

Beech Class Newsletter

Welcome

January 2025

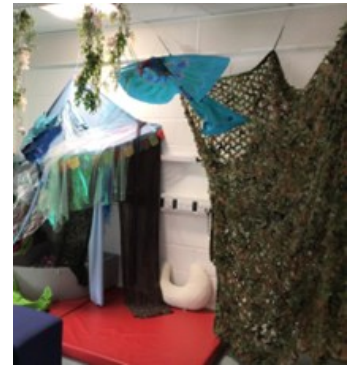

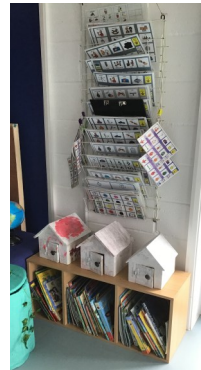

Hello Beech class families! And welcome back after your busy festive break. We hope that you all have had a wonderful Christmas time full of fun and excitement. What an amazing start to the term we have had full of new experiences and fun memories. My team and I have really enjoyed welcoming you all back to Saxon Hill Academy after your break.

My class team and I are looking forward to the academic term ahead. We have already got stuck into the term providing new learning experiences full of fun sensory stimuli for all of our young adults. My staff and I have been working hard and are ready for the new term and the push to February half term. We have lots of exciting learning experiences to fit in prior to this break, we can not wait to get started.

We have made a few changes to the curriculum this academic year to ensure all pupils learn the necessary life skills needed to succeed as they move up school (KS4). The new approach is designed with our students in mind, to best support their academic success and their social and emotional growth.

Our Classroom

Our wonderful and exciting classroom where all the learning, fun and messiness begins.

Staffing

We are really looking forward to seeing what academic success this term, brings for all our young adults and are excited to witness all the magical moments on the horizon.

Sensory topics

Our topic's this term are 'The role of a Farmer and Scientist' and 'Winter fun' and we have lots of exciting learning planned. During our 'Farm' culture day, we will get to mingle with friends and collaboratively explore activities revolving around creating and making art, food and musical instruments.

We are very excited to announce that we are going to have a visit to a Farm to learn what it really takes to be a Farmer.

In our therapy sessions which include: sensology, starbox, story massage and soundbath we will be exploring items that relate to the Literature topic, 'Animal Farm' and 'The life of Marie Curie'. These sessions will enable us to use and fine tune our independence, communication and thinking skills.

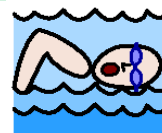

During our Art lessons, we will be exploring and creating art using formal elements of art including line and colour. In addition, to this, we will make artwork using different mark makers as well as gluing and sticking to create our own unique pieces in the style of Mary Cassatt. We will be discovering different ways to create art using various natural resources found in Forest School as well as creating our Winter touchy, feely, smelly art work.

In our tactile awareness and write dance lessons, we will develop our mark making skills, we will have a chance to get messy, work independently and touch and feel items. This will give us an opportunity to develop curiosity, seek out items we want to explore and use them to cause an effect.

In our cooking lessons we will use switches and our hands to make cake, biscuits and lots of other scrumptious desserts and we will enjoy the sensory experience of making different food.

Swimming & Rebound

Our rebound session is on a Thursday afternoon and our hydro session is on a Tuesday morning.

We will try our best to allow everybody to do rebound/hydro each week but sometimes this is not possible. Therefore, children will access rebound/hydro on a rota basis.

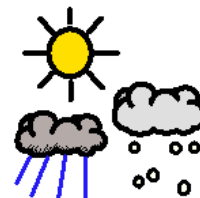

Drinks and snacks

We will continue to learn about healthy eating throughout the whole year. Please continue to send in healthy snacks and drinks for your child if they have one during break time.

Weather

As the weather continues to be chilly please ensure that your child/young person is sent in to school in a coat and warm attire.

Forest School

Your Forest School session is on a Wednesday afternoon. Please ensure that suitable clothing is brought in with your child on a Wednesday (that you do not mind getting a bit dirty).

House points

Beech class will earn house points for brilliant work, trying their best and following class rules. For those extra special WOW moments, the young adults may earn 'Golden time' which we record onto a chart.

If you have any photos of yourselves that you feel link with our topic, that you would be happy for us to use in our classroom display, we would love to see them!
