Lesson 1

Please complete the task below:

Console Comparison

Research the top consoles on the market: PS5 Pro, XBox Series X and Nintendo Switch2

Research the components within each console

Image

Description of what the component does

Specification (how powerful is it?)

Price if you had to buy this separately

Link to where it can be bought

For each console find the following information on Specs

1. Most suitable Monitor
2. Controller
3. Motherboard
4. CPU speed
5. Cooling System
6. RAM size, cores, threads
7. SSD Storage
8. Graphics Card, memory size and clock, GPU clock
9. Operating System
10. Sound output
11. Graphics output: Frame Rate, Ray Tracing? DLSS?

How much would it cost to make this console by buying the components separately?

Lesson 2

Please complete the task below:

IT Careers

Use Morrisby to Research 10 different IT Based Careers

For each career:

Describe the role - what do you do?

Describe the personal characteristics that are need for this role?

What qualifications do you need?

Where can you do those courses?

What is the average salary?

Now find a vacancy for this job:

Name of organisation

Salary?

Link to job advert.

Thank You and see you soon :-)
