

New York

Are you looking for the vacation of a lifetime? Then it's your lucky day!

New York

New York is a wonderful place full of sights, sounds and so much more. New York is located in the United States of America and it is found near New Jersey and Pennsylvania. Did you know? That New York's European discovery was made by the Italian Giovanni da Verrazzano in 1524! As well as the land being claimed in 1609 by the Dutch!

Sights at the big apple

There are so many sights to see in New York including the famous Lady Liberty that was given to America by the French to symbolize their friendship and independence. Another top sight to see in central park which is located between the upper west side of Manhattan and the upper east side of Manhattan. Now I cannot forget to mention Times Square and the Brooklyn Bridge as they are some of the must sees. Finally the empire state building, I would suggest taking the elevator to the 86th floor and see all of New York at all its glory.

Hotels

The image above is of the Peninsula hotel that has a rating of 5 stars costing £614 per person and if you book now you will get half price off as well as a free spa day!

Restaurants

The picture above shows a romantic restaurant called one dine at one world observatory with a rating of 4.3 stars. If you book now you will get a free dining experience!

Best way to travel

If you are going to travel from place to place you are going to need to know the best way to get around. If you can't walk to your destination you should take the subway because in the subway there is no traffic and the only time you stop is when you are at a station. Or if you just missed the subway you could grab a bus to your destination.
