

The Return to School - Resources for Parents and Carers

In September most children returned to school for the Autumn Term before further school 'closures, in the Spring Term. Many children still attended school through both 'lockdowns'.

Things may look slightly different in school but many things will be the same. The structure and routine of school is beneficial in creating a sense of safety and security for children and young people.

Most children and young people will enjoy seeing their friends again too. As a parent you may be worried about your child being back in school. It is important to recognise that schools will be following all guidance to make their settings safe.

It is possible that how adults feel about something can affect how their children feel so it is important to think about what is causing you concern. Some children may have found it more difficult going back to school.

These resources are designed to help you, help you support your child or suggest to your child. If your child has found it difficult going back to school please make sure you talk to school staff.
