-based violence
- Radicalisation
- Abuse in intimate relationships
- Gang association and serious violence – which may include initiation type violence and rituals

There are a number of factors that make children more vulnerable to child on child abuse: experience of abuse within their family; living with domestic violence young people in care; children who go missing; children with additional needs (SEN and/or disabilities), children who identify as or who are perceived as LGBTQ+ or who have other protected characteristics (race, religion)

Research tells us girls are more frequently identified as being abused by their peers; girls are more likely to experience unwanted sexual touching in schools. Boys are less likely to report intimate relationship abuse. Boys report high levels of victimisation in areas where they are affected by gangs. There is an increasing evidence base emerging on the sexual exploitation of boys (both by adults and peers) and LGBTQ+ young people. It is important that the academy ensure any children who identify as LGBTQ+ have an identified trusted adult that can talk to. We recognise that both boys and girls experience child on child abuse, but they do so in gendered ways.

We recognise that some pupils may find reporting child on child abuse difficult. The lack of reported cases does not mean such is not taking place. Therefore, we will ensure pupils can confidently report abuse by educating students about how to raise concerns through assemblies and the curriculum, giving students access to the safeguarding email address, ensuring the pastoral lead / member of the Executive team for each year group is present and accessible during key times of the day and by administering a student voice survey termly to capture views and concerns.

At The Samworth Church Academy we believe that all children have a right to attend the academy and learn in a safe environment. Children should be free from harm by adults in the academy and other students. We ensure that staff are on duty at the start and end of every day and are alert to any concerns, in addition, staff are available to support at lunchtime and are present on corridors during transition between lessons. Pastoral staff work to establish strong relationships with their cohort to encourage students to disclose their concerns and appropriate action is taken following any incident. All staff are aware that “it could happen here” and concerns are recorded on CPOMS for follow up, and a risk assessment, from the safeguarding team.

We recognise that some students will sometimes negatively affect the learning and wellbeing of others and their behaviour will be dealt with under the academy’s Behaviour Policy.

Occasionally, allegations may be made against students by others in the academy which are of a safeguarding nature. Safeguarding issues raised in this way may include physical abuse, emotional abuse, sexual abuse and sexual exploitation. It is likely that to be considered a safeguarding allegation against a pupil, some of the following features will be found.

The allegation:

- Is made against an older pupil and refers to their behaviour towards a younger or more vulnerable pupil
- Is of a serious nature, possibly including a criminal offence
- Raises risk factors for other pupils in the academy
- Indicates that other pupils may have been affected by this student
- Indicates that young people outside the academy may be affected by this student

Sexual Harassment and Sexual Violence

Sexual Harassment is ‘unwanted conduct of a sexual nature’ that can occur online and offline. When we reference sexual harassment, we do so in the context of child on child sexual harassment. Sexual harassment is likely to: violate a pupil’s dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

This may include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual “jokes” or taunting
- physical behaviour, such as: deliberately brushing against someone, interfering with someone’s clothes and displaying pictures, photos or drawings of a sexual nature

Online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence.

It may include

- non-consensual sharing of sexual images and videos.
- sexualised online bullying
- unwanted sexual comments and messages, including, on social media
- sexual exploitation
- coercion and threats

Sexual violence

When referring to sexual violence we are referring to sexual offences under the Sexual Offences Act 2003¹³ as described below:

- **Rape:** A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Assault by Penetration:** A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Sexual Assault:** A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

What is consent?

Consent is about having the freedom and capacity to choose.

Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

A child under the age of 13 can never consent to any sexual activity.

The age of consent is 16.

Sexual intercourse without consent is rape.

The evidence shows that girls are more likely to be subject to sexual violence and sexual harassment than boys, and that boys are more likely to perpetrate such violence and harassment. The academy pays consideration to this and fosters healthy and respectful relationships between boys and girls including through Relationship and Sex Education and Personal Social Health and Economic education.

Response

This will be on a case by case basis, however if a criminal act has been committed the police will be involved.

The member of staff receiving the disclosure should respond in the same way as any other disclosure, making no promises to the child and referring through the academy's usual route. The Designated Safeguarding Lead will manage any disclosures or allegations made and any concerns raised by staff in line with academy procedures and in consultation with Children's Social Care. If a victim does not want a referral to be made the DSL must balance the wishes of the victim with the need to protect from danger.

The academy will provide support for the victim and consider their need to feel safe in the academy. The academy is also aware that a child perpetrator or sexual harassment and/or sexual violence may themselves be a victim of abuse too and should ensure that support is available.

Risk Assessment

When there has been a report of sexual violence, the designated safeguarding lead (or a deputy) should make an immediate risk and needs assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis.

The risk and needs assessment should consider

- the victim, especially their protection and support
- the alleged perpetrator
- all the other children (and, if appropriate, adult students and staff) at the academy

More information is available:

[The Survivors Trust](#)

[NSPCC](#) Gillick competency and Fraser guidelines

Support

At The Samworth Church Academy we will support those impacted by and those instigating child on child abuse by assessing the risk and implementing appropriate measures to ensure all involved students' safety and well-being, by liaising with parents /carers, and ensuring that students are kept informed and involved in the process. We will make referrals where appropriate to children's social care, the police, early help, Healthy Family Team, Sexions or for emotional support via CASY counselling in the academy.

[safeguarding network child on child abuse](#)

[Child on child abuse toolkit](#)

16 Prevent Duty and Radicalisation

There are now duties imposed on schools and other agencies under the Counter Terrorism and Security Act 2015 (The Prevent Duty).

Further advice in relation to this is within KCSiE, 2023, and also the DfE non-statutory guidance [The Prevent Duty April 2021](#)

We are proactive in our approach and have ensured the Designated Safeguarding Lead has accessed face to face training to help identify risk and support other colleagues where there are specific concerns. We will work with key partners to ensure that we are aware of any tensions within our local community and nationally and internationally, so that we can create safe spaces for our children to discuss their experiences and concerns. Where we are concerned about individual children there is a referral pathway which all staff will be familiar with. Initial advice and support can be obtained from the Tackling Emerging Threats to Children Team and more serious concerns should be referred to the Police Prevent Team or the MASH where there is a concern that a child is at immediate risk.

In exercising our specific duty under Prevent we seek to protect children and young people from being drawn into, and against, the messages of all violent extremism. This includes and is not restricted to Daesh, Al Qaeda, Far Right, Neo Nazi, White Supremacist ideology, Irish Nationalist and Loyalist paramilitary groups and extremist Animal Rights movements.

The use of social media and the internet as tools to radicalise young people cannot be underestimated. We recognise that those that seek to recruit young people to follow extremist ideology often target those who are already vulnerable in some way and that exposure to extreme views can make young people vulnerable to further manipulation and exploitation. We will therefore ensure that we build children and young people's critical thinking skills and resilience through both our curriculum and pastoral provision/systems.

At The Samworth Church Academy we are clear that we have a duty to safeguard young people from such dangers and we will actively promote resilience to such risks through our RE curriculum, SEND policy, collective worship policy, our SMSC work, anti-bullying work and wider curriculum. We are committed to ensuring that pupils are offered a broad and balanced curriculum that aims to prepare them for life in modern Britain. Teaching the academy's core values alongside the fundamental British Values supports quality teaching and learning, whilst making a positive contribution to the development of a fair, just and civil society. We ensure our policies for use of the academy premises by external agencies, visitors, premises' hire and our online safety and ICT policies protect students from extremism.

Staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and proportionately which may include the designated safeguarding lead making a Prevent referral.

Recognising Extremism

Early indicators of racialisation or extremism may include:

- Showing sympathy for external causes
- Glorifying violence, especially to other faiths or cultures
- Making remarks or comments about being at extremist events or rallies outside the academy
- Evidence of possessing illegal or extremist literature
- Advocating messages similar to illegal organisations or other extremist groups
- Out of character changes in dress, behaviour and peer relationships (but there are also very powerful narratives, programmes and networks that young people can come across online so involvement with particular groups may not be apparent)
- Secretive behaviour
- Online searches or sharing extremist messages or social profiles
- Intolerance of difference, including faith, culture, gender, race or sexuality
- Graffiti, art work or writing that displays extremist themes
- Attempts to impose extremist views or practices on others verbalising anti-Western or anti-British views
- Advocating violence towards others

Definitions

Extremism is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

[Home Office Prevent Training](#) All academy staff will complete this training.

[Educate Against Hate](#)

17: County Lines

County Lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas within the UK, using dedicated mobile phone lines or other form of 'deal line'. They are likely to exploit children and vulnerable adults to move and store the drugs and money. They will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims.

