

Food Technology/Cooking Newsletter

Summer Term 1 - 2024

Welcome Back

Hello and welcome to your Food Technology Newsletter.

We are looking forward to making some wonderful creations in cooking this term, learning about countries and baking lots of wonderful and different recipes from around the World.

If you would like to try any of the recipes with your child at home please let me know and I will send over a step-by-step recipe sheet for you both to follow and enjoy together.

This Season...

We have lots to look forward to this season

Pupils have been researching lots of different countries from around the World by using the internet and working with their friends in groups. We are all getting very excited to try out lots of unusual recipes, which I am sure you will be hearing all about soon. You may also get the opportunity to try some at home with your families too!!! We are starting off with Madeleines from France and Cous Cous from Morrocco. Please remember to check your child's bag on a cooking day incase you have taster in there. Enjoy :)
