

Animals including humans

Create a cartoon strip showing the seven stages of the human timeline to show how humans grow and develop.

KEY WORDS
EMBRYO FETUS BABY TODDLER
CHILD ADOLESCENT TEENAGER
PUBERTY ADULT OLD AGE GROW
DEVELOP CHANGE ABILITY DEPENDENT
INDEPENDENT SKILLS HORMONES
REPRODUCE

Check list

Make sure you have...

1. A cartoon timeline with the stages of the human life cycle
2. The approximate age of humans at that stage.
3. Physical features and abilities at each stage
4. How independent are you at each stage
5. Explained a little about the changes in at least one stage - for example puberty
6. Explained how to stay fit and healthy in at least one stage - for example old age

All Done - Well Done!