Gangs deliberately target vulnerable children – those who are homeless, living in care homes or trapped in poverty.

Gangs groom, threaten or trick children into trafficking their drugs for them. They might threaten a young person physically, or they might threaten the young person's family members. Gangs might also offer something in return for the young person's cooperation – it could be money, food, alcohol, clothes and jewellery, or improved status – but the giving of these gifts will usually be manipulated so that the child feels they are in debt to their exploiter.

However, they become trapped in county lines, the young people involved feel as if they have no choice but to continue doing what the gangs want.

What are the signs of criminal exploitation and county lines?

- Returning home late, staying out all night or going missing
- Being found in areas away from home
- Increasing drug use, or being found to have large amounts of drugs on them
- Being secretive about who they are talking to and where they are going
- Unexplained absences from school, college, training or work
- Unexplained money, phone(s), clothes or jewellery
- Increasingly disruptive or aggressive behaviour
- Using sexual, drug-related or violent language you wouldn't expect them to know
- Coming home with injuries or looking particularly dishevelled
- Having hotel cards or keys to unknown places.

When a victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism ([National Crime Agency](#)) should be considered. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation.

Further information is available [here](#) and KCSiE 2023 p143

[Children's Society – What is county lines?](#)

Further information on the signs of a child's involvement in county lines is available in guidance published by the [Home Office and The Children's Society County Lines Toolkit For Professionals](#)

18: Child Sexual Exploitation (CSE)

This academy adheres to the NSCP procedure in relation to child sexual exploitation and includes advice from DfE documents; *Child sexual exploitation: Definition and a guide for practitioners, local leaders and decision makers working to protect children from child sexual exploitation, February 2017* and *Child sexual exploitation: Annexes to 'Definition and a guide for practitioners, local leaders and decision makers working to protect children from child sexual exploitation', February 2017*.

Child Sexual Exploitation is defined as *a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology* (DfE Feb 2017).

We recognise that child sexual exploitation is a high-profile issue both nationally and locally and that it can cause a great deal of harm to a child, including physically, emotionally, educationally and socially. Where it exists, it can also cause harm to communities including our academy. We understand the complexity of this type of abuse and the difficulties that lie in identification and assessment.

Like all forms of child sexual abuse, child sexual exploitation:

- Can affect any child or young person (male or female) under the age of 18 years, including 16- and 17-year olds who can legally consent to have sex
- Can still be abuse even if the sexual activity appears consensual
- Can include both contact (penetrative and non-penetrative acts) and noncontact sexual activity
- Can take place in person or via technology, or a combination of both
- Can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence
- May occur without the child or young person's immediate knowledge (through others copying videos or images they have created and posting on social media, for example)
- Can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse
- Is typified by some form of power imbalance in favour of those perpetrating the abuse. Whilst age may be the most obvious, this power imbalance can also be due to a range of factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources

Some children will be particularly vulnerable to being exploited, for example if they have had a chaotic upbringing or if they are in care or go missing, involved in gangs or being bullied. Not all children and young people with these vulnerabilities will experience child sexual exploitation. **Child sexual exploitation can also occur without any of these vulnerabilities being present.** Any child can become a target for exploitation, particularly where the internet and social media are involved. This is because the normal life events

that go with being a child or teenager in today's age can be a challenge and make them susceptible to being groomed and exploited.

Potential Vulnerabilities include:

- Having prior experience of neglect, physical and/or sexual abuse
- Lack of a safe/stable home environment now or in the past (domestic abuse or parental substance abuse, mental health issues or criminality, for example)
- Recent bereavement or loss
- Social isolation or social difficulties
- Absence of a safe environment to explore sexuality
- Economic vulnerability
- Homelessness or insecure accommodation status
- Connections with other children and young people who are being sexually abused
- Family members or other connections involved in adult sex work
- Having a physical or learning disability
- Being in care (particularly those in residential care and those with interrupted care histories)
- Sexual identity

Even where a young person is old enough to legally consent to sexual activity, the law states that consent is only valid where they make a choice and have the freedom and capacity to make that choice. **Child sexual exploitation is never the victim's fault, even if there is some form of exchange:** all children and young people under the age of 18 have a right to be safe and should be protected from harm.

As an academy, we recognise that prevention is the best position with regard to CSE. We seek to support children to develop confidence and build resilience. We will endeavour to support their age appropriate knowledge and raise awareness and understanding of what CSE is, to understand the risks of CSE and to spot the warning signs for themselves and also their friends and peers and by doing so keep safe.

To do this we will:

- Engage in multi-agency working
- Educate all children and young people about the nature and risks of child sexual exploitation and other forms of related harm (both online and offline) and how to access support
- Provide complementary messages to parents and carers about risks to their children (online and offline) and how to access support if they have concerns
- Consider the levels of knowledge and understanding of the wider workforce, so that everyone working with children and young people can play their role in prevention
- Ensure messages and methods of delivery are suited to the nature and needs of the audience.
- Ensure education is grounded in an evidence-based understanding of child exploitation (both online and offline)
- Challenge myths and misconceptions about who is perpetrating and experiencing this form of abuse
- Send a clear message that all forms of child sexual exploitation are abuse

- Recognise the potential overlap between victims and perpetrators
- Provide information on where and how to report concerns and access support
- Be inclusive and accessible to the intended audience
- Adopt a holistic approach
- Take into account the context of the community, the academy and the individual pupils
- Recognise that parents and carers have a critical role to play in helping to protect children and young people from child sexual exploitation.

Much of this work will be through our programmes of personal, social and health education (PSHE) or through our Relationship, Sex Education (RSE) work. An important part of educating our children is focussing on what is a healthy relationship and issues of consent. This will also target potential abusers at an early age with the intention of helping to shape their attitudes to others.

Child sexual exploitation may be associated with other crimes, or perpetrators may be involved in other criminal activity, and as such disruption measures may be used to help tackle child sexual exploitation.

This includes:

- Obtaining orders on an identified individual (see *Child sexual exploitation: Annexes to 'Definition and a guide for practitioners, local leaders and decision makers working to protect children from child sexual exploitation', February 2017*).
- Investigation of other crime types such as drugs or theft.
- Increased police attention on an individual (checking car tax, road worthiness of car etc.)
- Increased police presence in suspected hotspots (online or offline)
- Working with internet providers to address online risks
- Use of licensing laws and powers to obtain guest information or close down premises associated with child sexual exploitation.

It is therefore important that as an academy we engage fully in multi-agency working and share information as appropriate. If prevention is not possible we aim to identify children who are at risk of, or are being, exploited very early. Children rarely self-report child sexual exploitation.

Potential indicators of child sexual exploitation are:

- Acquisition of money, clothes, mobile phones etc., without plausible explanation
- Gang-association and/or isolation from peers/social networks
- Exclusion or unexplained absences from school, college or work;
- Leaving home/care without explanation and persistently going missing or returning late
- Excessive receipt of texts/phone calls
- Returning home under the influence of drugs/alcohol
- Inappropriate sexualised behaviour for age/sexually transmitted infections
- Evidence of/suspicions of physical or sexual assault
- Relationships with controlling or significantly older individuals or groups
- Multiple callers (unknown adults or peers)
- Frequenting areas known for sex work
- Concerning use of internet or other social media

- Increasing secretiveness around behaviours
- Self-harm or significant changes in emotional well-being

We remain open to the fact that child sexual exploitation can occur without any of these risk indicators being obviously present.

Early intervention is key to effectively working with the child to prevent or reduce the level of risk. Once they have been groomed some children will find it difficult to withdraw from their abusers and we need to contribute to helping to protect them. Some children feel that they are in a relationship with these people. We commit to working with our inter-agency partners to safeguard and protect children. We want to have a culture where the welfare of children is actively promoted, and staff and pupils are vigilant. As part of this children will feel listened to and safe.

19 Female Genital Mutilation (FGM)

Female Genital Mutilation is a safeguarding issue; it is child abuse and a form of violence against girls. Local guidance for schools is contained within Guidelines for all agencies including schools within the Nottinghamshire Safeguarding Children Partnership procedures [NSCP Procedures FGM](#) which has been informed by the government Multi-Agency Statutory Guidance 2016.

FGM is a procedure that includes the partial or total removal of the external female genital organs for non-medical reasons. It is illegal in the UK to subject a child to female genital mutilation (FGM); to assist or facilitate the practice; or to take a child abroad to undergo the procedure – Female Genital Mutilation Act 2003. The age at which girls are subject to FGM varies greatly from shortly after birth to any time up to adulthood. The majority of girls have the procedure between the ages of 5-8 years. It is estimated that 24,000 girls in the UK are at risk and 66,000 women are living with the physical and psychological consequences.

