Autumn – September 2026

Welcome back! It has been amazing seeing everyone come back to school and how excited they are both about their summers and to see their friends. We hope the summer has been a good one for all of you full of fond memories.

We are using EFL to put up photos about your child's day so if you are struggling to access it, please let us know. We are using the home school diaries to let you know of any important messages and what has been had for lunch.

If you have any worries or need any questions answering, please get in touch either via the school office, home schoolbooks or email: office@saxon.set.org

Thank you all for your continued support!

Vocational Experiences

Over the course of the year, the young people in Hub 3 will be able to go and experience the world in many ways, whether this is visits to the farm or planning and completing their half-term of WOW weeks!

Communication, Language and Literacy

In English this term, we will be learning Ghosts in our Reading and writing, with a focus on creative writing.

Thinking and Problem Solving

In Maths this half-term, we will be learning about the 4 operations. We will mostly be focusing on Addition and Subtraction.

Accreditations

During the course of the year, we will be completing work towards accreditations. These will be done during their lessons in school and when they are out on their vocational experiences. Some of the accreditations we are working towards include: Following Instructions, Carrying out Practical Activities, Cooking, Gardening, Health and Fitness and Working on a Farm.
