

Seaton Sluice Middle School

Seaton Sluice Middle School Careers Vision

At Seaton Sluice Middle School, our vision is to inspire every student in Years 5 to 8 to explore their future with curiosity, confidence and purpose. We aim to nurture ambition and self belief by helping students understand the wide range of exciting career opportunities available to them.

Through a progressive and engaging careers programme, we ensure that students:

- Develop key skills and knowledge to make informed choices about their future Pathways.
- Recognise how learning links to life beyond the classroom, connecting subjects to real world careers.
- Build essential employability skills such as teamwork, communication, creativity and problem solving.
- Discover their individual strengths, interests and values, supporting personal growth and lifelong learning.

Key events such as career fairs, employer visits, skills workshops and inspirational speaker Sessions provide pupils with direct experiences of the work of work. Partnerships with local Businesses, colleges and universities help students see how what they learn today shapes the opportunities of tomorrow.

Our goal is to create a culture of aspiration and opportunity, where every Seaton Sluice Middle School student feels empowered to dream big, make informed decisions, and take confident steps toward their future success.
