

Visitor Hosting (Y7)

Aimed at Year 7 students, this is an opportunity not to be missed! You will take part in both practical and 'live' events to build yourself confidence, by exploring the real you and developing newfound leadership skills through Visitor Hosting. This includes meeting and greeting visitors, participating in events in our Academy calendar and experience being a Tour Guide and Visitor Host.

At the end of term, you will take part in a Graduation event and should you choose to continue hosting, be able to use your newfound life skills and confidence to apply for other leadership opportunities, become a fantastic role model to other students and make a real difference to academy life and beyond in preparation of 70 plus great years.