Although prevalence of FGM within Nottinghamshire is not likely to be high, no local authority area is likely to be free from FGM entirely. Staff and governors therefore need to have an awareness of the signs that a girl may have undergone FGM or be at risk of the practice. The Female Genital Mutilation Act 2003 was amended by the Serious Crime Act 2015 which strengthened protection to women and girls through the introduction of FGM Protection Orders and placed new mandatory duties on professionals to report known cases of FGM on girls under the age of 18 to the police. The duty only applies in cases where the victim discloses. If someone else, such as a parent or guardian, discloses that a girl under 18 has had FGM, a report to the police is not mandatory. However, in these circumstances disclosures should still be handled in line with wider safeguarding responsibilities. In all cases where the academy suspects a girl to be at risk they must follow normal safeguarding procedures. Certain times of year present a greater risk to girls from practicing communities. The ‘cutting season’ during the summer months is often the riskiest time for girls as the healing time required following the procedure, often necessitates it being carried out during the long summer holiday. The main indicators and risk factors are highlighted below but all staff and the nominated governor for safeguarding will need to have undergone at least basic awareness raising training to ensure they can identify when a girl may be at risk.

Academy staff should be alert to the following indicators:

- The family comes from a community that is known to practise FGM or is less integrated within the community
- A child may talk about a long holiday to a country where the practice is prevalent
- A child may talk about ‘special female visitors’ who are staying with the family, especially during the ‘cutting season’
- A child may confide that she is to have a ‘special procedure’ or to attend a special occasion
- A child may request help, directly or indirectly, from a teacher or another adult

- Any female child born to a woman or has a sister who has been subjected to FGM must be considered to be potentially at risk, as must other female children in the extended family
- A girl is withdrawn from PSHE/RSE without any specific reason being given

In brief the signs that FGM may have occurred are:

- Difficulty walking, sitting or standing
- Spending longer in the bathroom
- Urinary or menstrual problems
- Prolonged absence and then noticeable behaviour changes (e.g. withdrawal or depression)
- Reluctance to undergo normal medical examinations
- May confide in a professional but may not be explicit or may be embarrassed
- Talking about pain or discomfort between her legs

Where it is suspected that a girl may have undergone or is likely to undergo FGM staff must share concerns with the Designated Safeguarding Lead who, in turn, should consult the MASH.

Where you suspect that FGM has occurred:

- Be sensitive to the child, and family, be gender sensitive, make no assumptions, be non-judgemental, use simple language, record clearly
- You have a duty to protect, safeguard and share information
- Refer to Children's Social Care for coordination of careful assessment (not necessarily with consent)
- There will be potential enquiries under Section 47 of the Children's Act 1989
- Potential police enquiries
- Possible use of police protection or legal orders such as FGM PO, prohibitive steps but not necessarily the removal of the child

Where you **know** that FGM has taken place:

You must report this direct to the police in accordance with the mandatory duty.

20 Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence.

The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country, forced to shoplift or pickpocket, or to threaten other young people.

Some of the following can be indicators of CCE:

- children who appear with unexplained gifts or new possessions
- children who associate with other young people involved in exploitation
- children who suffer from changes in emotional well-being
- children who misuse drugs and alcohol
- children who go missing for periods of time or regularly come home late
- In a relationship or hanging out with someone older than them.
- Being angry, aggressive or violent.
- Being isolated or withdrawn.
- Wearing clothes or accessories in gang colours or getting tattoos.
- Using new slang words
- Spending more time on social media and being secretive about time online.
- Making more calls or sending more texts, possibly on a new phone or phones.
- Self-harming and feeling emotionally unwell.
- Taking drugs and abusing alcohol.
- Committing petty crimes like shop lifting or vandalism.
- Unexplained injuries and refusing to seek medical help
- Carrying weapons or having a dangerous breed of dog

Dangers of criminal exploitation include:

- being subject to threats, blackmail and violence
- being exploited and forced to commit crimes
- being arrested, including for crimes committed by the gang that they have not directly committed under the law of joint enterprise
- not being able to leave or cut off ties with the gang
- having their safety or the safety of friends and family threatened
- risk of physical harm, rape and sexual abuse
- risk of emotional abuse
- risk of severe injury or being killed
- abusing drugs, alcohol and other substances
- long term impact on education and employment options.

More information is available from the NSPCC [here](#) and KCSiE 2023 page 142,

Honour-Based Abuse

So-called 'honour-based' abuse (HBA) encompasses crimes which have been committed to protect or defend the honour of the family and/or the community, including Female Genital Mutilation (FGM), forced marriage and practices such as breast ironing. All forms of so called HBA are abuse (regardless of the motivation) and should be handled and escalated as such.

Where staff are concerned that a child might be at risk of HBA, they must contact the Designated Safeguarding Lead as a matter of urgency.

HBA is a cultural, not a religious phenomenon. It impacts in a range of communities. The challenges for all services including schools is to make responses that keep children safe and hold perpetrators to account without stereotyping, stigmatising or making assumptions about any given individual or community. HBA, which may include forced marriage and/or female genital mutilation, is perpetrated against children and young people for a number of reasons.

These include:

- Protecting family 'honour' or 'Izzat'
- To control un-wanted behaviour and sexuality (including perceived promiscuity or being lesbian, gay, bisexual or transgender)
- As a response to family, community or peer group pressure
- Strengthening family links
- Protecting perceived cultural and/or religious ideals (mis-guided or dated)
- Retaining wealth, property or land within the family
- Assisting claims for residence and citizenship in the UK

Perceived immoral behaviour could include:

- Inappropriate make-up or dress
- Possession and / or use of a mobile telephone
- Kissing or showing other forms of intimacy in public
- Rejecting a forced marriage
- Being a victim of rape or other serious sexual assault
- Inter-faith relationships
- Seeking a divorce

Staff should never lose sight of the fact that they are interacting with extremely vulnerable individuals, who may be faced with making life changing decisions in an extremely short space of time. Many honour based abuse victims fear 'criminalising' their parents, families and/or their faith group and fear being isolated from their communities.

A child or young person who is at risk of honour-based abuse is at significant risk of physical harm (including being murdered), and/or neglect. They may also suffer significant emotional harm, as a result of a threat of violence or witnessing violence directed towards a sibling or other family member.

Authorities in some countries may support the practice of honour-based abuse. Therefore, the child or young person may be concerned that other agencies share this view, they may feel guilty about their rejection of their cultural/family expectations, and also what impact this may have on their family within their community.

Staff should respond in a similar way to cases of honour-based abuse, as with other abuse. This includes facilitating disclosure and making sure safety plans are put in place by relevant agencies for the child or young person and ensuring their safety by according them confidentiality in relation to the rest of the family.

Boys as well as girls can be subject to HBA; gay, lesbian young people can be particularly vulnerable.

There is also close link with forced marriage - a young person may be at risk of further HBA if seeking to avoid forced marriage and forced marriage is in itself HBA.

Tackling Emerging Threats to Children Team (TETC)

Further information is available in the TETC schools portal [TETC<http://www.nottinghamshire.gov.uk/schoolsportal/services/additional-services/tackling-emerging-threats-to-children-team-and-combined-school-health-hub>](http://www.nottinghamshire.gov.uk/schoolsportal/services/additional-services/tackling-emerging-threats-to-children-team-and-combined-school-health-hub) and includes information for Honour Based and Forced Marriage.

The Tackling Emerging Threats to Children Team in partnership with the Schools' Health Hub Co-ordinators, will work across the county on a locality basis. The team has been established to support schools with the safeguarding and health and well-being agendas and will focus on developing best practice in response to new and existing "threats".

The team's remit includes a wide range of sensitive issues including: radicalisation and extremism; child sexual exploitation; female genital mutilation; forced marriage and honour based abuse; online safety; bullying in all its forms including prejudice based incidents and hate crime; sexual health and healthy relationships; emotional health & well-being; healthy weight and nutrition; alcohol and substance misuse; smoking cessation; resilience. Acting as a single point of contact for universal services, the team will focus on developing its own section of the school's portal website as the main mechanism for sharing best practice.

TETC offer:

- Advice, training and consultancy, including signposting to other tried and tested providers
- Quality assurance of curriculum resources, external training providers and intervention packages
- Policy templates, lesson plans and audit tools to support schools with all aspects of delivery in relation to the TETC/Health agendas.

