- You are a landscape architect and have been asked to design a back garden for a wealthy client who lives in Nice. He requests to have the following as part of the design:
  - A swimming pool
  - A pond
  - A mixture of colourful flowers
  - At least one seating area

Create your design on an A4/A3 piece of paper in bird's-eye view. This can be done on the computer or by hand. Ensure that your layout is labelled in French and that all elements are priced up so that we can give a quote to the client on how much it will cost to transform his garden into something special.

**Extras:**

- Keep using 'Linguascope' to go over all the basics from yr 6 + 7
- Download the 'Duolingo' App to help further with learning French and also to pick up a new language. It's free!
- On streaming websites, see if there is an option to change the audio to French and have English subtitles to push your listening :)
- Create some colourful 'vocab' summary sheets for topics from yr 6 + 7 to place in your book in September. Include images too !
