Tuesday 24th March 2026
8:00-9:00pm

What's Really Going on with My Child's Focus and Emotional Regulation?

With Consultant Clinical Psychologist
Dr Daniel Weisberg

This session is going to explore what may be driving ongoing difficulties with focus, emotional regulation and impulsive behaviour in children and young people.

We'll look at why some young people feel constantly overwhelmed or emotionally reactive, and how this can impact daily life at home and school.

Alongside this, we'll be providing practical strategies and tools to help support both your child and the whole family.

Overview:

- Why some children have focus and attention difficulties
- What's going on behind emotional reactivity
- Why small things can trigger such big reactions
- Co-regulation and supporting big feelings
- When focus and regulation difficulties raise bigger questions
- When to think about seeking an assessment or specialist support and how this may help
- Practical strategies to support focus, attention, regulation and behaviour at home and school

Who can join:

This session is primarily for parents and carers of primary and high school aged-children, but anyone working with children is welcome to attend.