TETC aim to:

- support schools to respond effectively and with confidence to the complex range of safeguarding and health and well-being issues which they are required to address
- engage all stakeholders in the co-design and production of materials and the evaluation of all aspects of work

- provide a credible and consistent service offer which is based on best practice and is evidenced-based
- stay abreast of the agendas, including changes in legislation, regulatory activity, and new and emerging trends.

[Spotting and Preventing HBA](#)

[The right to choose: government guidance on forced marriage](#)

22 Voyeurism (Upskirting)

The Voyeurism (Offences) Act has been amended in 2019 to include 'up skirting' as a criminal offence. The Criminal Prosecution Service defines 'up skirting' as a colloquial term referring to the action of placing equipment such as a camera or a mobile phone beneath a person's clothing to take a voyeuristic photograph without their permission. It is not only confined to victims wearing skirts or dresses and equally applies when men or women are wearing kilts, cassocks, shorts or trousers. It is often performed in crowded public places, for examples on public transport or at music festivals, which can make it difficult to notice offenders.

Academies need to ensure staff are aware of this offence and report appropriately by informing the Designated Safeguarding Lead.

More information is available [here](#) and [here](#).

23 Human Trafficking

Human trafficking is the trade of humans for the purpose of forced labour, sexual slavery, or commercial sexual exploitation for the trafficker or others. This may encompass providing a spouse in the context of forced marriage, or the extraction of organs or tissues, including for surrogacy and ova removal.

Signs of child trafficking

Knowing the signs of trafficking can help give a voice to children. Sometimes children won't understand that what's happening to them is wrong. Or they might be scared to speak out.

It may not be obvious that a child has been trafficked, but you might notice unusual or unexpected things.

They might:

- spend a lot of time doing household chores
- rarely leave their house or have no time for playing
- be orphaned or living apart from their family
- live in low-standard accommodation
- be unsure which country, city or town they're in
- can't or are reluctant to share personal information or where they live
- not be registered with a school or a GP practice

- have no access to their parents or guardians
- be seen in inappropriate places like brothels or factories
- have money or things you wouldn't expect them to
- have injuries from workplace accidents
- give a prepared story which is very similar to stories given by other children.

Effects of child trafficking

Trafficking can have both short and long term effects and the impact can last a lifetime.

Children and young people who've been trafficked might:

- not understand what has happened to them is abuse - especially if they've been groomed
- believe they are in a relationship with their abuser and unaware they're being exploited
- think they played a part in their abuse or have broken the law
- feel very guilty or ashamed about the abuse they have suffered.

Being kept captive or living or working in poor conditions can have a serious impact on a child's mental and physical health. They might also be suffering from the effects of abuse and neglect.

Children may feel distressed and alienated if they've been separated from their families, friends, communities and cultures.

They will often have had no access to education or opportunity for social and emotional development.

Children exploited for domestic servitude and forced labour can suffer physical injuries, develop problems with their emotional health and be denied access to an education.

Children trafficked for sexual exploitation are at high risk of prolonged periods of sexual violence, physical injuries, sexually transmitted infections and, for girls, multiple pregnancies.

Who's at risk

Any child is at risk of child trafficking.

Human trafficking happens due to:

- inequalities between countries, such as different education or employment opportunities
- poverty
- the effects of war
- the demand for cheap or free labour or a workforce who can be easily controlled and forced into criminal activity
- low levels of education
- lack of equal opportunities, discrimination or marginalisation.

Report child trafficking

Children who are trafficked are intentionally hidden and isolated from the services and communities who can identify and protect them. If you're worried about a child, you can take steps to keep them safe. Staff should raise concerns through the usual academy channels to their Designated Safeguarding Lead who will make the appropriate referral to MASH.

If you think a child or young person is in immediate danger, contact the police on 999.

Further information available [here](#) and [here](#).

24 Harmful Sexual Behaviour/ Sexually Harmful Behaviour

Harmful sexual behaviour (HSB) is developmentally inappropriate sexual behaviour which is displayed by children and young people and which may be harmful or abusive (derived from Hackett, 2014). It may also be referred to as sexually harmful behaviour or sexualised behaviour.

Technology assisted HSB

Technology assisted HSB (TA-HSB) is sexualised behaviour which children or young people engage in using the internet or technology such as mobile phones. This might include:

- viewing pornography (including extreme pornography or viewing indecent images of children)
- Youth Produced Sexual Imagery

Signs and indicators

Children and young people demonstrate a range of sexual behaviours as they grow up, and this is not always harmful.

Sexualised behaviour sits on a continuum with five stages:

- **appropriate** – the type of sexual behaviour that is considered 'appropriate' for a particular child depends on their age and level of development
- **inappropriate** – this may be displayed in isolated incidents, but is generally consensual and acceptable within a peer group
- **problematic** – this may be socially unexpected, developmentally unusual, and impulsive, but have no element of victimisation
- **abusive** – this often involves manipulation, coercion, or lack of consent
- **violent** – this is very intrusive and may have an element of sadism

Risks and vulnerability factors

Many children and young people who display HSB have experienced abuse or trauma (Hackett et al, 2013).

Children who have been sexually abused may not know that what has happened to them is wrong. This can lead to them displaying harmful sexual behaviours towards others (Ringrose et al, 2012).

Complex needs

Children and young people who display HSB may have complex needs and may display other behavioural problems alongside their HSB (Hollis, 2017).

For example, children who display harmful sexual behaviour may:

- have poor self-regulation and coping skills
- experience social anxiety and a sense of social inadequacy
- have poorly internalised rules for social behaviour
- have a poorly developed sense of morality
- lack secure and confident attachments to others

- have limited self-control and act out emotional experiences through negative or otherwise inappropriate behaviour
- have little insight into the feelings and needs of others or their own mental states
- place their own needs and feelings ahead of the needs and feelings of others
- show a poorly defined sense of personal boundaries
- have developed strong and not easily corrected cognitive distortions about others, themselves, and the world they share
- have deficits in social skills and in social competence overall

Teaching children about healthy relationships

Society and culture have a big impact on what children think about sex and sexuality. What they see and read on television, the internet and in other media can reinforce these ideas and can contribute to children and young people becoming sexualised early on in their lives – or may normalise non-consensual sexual activities.

Schools have an important role in challenging these ideas and teaching children about healthy relationships and behaviours (Champion, 2016; House of Commons Women and Equalities Committee, 2016). This is part of the academy's RSE and PHSE curriculum.

Reporting

If you're worried about a child, you can take steps to keep them safe. Staff should raise concerns through the usual academy channels to their Designated Safeguarding Lead who will make a referral to MASH if appropriate

If you think a child or young person is in immediate danger, contact the police on 999.

More information is available [here](#)

25 Low Level Concerns

At The Samworth Church Academy we recognise the possibility that adults (including governors, volunteers, supply teachers, and agency staff) working in the school may harm children.

The academy has a clear process regarding low level concerns which empowers sharing of these concerns. Any concerns about the conduct of other adults in the school should be taken to the head teacher without delay; any concerns about the head teacher should go to the chair of governors who can be contacted by email at nlinney@linney.com.

Concerns may come from various sources, for example, a suspicion; complaint or disclosure made by a child, parent or other adults within or outside of the organisation; or as a result of vetting checks undertaken.

The head teacher has to decide whether the concern is an allegation or low level concern; the term low level concern does not mean that it is insignificant, it means that the behaviour towards a child does not meet the threshold for referral to the Local Authority Designated Officer (LADO).

Allegations

It is an allegation if the person (this could be anyone working in the academy that provides education for children under 18 years of age, including supply teachers, volunteers and contractors.) has:

- behaved in a way that has harmed a child, or may of harmed a child and/or
- possibly committed a crime against or related to a child and/or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children (this also includes behaviour outside the school).

Before contacting the LADO, the academy will conduct basic inquiries in line with local procedures to establish the facts to help them determine whether there is any foundation to the allegation, being careful not to jeopardise any future police investigation.

Allegations should be reported to the LADO without delay.

The LADO's role is not to investigate the allegation, but to ensure that an appropriate investigation is carried out. Whether that is by the police, children's social care, the academy or a combination of these.

Low level concerns

Concerns may be graded low level if the concern does not make the criteria for an allegation; and the person has acted in a way that is inconsistent with the staff code of conduct, including inappropriate conduct outside of work. Example behaviours include but are not limited to:

- being over friendly with children
- having favourites
- taking photographs of children on their mobile phone
- engaging with a child on a 1 to 1 basis in a secluded area or behind a closed door
- using inappropriate, sexualised, intimidating or inoffensive language

If the concern has been raised via a third party, the head teacher should collect as much evidence as possible by

- speaking directly to the person who raised the concern, unless it has been raised and anonymously
- to the individual involved
- any witnesses

Any reports/witness statements should be completed independently, a group statement from several witnesses is not appropriate.

