Y8 – Internet and Webpage Creation

Name:

7) Name the Internet Service based on the description:

Name of Service	Description
	Allows you to play games, watch movies and listen to music with people across the globe. (Begins with the letter E)
	Allows you to take files from the Internet and put them on your computer. This could include work such as Spreadsheets or PowerPoint's or it could mean audio and video files.
	Allows me to talk to people across the planet. This is done with Text Messages, Emails, Chatrooms, Social Networking sites and Video chat such as Skype.

Name:

Task 2 - Answer the following questions:

1) Roughly how many websites are on the ‘Surface Web’?

Answer here...

2) Match the term with the description:

Dark Web
Surface Web
Deep Web

The part of the WWW you see when you use a search engine like Google. This part of the web is what 90% of the population will use.
This part of the Web is where you can find secured areas that are not accessible to the general public. This could include a company’s internal website or a private social network site like Yammer or LinkedIn.
This area of the WWW is intentionally hidden from almost everyone. To access it you need to be invited and have a special program on your computer. It is VERY dangerous and used by criminals.

3) Use the internet to find out answers to the following questions:

a) What is a Search Engine?

Answer here...

b) What is the most popular Search Engine?

Answer here...

c) When was it released to the public?

Answer here...
