

How do we know what the children have learned?

How is each subject assessed?

How is progress measured?

We measure the impact of our curriculum through checkpoints using the following methods:

- **Checkpoint 1** - At the start of each unit, children revisit prior learning and knowledge through an *'entry ticket'*.
- **Checkpoint 2** - Review of learning at the end of each lesson through an *'exit ticket'*.
- **Checkpoint 3** - Review of previous learning at the beginning of each lesson.
- **Checkpoint 4** - End of unit quiz of key knowledge.
- **Checkpoint 5** - Continuing review of previous learning weeks later to check *'sticky knowledge'*.
Pupil voice and book study (subject leader monitoring).
