

## Humanities + MFL Faculty

September 2025

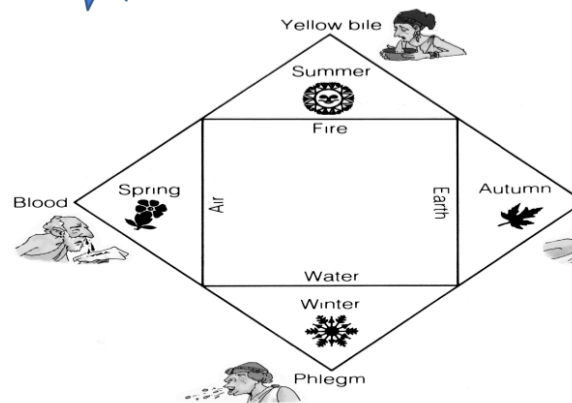

Year Group:	10
Subject:	History
Lesson 1:	<p>Go through the google slides above and complete as many tasks as you can.</p> <p>Write your answers on a piece of paper - don't need to write on the google slides</p> <h3>Lesson 1 - who is who?</h3> <div data-bbox="553 1423 967 1682"></div> <div data-bbox="997 1373 1343 1667"><p>Sickness is not sent by the gods or taken away by them. It has a physical basis. If we can find the cause we can cure the disease.</p></div> <div data-bbox="633 1682 1235 1835"><p><b>The Hippocratic Oath</b> I will use treatment to help the sick according to my ability but never with a view to injury or wrongdoing. Whatever I see or hear professionally or in my private life, which ought not to be divulged, I will keep secret.</p></div>

1. Why do you think the man on slide 2 says "Sickness is not sent by the gods or taken away by them. It has a physical basis. If we can find the cause we can cure the disease"

2. What is the Hippocratic Oath - please google and write the answer below.

## Theory of Four Humours

Pick one of the following questions and answer on the next slide  
Red- what do you think is happening in this image?  
Amber - can you link it to any knowledge from year 9?  
Green what does this tell you about the Greeks ideas on Medicine

Answer here for slide 5

## Who were the Greeks

On the next slide there are lots of different pieces of information  
Colour code (you pick the colours and then highlight the following  
words) them into the following categories

Social  
Political  
Religious  
Economic (money)  
Military

Once you have done this tell us - which factor has helped the Greeks  
the most and why (write this answer on slide 9)

Which factor has helped the Greeks the most?

Galen:  
Who  
What  
Why

Explain the significance of Hippocrates and Galen Health on the development on medicine

Write two PEEL paragraphs about what you have learned. One about Hippocrates and one about Galen

Go through the google slides above and complete as many tasks as you can.

Write your answers on a piece of paper - don't need to write on the google slides

### Research task:

Using the grid try and find evidence to explain each area

Using the below link will help you

<https://www.bbc.co.uk/bitesize/topics/zppr4xs>

See the next slide to clarify where to look and you will see I have completed one of the boxes for you.

#### Medicine in Britain, c.1250 to the present day

##### Medicine in Britain overview - Edexcel

The thematic study of Medicine in Britain, c.1250-present spans almost 1,000 years. Understanding the period's chronology and knowing some key themes is essential to understanding patterns of change and continuity. These patterns and factors that contributed to medical progress over time can each be observed and analysed.

##### Medicine in medieval England, c.1250-c.1500 - Edexcel

Medicine in medieval England was based on religious, supernatural and rational ideas. The Church held great power over the practice of medicine. This was clear in the case of the Black Death, which reached Britain in 1348.

##### The medical Renaissance in England, c.1500-c.1700 - Edexcel

Medicine in Renaissance England changed little in terms of everyday practice. However, the development of science, new learning and new technology led to new ideas about the human body.

##### Medicine in 18th- and 19th-century Britain, c.1700-c.1900 - Edexcel

Medicine in 18th- and 19th-century Britain saw great change, especially following the publication of Louis Pasteur's germ theory. This led to significant changes in surgery and better prevention of disease in the late 19th century.

##### Medicine in modern Britain, c.1900-present - Edexcel

Medicine in modern Britain has seen great advances in the 20th and 21st centuries as technology developed and the government became more involved in the health of the British people.

##### Medicine on the British sector of the Western Front, 1914-1918

World War One presented new medical challenges for the British army. Fighting in the trenches and developments in weapons led to new illnesses and wounds that needed to be treated.

This is a screenshot of the hyperlink each of these link will help you answer the different boxes

Period	Date	Cause of disease	Treatment	Training	Public health
Greeks		They believed that gods caused illness but also believed that an imbalance of the four humours	Going to the Asclepion Herbal remedies	Doctors were trained by other docs but there was also holy people who were involved in treatments	People went to the asclepion, there were some public baths and the government invested in a public health system
Romans					
Dark and Middle Ages					
Renaissance					
Industrial					
Early Modern					
Modern					

Natural

Supernatural

*Explain the significance of Public Health on the development on medicine*

Write a short answer on how important having good public health is to making people healthy.
