

# Early Years Newsletter

April 2026

## Welcome

Welcome back to our last term of the year. We are very excited to hopefully enjoy warmer weather, lots more outdoor sessions and continuing to have lots of fun.

Please join us for our class stay and play session...

## Topic

This term we will be exploring 'In the park and Lichfield'. In the first half term we will concentrate on the park, exploring nature, animals and things we may see at the park. In summer term 2 we will move onto focussing more specifically on Lichfield; exploring the cathedral and places around Lichfield.

Please share photos of any trips to the park or local area you go to or any key events you have in your family home so we can link this to the topic.

## Warmer Weather

As we approach the summer please be mindful to send in hats and sun-cream. We love to use our outdoor space and although we do have some sun shelter we still need to ensure pupils are sun safe. Please also ensure you do not 'overdress' your children and reduce layers as the warmer weather approaches., our classroom can become very warm even with fans on.

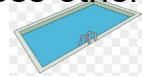

## Forest School

Forest school is on a Thursday PM. Please send children with appropriate clothes according to the weather that day.

## Hydrotherapy

Hydrotherapy is on a Monday AM. Please send swimming kits weekly, if your child does not bring a kit we will assume they can not go unless otherwise stated.

## Rebound Therapy

Rebound is on a Wednesday AM. If your child can not attend alternative activities will be available in class.

## Important Dates

Please keep up to date with any important dates coming up that we should be aware of such as appointments, birthdays other fun family events that we may like to know to influence our planning.
