

The International Primary Curriculum (IPC as our children know it) incorporates English, History, Geography, Science, Technology, ICT and Art. Some years ago we took a decision as a school to introduce IPC into Years 5 and 6 to support the discrete lessons of English, Maths and Science, in order to create a cross curricular approach to learning.

In Year 5 children will study:

- Fit for life (Health Education, Art, PE, Technology, Science, ICT).
- The Investigators (Looking at Evidence: Geography, History, ICT).
- Our place in space (History, Science, ICT).
- Ancient Greece (Art, History, ICT, Technology).
- Making things happen (Control Technology, ICT).
- The holiday show (Location: Art, Geography, ICT).

In Year 6 children will study:

- Go with the flow (Investigating Rivers: Geography, History, Technology, ICT).
- Egypt (Art, History, Geography, ICT, Technology).
- Global swap shop (Geography, History, ICT).
