Autumn– September 2025

Welcome Back

Hello and welcome back after the summer break. We hope you have had a lovely, relaxing summer! It has been fantastic to see the pupils settling back in to school and sharing their news. We can't wait to get started on the new term!

We will be using the home school diaries for important messages only and uploading photos onto the Evidence for Learning app daily for you to see what your child has been up to. It's a great opportunity to look at these with your child at home and we love to read your comments.

We are busy planning a Macmillan coffee afternoon for 22nd September, which will be a fantastic opportunity to welcome you in to see your child's classroom and meet the team! We will send out more details nearer the time.

If you have any queries, please do not hesitate to contact us via the school office, your child's home-school diary or email:

elizabeth.willis@saxon.set.org

Many thanks for your continued support!

Lizzie, Beky and Millie.

Class Team

Lizzie Willis—Teacher

Beky Horton —TA

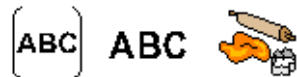

Millie—1:1

English

This term, we are focussing on our speaking & listening skills linking to the topic of hobbies. We are researching different hobbies, presenting them in different formats and responding to peer feedback.

Next half term, we will produce a vlog about our favourite hobby.

Maths

This term, our Maths topic will be focusing on the properties of number. We will begin with recapping place value and comparing numbers using symbols. We will then move onto rounding numbers and finding more or less of a given number.

Next half term, we will be focussing on the four operations.

AQA, PFA & Work Experience

This term, we will be beginning our year-long AQA Foundation Project, which we are really excited about! Pupils will individually choose the topic that they want their project to focus on and how they want to present the topic; it could be in the form of an essay, PowerPoint presentation, vlog or even a sculpture.

Pupils have voted as a class on what they want to learn this term in our PFA lessons. On Wednesday mornings we will be planning a class trip, which will help teach skills such as budgeting and creating an itinerary. On Friday mornings we will be focussing on music, with the end goal being to create our own recording over at King Edwards music studio!

Work Experience will be on a rota basis, with opportunities for pupils to attend the Craft Barn, volunteer in the local community or even help out in school making staff meal deals or selling items at the pop-up shop.

Science

Science is taught by Nicola on a Thursday afternoon. Our topic this term will be Biology, focusing on the human body and immune system.

This will help us earn credits towards our AQA Science accreditation.

Rebound and Hydro

We access Rebound and Hydrotherapy every Friday morning, on a rota basis with the other classes in the Towards Independence department. We will let you know in the home-school diary when it is your child's turn for Hydro, so you can provide the appropriate kit.
