

Arrangements for collecting your child from school

Years 1-6

Please note: Parents/carers must wear a face mask when collecting child/ren at the end of the day, as it is not possible to maintain 2m social distancing on the playground at this time.

A one-way system will be in operation, as follows:

- 1) At the allotted time for your child's bubble, enter school via the staff car park and walk up onto the bottom yard via the large gates.
- 2) Line up on your child's bubble line (indicated by the coloured cones – see attached plan). There are 2 lines for each bubble. Stand on the yellow dots to assist in maintaining social distance and move up the line as children are dismissed.
- 3) As you get to the front of the line, a member of staff from your child's bubble will send your child to the front of the line to meet you.
- 4) Please then walk down the playground with your child (taking responsibility for social distancing yourselves) and exit via the main pedestrian gate, avoiding spending any unnecessary time on the yard.

****If you have another child to collect at the later time slot, turn right at the bottom of the yard and join the bubble line for your next child.**

If you have two children (Y1-6) to collect at the same allotted time, line up on the bubble line for your younger child and both children will be sent out to you there.