Reports about supply staff and contractors should be notified to their employers, so any potential patterns of inappropriate behaviour can be identified.

Staff should be encouraged and feel confident to self-refer, where, for example, they have found themselves in a situation that could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

Low level concerns should be recorded in writing, including name (if the individual wishes to remain anonymous then that should be respected as far as reasonably possible) of individuals sharing their concerns; details of the concerns; context in which the concern arose; action taken. There should be a reference made in the academy's bound book.

Records should be kept confidential, held securely and comply with the Data Protection Act 2018 and the SNMAT data protection policy. Records should be reviewed so that potential patterns of concerning, potential problematic or inappropriate behaviour can be identified. If a concerning pattern of behaviour is identified and now meets the criteria for an allegation, then the matter should be referred to the LADO.

The records' review might identify that there are wider cultural issues within the academy that enabled the behaviour to occur. This will mean that policies or processes will be reviewed and revised if necessary and/or extra training delivered to minimise the risk of it happening again.

Online Safety and Youth Produced Sexual Imagery

Further information is available in the [TETC schools' portal](#)

Our academy ensures that children are able to use the internet and related communications technologies appropriately and safely and this is part of our wider duty of care. We recognise that the use of technology can be a significant component of many safeguarding issues including children sexual exploitation; radicalisation and sexual predation.

Online safety now covers the safety issues associated with all information systems and electronic communications as a whole. This encompasses not only the internet but all wireless electronic communications including mobile phones, games consoles, cameras and webcams. It also needs to take into account the increasing mobility of access to digital technology through the range of mobile devices.

When children use the academy's network to access the internet, they are protected from inappropriate content by our filtering and monitoring systems. However, many pupils are able to access the internet using their own data plan. To minimise inappropriate use as an academy we have a clear no phones policy within the academy, and students found to be using their phone will have it confiscated.

Technology often provides a platform to facilitate harm. However, it is important to remember that the issue at hand is not the technology but the behaviour around how it is used; the use of new technologies in education brings more benefits than risks.

Through our Online Safety Policy, our academy will ensure that we meet their statutory obligations to ensure that children and young people are safe and are protected from potential harm, both within and outside our academy. The policy also forms part of our academy's protection from legal challenge, relating to the use of digital technologies.

There are additional duties under the Counter terrorism and Securities Act 2015 which requires our academy to ensure that children are safe from terrorist and extremist material on the internet. Our academy will ensure that there are filters and monitoring systems in place to limit exposure to risks when children are using the academy's IT systems and technology that can be used online.

The academies should consider the [cyber security standards for schools and colleges](#) and gaining accreditation from [National Online Safety](#)

The academy has appropriate monitoring and filtering systems in place. These are maintained by SENSO Cloud and Smoothwall. A dictionary of filtered words is kept and updated. Half termly checks are made to ensure the filtering system is working appropriately. (see recording format below)

Our academy recognises that whilst we have appropriate filters and monitoring systems in place, we also do not “over block” so that we do not restrict this teaching opportunity to teach children about keeping safe online.

Governors have oversight that these checks are being made and are ineffective. Staff receive training in order to know and understand their responsibility regarding filtering and monitoring. The DSL has lead responsibility for this.

As part of a broad and balanced curriculum, all pupils will be made aware of online risks and taught how to stay safe online. Through training, all staff members will be made aware of the following:

- Pupil attitudes and behaviours which may indicate they are at risk of potential harm online
- The procedure to follow when they have a concern regarding a pupil's online activity

Pupils' personal online safety should be reinforced regularly.

The academy will utilise the DfE guidance '[Teaching online safety in school](#)' when determining the best approach to safeguarding pupils online.

Off site

Where pupils need to learn online from home, the academy will support them to do so safely in line. Academies must promote safe use of the internet including social media and learning platforms. As part of the usual communication with parents, the school will reinforce the importance of pupils being safe online and inform parents that they will find it helpful to understand what systems the school uses to filter and monitor online use. The school will also make it clear to parents what their children are being asked to do online for school.

All online learning tools must be in line with privacy and data protection/GDPR requirements.

Reporting routes for children who have concerns when working online should be clear.

Any remote teaching sessions should be in line with guidance set out in the staff code of conduct.

Youth Produced Sexual Imagery (YPSI)

Introduction

The academy recognises that YPSI is a growing concern amongst professionals and parents as it can expose children to risks, particularly if the imagery is shared further. It can lead to embarrassment, bullying and increased vulnerability to sexual exploitation. Producing and sharing images of under-18s is also illegal.

There is no clear definition of what YPSI is and indeed many professionals, young people and parents have different interpretations ranging from sending flirty messages to sending nude or semi-nude photographs via mobiles or over the internet.

This guidance is based on the Gov.UK document, Sharing Nudes and Semi Nudes advice for practitioners working with children and young people December 2020. The full guidance is located [here](#)

This guidance covers:

- A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18
- A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult
- A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18

It does not cover:

- The sharing of sexual imagery of people under 18 by adults as this constitutes child sexual abuse and schools should always inform the police and CSC.
- Young people under the age of 18 sharing adult pornography or exchanging sexual texts which don't contain imagery.

The term youth produced sexual imagery has been adopted to provide some clarity and to distinguish it from imagery where there are adults involved in some manner.

The purpose of this guidance is to make expectations clear to pupils and their parents and carers as well as to be clear to staff about the academy's policy and procedure in responding to incidents.

This information forms part of the academy's safeguarding arrangements and our response to concerns about 'sexting' will be guided by the principle of proportionality and our primary concern at all times is the welfare and protection of the children and young people involved.

The academy recognises that it is an offence under the Sexual Offences Act 2003 to possess, distribute, show and make indecent images of children (a child being under 18 year) but it does not define what is indecent.

However, the police accept that the law which criminalised indecent images of children was created before the technological advances of today and it originally sought to protect children from adults. It was not intended to criminalise children. Despite this, children

who share sexual imagery of themselves or peers are breaking the law, therefore, we will seek to manage this type of case appropriately.

All professionals including the National Police Chiefs Council agree that incidents involving youth produced imagery should primarily be treated as a safeguarding issue. It is agreed that we should not unnecessarily criminalise children as the consequence of this can be significant in terms of their life chances in adulthood. Where children do share images, it is often as a result of natural curiosity and exploring relationships and in the context of the digital world we live in.

The academy is therefore empowered to deal with the majority of these incidents without involving the police.

Handling Incidents

The academy may become aware of the issue in a variety of ways i.e. from the child direct, a friend of parent or a member of staff.

We recognise that the child is likely to be very embarrassed and worried about what might happen. We also recognise the pressure that is on a child can be under to take part in sharing such imagery but we will reassure them they are not on their own and will help and support them. We will also help them to understand what has happened and the context for the concerns. We will also discuss issues of consent and trust within healthy relationships.

All incidents will be followed in line with our safeguarding and child protection policy. Where an incident comes to our attention:

- The incident will be reported to the Designated Safeguarding Lead (DSL) as soon as possible.
- An initial meeting with the appropriate academy staff will be held to:
- Establish if there is immediate risk & what further information is needed, whether or not the imagery has been shared
- Consider facts about the children involved which could influence a risk assessment.
- A meeting with the young person will be held (if appropriate)
- Parents will generally be informed at an early stage

An immediate referral to children's social care and/or the police should be made if at the initial stage:

- The incident involves an adult
- The child has been coerced, blackmailed or groomed or if there are concerns about capacity to consent
- If the sexual acts are unusual for the developmental age or violent
- Children under 13 years are involved
- The child is at immediate risk e.g. suicidal or self-harming

Where the above do not apply then the academy will generally deal with this matter without involving the police or children's social care although this will be subject to review.

This decision is made where we are confident that we have sufficient information to assess and manage any risks within our pastoral support and disciplinary framework. The decision will be made by the Designated Safeguarding Lead with the input of the Principal and others as appropriate and will be recorded.

Examples of cases where there is no need to involve the police are:

If a young person has shared imagery consensually, such as when in a romantic relationship, or as a joke, and there is no intended malice, it is usually appropriate for the academy to manage the incident directly.

In contrast any incidents with aggravating factors, for example, a young person sharing someone else's imagery without consent and with malicious intent, should generally be referred to police and/or children's social care.

