Health and Social Care

Command Verbs

Outline

Give the main, key aspects or facts about something.

Identify

**Give brief information or facts, for example naming, stating or listing who or what something is.
Often one word answers.**

Explain

Provide more depth and detail than a description. You will include relevant reasons for, purpose of, or effects of something.

Describe

Give an account that includes all of the relevant facts, features, qualities or aspects of something.

Discuss

Give an account that considers a range of ideas and viewpoints.

Evaluate

Make a judgement about something by taking into account different factors and including strengths and weaknesses/positives and negatives.
