

# 8. Reflection

Post Year 11 Mocks

# Questions to ask yourself

What were your results like?

How did you find the exam period?

Are you happy with your results?

How did you prepare for the exams?

What do you want the outcome of the summer exams to be?

What needs to happen for this to occur?

# Subject Audit

It is important to reflect as it gives you the opportunity to identify strengths and weaknesses and allows you to focus on areas of improvement. You should carry out this activity for each lesson, looking at specific areas of weakness that require more work.