The following information will be considering when deciding on a course of action:

- Why was the imagery shared? Was the young person coerced or put under pressure to produce the imagery?
- Who has shared the imagery? Where has the imagery been shared? Was it shared and received with the knowledge of the pupil in the imagery?
- Are there any adults involved in the sharing of the imagery?
- What is the impact on the young people involved?
- Do the young people involved have additional vulnerabilities?
- Does the young person understand consent?
- Has the young person taken part in this kind of activity before?

Professional judgement will always be applied.

The images will not generally be viewed by staff unless there is a clear reason for doing so, reporting of the content is usually sufficient

- We will NOT copy, print or share the image as this is illegal
- If viewing is done, it will be with another member of safeguarding staff or senior leadership

Once a decision has been made not to involve the police or CSC then images may be deleted but we will be clear that this is appropriate action.

Where it is necessary to involve the police and it is appropriate we are authorised to seize any device (Education Act 2011) and pass it the police

CSC will be involved where there are concerns which meet the threshold or if we know they are already involved with a child.

Case studies:

Case study A: Children and young people aged 13-18:

- *Two children, both aged 15, were in a relationship for the past month. The boy asked the girl for “sexy” pictures and she sent him a single topless photo. Afterwards the girl was worried that he might share the photo so she shared her concerns with her friends. Her friends then told their form tutor who spoke with the school Designated Safeguarding Lead.*

School response:

- *The Designated Safeguarding Lead spoke with the girl and then the boy. Both pupils confirmed there had not been any sexual activity between them. There were not any wider safeguarding concerns about either pupil. There was no evidence that the image had been shared by the boy and he offered to delete the image from his device.*
- *Both pupils were spoken with by the Designated Safeguarding Lead who advised them on the potential impact of taking and sharing youth produced sexual imagery both criminally and emotionally. The Designated Safeguarding Lead worked with both pupils to help them come up with an agreed plan to inform their parents. The school Designated Safeguarding Lead documented the incident and as well as the actions taken in the children’s safeguarding records.*

Case study B: Children aged under 13:

- *A class teacher found a naked photo of a child (boy, aged 11) on a school tablet. The child said that he had been using the tablet with two other children during lunchtime and they dared him to take a picture of his bottom.*

School response:

- *The school had no other safeguarding concerns about the children or their families. The school Designated Safeguarding Lead spoke with the local authority education safeguarding team and subsequently accessed the local safeguarding board’s guidance regarding underage sexual activity. This tool indicated that the behaviour was likely to be inappropriate but did not meet the threshold for a referral to children’s social care.*
- *The school Designated Safeguarding Lead spoke with the children involved and their parents and advised them on the situation and possible consequences including police and social care involvement. The children were sanctioned in school for their behaviour and the parents were fully supportive of the school’s approach.*
- *All members of staff were provided with updated online safety training and a reminder of the school online safety and acceptable use policy to ensure that children were not left unsupervised with school tablets. The school documented the incident and the actions taken in the children’s safeguarding records.*

Educating Young People

As an academy we need to teach children in an age appropriate way about youth produced imagery to prevent harm by providing them with the skills, attributes and knowledge to help them navigate risks.

This approach to tackling sensitive issues promotes an academy wide approach to safeguarding giving children the space to explore key issues and the confidence to seek the support of adults should they encounter problems.

This issue will be taught as part of a wider PSHE programme and through IT curriculum work to underpin a specific message such as YPSI, in an age appropriate manner.

The work that we do therefore will include issues such as:

- communication
- understanding healthy relationships including trust
- understanding and respecting the concept of genuine consent
- understanding our rights (especially our collective right to *be* safe and to *feel*/safe)
- recognising abusive and coercive language and behaviours
- accepting our responsibilities (especially our responsibility to respect others trust and protect their right to be physically, emotionally and reputationally safe)

Helplines and reporting

- Children can talk to a ChildLine counsellor 24 hours a day about anything that is worrying them by ringing 0800 11 11 or in an online chat at <http://www.childline.org.uk/Talk/Chat/Pages/OnlineChat.aspx>
- If parents or carers are concerned that their child is being contacted by adults as a result of having shared sexual imagery they should report to NCA-CEOP at www.ceop.police.uk/safety-centre
- ChildLine and the Internet Watch Foundation have partnered to help children get sexual or naked images removed from the internet. Young person can get their photo removed by talking to a ChildLine counsellor. More information is available at <http://www.childline.org.uk/explore/online-safety/pages/sexting.aspx>
- If parents and carers are concerned about their child, they can contact the NSPCC Helpline by ringing 0808 800 5000, by emailing help@nspcc.org.uk, or by texting 88858. They can also ring the Online Safety Helpline by ringing 0808 800 5002.

Advice and information for parents

- The NSPCC has information and advice about sexting available on its website: [NSPCC Sexting](http://www.nspcc.org.uk/sexting)

- The National Crime Agency/CEOP has produced a film resource for parents and carers to help them prevent their children coming to harm through sharing sexual imagery: [THINKUKNOW Nude-selfies-a-parents-guide](#)
- Childnet have information and advice about sexting available on its website: <http://www.childnet.com/young-people/secondary/hot-topics/sexting>
Parent Info (<http://parentinfo.org/>) provides information and advice to parents from expert organisations on topics ranging from sex and relationships, mental health and online safety including sexting.

Resources parents could highlight to their children

- ChildLine have created Zip-It, an app that provides witty comebacks in order to help young person say no to requests for naked images [Childline Zipit Ap](#)
- There is information on the ChildLine website for young people about sexting: [Childline information for young people](#)
- The Safer Internet Centre has produced resources called '[Childnet So you got naked online](#)' which help young people to handle incidents of sexting

The NSPCC adults helpline: 0808 800 5002 The NSPCC has partnered with O2 to offer direct support to parents and other adults on issues relating to online safety.

ChildLine: www.childline.org.uk ChildLine offers direct support to children and young people including issues relating to the sharing of sexual imagery.

The Professionals Online Safety Helpline (POSH):

<http://www.saferinternet.org.uk/about/helpline> Tel: 0844 381 4772. This helpline supports professionals with an online safety concern or an online safety concern for children in their care. Professionals are able to contact the helpline to resolve issues.

Resources for teaching staff

There is a wealth of resources for teachers at page 28 of the [UK Council for Internet Safety](#)

[Safer Internet](#)

[Council For Child Internet Safety](#)

[Harmful online challenges and online hoaxes](#) - this includes advice on preparing for any online challenges and hoaxes, sharing information with parents and carers and where to get help and support.

[LGFL 'Undressed'](#) advice about how to teach young children about being tricked into getting undressed online in a fun way without scaring them or explaining the motives of sex offenders.

Record of Filtering Checks

Checks of the IT filtering system of made on a half termly basis. These checks are always made in the presence of 2 people and recorded below.

At least three words from the dictionary should be searched.

[illegible]

27 Mental Health

All staff will be made aware that mental health problems can, in some cases, be an indicator that a pupil has suffered, or is at risk of suffering abuse, neglect or exploitation.

Staff will not attempt to make a diagnosis of mental health problems – the academy will ensure this is done by a trained mental health professional. Staff will be encouraged to identify pupils whose behaviour suggests they may be experiencing a mental health problem or may be at risk of developing one.

Staff who have a mental health concern about a pupil that is also a safeguarding concern will act in line with this policy and **immediately** speak to the DSL or a deputy.

The academy will access a range of advice to help them identify pupils in need of additional mental health support, including working with external agencies.

[Mental Health in Schools](#)

[Mental Health and Behaviour in Schools](#)

[Mentally Healthy Schools](#)

28 Children Missing from Education

Government guidance can be found at [Children Missing Education](#)

All children, regardless of their circumstances, are entitled to a full-time education which is suitable to their age, ability, aptitude and any special educational needs they may have. We are aware that local authorities have a duty to establish, as far as it is possible to do so, the identity of children of compulsory school age who are missing education in their area.

We recognise that a child going missing from education is a potential indicator of abuse or neglect.

When a child is absent from the academy without authority, we will follow our procedures for unauthorised absence and for dealing with children that go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of their going missing in future.

We have an admission register and an attendance register which supports the academy in safeguarding children who may be at risk of missing education.

We will discuss and agree actions with regards to individual cases with the relevant colleagues in safeguarding/education within Nottinghamshire County Council for pupils who are to be removed from the admission register where the pupil:

- has been taken out of the academy by their parents and the academy has received written notification from the parent they are being educated outside the school system e.g. home education – this will be communicated with the home elective team
- does not arrive at the academy as part of an admission process and we are not aware of their whereabouts
- has ceased to attend the academy and no longer lives within reasonable distance of the academy or school at which they are registered and has been discussed with the children missing officer (CMO) as they have not been registered at a new school or academy
- has been certified by the school medical officer as unlikely to be in a fit state of health to attend school before ceasing to be of compulsory school age, and neither he/she nor his/her parent has indicated the intention to continue to attend the academy after ceasing to be of compulsory school age
- are in custody for a period of more than four months due to a final court order and the proprietor does not reasonably believe they will be returning to the academy at the end of that period
- has been permanently excluded.

