

HIP-HOP STARTER ACTIVITY

What can you see? What can you hear? - First, spend a few moments looking at the images below and think about what is being shown (*equipment, style of dance and “art” and locations*) and write down your ideas in the “Ideas Box. While you’re looking and analysing the images, you’ll hear a piece of Hip-Hop music called “Let me clear my throat” by Kool Herc. Think about the style of singing, how the words are conveyed and which of the musical elements are most important in this style of music, how the “live audience” is involved and how the accompaniment is made up. Write down your ideas in the “Ideas Box”.