Poor attendance is closely monitored, and the following procedures are followed to support families and students to resolve any barriers to regular attendance. These procedures can be found in our [Attendance Policy](#)

Where a pupil who fails to attend our academy regularly, or has been absent without the academy's permission for a **continuous** period of 10 school days or more we will follow the [NCC School Attendance Flowchart](#)

The flowchart summarises that every child should be accounted for, their whereabouts should be known, or we will make a referral to the relevant service. We will not remove a child from our roll unless we can evidence an agreement with the local authority to do so.

In response to the guidance in KCSiE (2023) the academy has:

- Staff who understand what to do when children do not attend regularly
- Appropriate policies, procedures and responses for pupils who go missing from education (especially on repeat occasions)
- Staff who know the signs and triggers for travelling to conflict zones, FGM and forced marriage

When a pupil leaves the academy. We will record the name of the pupil's new school/academy and their expected start date.

Absence

At The Samworth Church Academy our attendance procedures as set out in our [Attendance Policy](#) are followed from the first day of an unexplained absence.

The academy will ensure that at least two, and preferably 3, emergency contacts are held for each child, parents/carers should inform the academy if these change at any time.

Children can register in the morning and then go missing throughout the day without a satisfactory explanation. If a child is 'missing', their whereabouts cannot be established within the academy. Academies will need to identify whether the child is at significant risk.

Children are more vulnerable who:

- are on a plan (child protection plan, child in need plan, looked after child, early help)
- have specialist educational needs and or a disability
- are using substances
- have an education health care plan
- there are indications that the child is at risk of CSE, grooming, radicalisation etc

There may be other contributing factors that should be taken into consideration when determining if the child is at significant risk such as the child's emotional health, known issues at home etc.

Irrespective of these concerns academy staff will make weekly contact (during term time) with any pupil who is absence for a week or more. This is to determine the welfare of the child and will take place even if parents have given a reason for the absence.

Academy staff will always try to locate the child and attempt to establish the whereabouts of the child. Once a child has been identified as missing and cannot be located within the academy, the designated safeguarding lead will be informed .

Staff will use their professional judgement and risk assess the urgency of the situation to help inform the timeframe required in establishing the child's whereabouts before notifying the police. Parents/carers will always be informed before contact with the police is made, unless a child is at immediate risk of harm and a police response is needed. This will be judged on a case by case basis.

When a decision has been made to contact the police, the police will require information from the academy to assist in locating the child and returning them to a safe environment.

If a child has a social worker or case manager (e.g. early help) then they should also be informed.

Where a child is known to regularly go missing from the academy, a risk assessment for the child will be undertaken.

For further guidance please see the missing protocol or speak to Nottinghamshire County Council's Glen Scruby, Children's Missing Officer.

Missing.CME@nottscc.gcsx.gov.uk 0115 8041045

29 Transportation of Children by Parents

Our academy recognises that at times parents/carers transport their own and other children to/from school visits or out of school activities etc. Where this occurs there are essentially two ways that this can be undertaken:

1. Where parents/carers transport their own children or agree with others to cooperate in transporting children to and from venues as a **private arrangement**, the health and safety of young people is the responsibility of the parents/carers concerned.
2. Where parents/carers (or others) offer transport assistance which has been **requested or facilitated** by our academy then they are in effect operating as volunteer employees and the responsibility for safety lies with our academy.

In these circumstances the parent/carer (or others) would be considered as a volunteer and this will require The Samworth Church Academy to undertake the necessary checks as for any other volunteer in regulated activity. E.g. obtaining an enhanced DBS certificate (which should include barred list information). The same policy as for academy staff transporting children will therefore apply.

[Using private cars for school trips](#)

30 Photographing and Videoing of Children in the Academy

At The Samworth Church Academy we have taken a sensible and balanced approach to photographing and videoing children on the academy site.

Taking pictures and video images of children's achievements and activities is a wonderful way of capturing a memory and promoting successes. The policy document explains in detail the academy's requirement to obtain parental permission while taking such images and the safeguards in place to ensure anonymity (wherever possible) in their usage.

Further guidance is provided by the Information Commissioners Office on taking photographs in Schools and the Data Protection Act 1998 [ICO: taking photographs in schools](#)

31 Homestay Arrangements

The academy must consider the safety of pupils and how best to minimise risk of harm during exchange visits where accommodation is arranged with a host family (homestays).

When the academy is arranging accommodation in the UK the suitability of the adults in the host families should be considered. In such cases the academy is the regulated activity provider. A regulated activity provider commits a criminal offence if it knows or has reason to believe that an individual is barred by the Disclosure and Barring from engaging in regulated activity but allows that individual to carry out any form of regulated activity.

[ASCL International exchanges and visits](#)

32 Private Fostering Guidance for Schools

Schools play an essential role in identifying privately fostered children. Although most children in private fostering situations are likely to be safe, in some private fostering arrangements there are clear safeguarding issues and children and young people effectively have no one who is concerned for their safety or welfare.

This guidance aims to raise the awareness of the role of education professionals in highlighting cases of private fostering and safeguarding children at risk.

What is a private fostering arrangement?

A private foster carer is someone *other than* a parent or a close relative who cares for a child for a period of 28 days or more, in agreement with the child's parent. It applies only to children under 16 years, or under 18 if they are disabled.

A private fostering arrangement is not when a child is Looked After by the Local Authority or placed in any residential home, hospital or school.

Private foster carers can be part of the child's wider family, a friend of the family, the parents of the child's boyfriend or girlfriend or someone unknown but willing to foster the child. A cousin, great aunt or a co-habitee of a mother or father would therefore be a private foster carer.

Close relatives - a grandparent, a brother or sister, an aunt or an uncle, a step parent - are *not* private foster carers.

Who may be privately fostered?

This list is by no means exhaustive and indicates the scale and variety of situations and agencies these arrangements can cover:

- Children whose parents are unable to care for them, for example if they have chronic ill health or are in prison.
- Children sent to this country, for education or health care, by parents who live overseas.
- Children living with a friend's family because they don't get on with their own family.
- Children living with a friend's family because of their parents' study or work.
- Children staying with another family because their parents have separated or divorced.
- Teenagers living with the family of a boyfriend or girlfriend.
- Children from abroad who attend a language school or mainstream school in the county and are staying with host families.

- Children at boarding schools who do not return to their parents in the holidays but stay with 'host families' recruited by 'education guardians'.
- Unaccompanied asylum-seeking minors who are living with friends, relatives or strangers.

Children who are trafficked into the UK are especially vulnerable and are often living in de facto private fostering arrangements. Child trafficking is the movement of children for exploitation, including domestic servitude, commercial sexual exploitation and to support benefit claims (see www.ecpat.org.uk for further information). Where trafficking is suspected, a safeguarding referral should be made to Nottinghamshire MASH.

What to do if you are aware of a private fostering arrangement:

By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must notify Children's Services as soon as possible. However, parents and carers often do not tell professionals or agencies about such arrangements; they may not be aware that they need to (and this may apply particularly to new communities in the UK such as migrant families from new-EU states), or they chose not to tell agencies about these arrangements.

Children's Services are **not** involved in making private fostering arrangements but are responsible for checking that the arrangements are suitable for the child. As a professional it is important for you to notify Children's Services if you are in contact with a child or young person who is being privately fostered. This will help protect the child against abuse or neglect and provide some reassurance that the child is being looked after properly.

Schools have a mandatory duty to report to the local authority where they are aware or suspect that a child is subject to a private fostering arrangement. Although schools have a duty to inform the local authority, there is no duty for anyone, including the private foster carer or social workers to inform the school. However, it should be clear to the school who has parental responsibility.

On admission to the academy, we will take steps to verify the relationships of the adults to the child who is being registered.

Signs to watch out for:

- Has someone else started collecting a child from the academy on a regular basis?
- Has a child mentioned to you that they are staying with someone else or that their parent(s) have gone away for a long time?
- Is there something unusual or unclear in the child's administration file? This may include copies of passports, visas and other immigration related documents which are unclear or do not clearly show that the child has rights of residence in the UK, or that it is unclear who has parental responsibility for the child.

What schools can do:

- Ensure that all staff are aware of the definition of private fostering and the Local Authority's responsibilities when such arrangements occur.
- Look at admission files to check on the home situation and make a note to follow up any circumstances which are not clear.
- Whenever staff become aware of private fostering arrangements, they should notify the Designated Safeguarding Lead.
- The DSL or another appropriate member of staff should speak to the families of children who might be involved in private fostering and check that they are aware of their duty to notify the Local Authority of the arrangement. Academy staff should actively encourage the parents and/or carer to notify Children's Services of the arrangement.

If you believe that a private fostering arrangement has not been reported to Nottingham Social Care you should contact them directly:
Nottinghamshire Multi Agency Safeguarding Hub 0300 500 80 90

[Mon-Thurs: 08.30am -5pm, Fri: 08.30-14]
Emergency Duty out of hours Team 0300 456 4546

If you suspect that a child who is living in a private fostering arrangement is being harmed or is at risk of significant harm (including suspecting that a child may be trafficked) and urgent action is required, follow your Child Protection procedures as laid out in this Child Protection Policy.

What happens after the Local Authority is notified?

When the Local Authority receives notification about a private fostering arrangement, the Nottinghamshire MASH Team will arrange for an officer to visit the child within seven working days. They will contact the parent or person with parental responsibility, run checks on the carer and talk to the young person. This will be to ensure the young person is happy, safe and thriving in the arrangement and that they are able to access education, medical care and any other services they may need. The Local Authority will also check that the accommodation is safe and suitable and enable the carer to access suitable training if required. Providing everything is in order, the family will continue the arrangement with the social worker providing checks at regular intervals to ensure the young person is safe, happy and has access to all the services to meet their needs.

33 Contextual Safeguarding

What is Contextual Safeguarding?

Contextual Safeguarding is an approach to understanding, and responding to, young people's experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people's experiences of extra-familial abuse can undermine parent-child relationships.

Therefore, children's social care practitioners, child protection systems and wider safeguarding partnerships need to engage with individuals and sectors who do have influence over/within extra-familial contexts, and recognise that assessment of, and intervention with, these spaces are a critical part of safeguarding practices. Contextual Safeguarding, therefore, expands the objectives of child protection systems in recognition that young people are vulnerable to abuse beyond their front doors.

[Contextual Safeguarding Network](#)

[NSPCC](#)

[Educare](#)

34 Domestic Abuse

The Domestic Abuse Act 2021 (part 1) defines domestic abuse as any of the following behaviours, either as a pattern of behaviour, or as a single incident, between two people over the age of 16 who are personally connected to each other.

- a. Physical or sexual abuse
- b. Violent or threatening behaviour
- c. Controlling or coercive behaviour
- d. Economic abuse (adverse effect of the victim to acquire, use or maintain money or other property, or obtain goods or services)
- e. Psychological, emotional or other abuse

People are personally connected when they are, or have been married to each other or civil partners, or have agreed to marry or become civil partners. If the two people have been in an intimate relationship with each other, have shared parental responsibility for the same child or are relatives.

Research tells us that men are more likely than women to be the perpetrators of family violence. Incidents of domestic violence are rarely a one-off and often become more frequent and severe over time. Domestic violence can affect anyone, regardless of age, social background, gender, religion, sexuality or ethnicity.

Types of domestic abuse include:

- Intimate partner violence
- Abuse by family members
- Teenage relationship abuse
- Child/adolescent abuse to parent violence and abuse

The definition of domestic abuse applies to children if they see or hear or experience the effects of the abuse and they are related to the abusive person.

Impact on children

Being in a household where there is domestic abuse is distressing and scary for children. Children may hear violent or controlling arguments; they may witness violence directly; they may be told to hide and can feel powerless to protect a carer. They are likely to be well aware of the victim's distress and injuries after an incident. They may also get hurt. We know that there is a higher likelihood that children will experience abuse themselves in households characterised by domestic abuse.

There are links between domestic abuse, low self-worth and later risk of child exploitation for both girls and boys. Victims of domestic abuse often lack self-worth and can be at greater risk of depression, anxiety and trauma. This can sometimes interfere with their ability to parent their child sensitively and can lead to harsher parenting which, in turn, can further undermine a child's wellbeing.

Domestic abuse is an important cause of long-term problems for children's mental health and physical health. Effects can be traumatising and long lasting and can have an impact on:

- Children's understanding of normal or acceptable relationships with others and their ability to form relationships in school and beyond.
- A child's emotional wellbeing: increased anxiety, fear and stress levels.
- Their ability to learn.
- Their view of the family and the broader community and society.
- Levels of aggressive and anti-social behaviour, which can persist into adolescence and adulthood.
- they may also be forced to participate in the abusive behaviour

Domestic abuse is a key safeguarding concern.

Working Together to Safeguard Children 2018 (amended 2020) states practitioners should continue to develop their understanding of domestic abuse, which includes controlling and coercive behaviour from perpetrators of domestic abuse, and the impact this has on children (p6).

Practitioners should also be aware of prevalence of teenage relationship abuse where pupils maybe at risk but outside of the home. Practitioners should be mindful of the rights of the victim while within the school and yet provide support for both parties.

36 The role of the appropriate adult

Police and Criminal Evidence Act (1984) – Code C

The Designated Safeguarding Lead (and deputy) are aware of the requirement for children to have an appropriate adult when in contact with Police officers who suspect them of an offence.

PACE states that anyone who appears to be under 18, shall, in the absence of clear evidence that they are older, be treated as a child for the purposes of this Code and any other Code.

PACE also states that if at any time an officer has any reason to suspect that a person of any age may be vulnerable, then that person is entitled to be accompanied by an appropriate adult at any point.

The Designated Safeguarding (or deputy) will communicate any vulnerabilities known by the school to any police officer who wishes to speak to a pupil about an offence they may suspect. This communication will be recorded on CPOMS.

If having been informed of the vulnerabilities, the designated safeguarding lead (or deputy) does not feel that the officer is acting in accordance with PACE, they should ask to speak with a supervisor or contact 101 to escalate their concerns.

A person whom there are grounds to suspect of an offence must be cautioned¹ before questioned about an offence², or asked further questions if the answers they provide the grounds for suspicion, or when put to them the suspect's answers or silence, (i.e. failure or refusal to answer or answer satisfactorily) may be given in evidence to a court in a prosecution.

A Police Officer must not caution a juvenile or a vulnerable person unless the appropriate adult is present. If a child or a vulnerable person is cautioned in the absence of the appropriate adult, the caution must be repeated in the appropriate adult's presence.

The appropriate adult' means, in the case of a child:

1. the parent, guardian or, if the juvenile is in the care of a local authority or voluntary organisation, a person representing that authority or organisation.

¹ The police caution is: *"You do not have to say anything. But it may harm your defence if you do not mention when questioned something which you later rely on in Court. Anything you do say may be given in evidence."*

² A person need not be cautioned if questions are for other necessary purposes, e.g.: (a) solely to establish their identity or ownership of any vehicle; to obtain information in accordance with any relevant statutory requirement; in furtherance of the proper and effective conduct of a search, e.g. to determine the need to search in the exercise of powers of stop and search or to seek co-operation while carrying out a search; or to seek verification of a written record.

2. a social worker of a local authority
3. failing these, some other responsible adult aged 18 or over who is not:
 - a. a police officer;
 - b. employed by the police;
 - c. under the direction or control of the chief officer of a police force; or
 - d. a person who provides services under contractual arrangements (but without being employed by the chief officer of a police force), to assist that force in relation to the discharge of its chief officer's functions,

37 Safeguarding arrangements for pupils in alternative provision and for organisations using the school premises. (KCSiE 2023 para 166 -169)

Alternative Provision

Pupils accessing alternative provision are often vulnerable. Governors and academy leaders should satisfy themselves these settings have appropriate safeguarding arrangements in place; and that there are agreed routes of communication regarding welfare concerns for these pupils.

Use of Premises

Governors and academy leaders should ensure that users of their premises have the appropriate arrangements in place to keep children safe. Assurance will be sought that the provider has the appropriate policies in place and may inspect these if necessary.

The lease agreement must reflect this as a condition of use and failure to comply will result in termination of the lease.

Should the academy receive an allegation regarding an organisation or individual using their premises the academy should follow their safeguarding policy and procedures including informing the LADO.

Guidance can be found in [Keeping children safe in out-of-school settings](#).

37 Safeguarding Training Record

The table below details the dates when staff and governors attended safeguarding training at the academy.

[illegible]

38 Declaration

The signature below confirms that I have read and understood part one and/or Annex A of Keeping Children Safe in Education 2023.

Annex A is sufficient for staff not working directly with pupils.
