1. Rationale

High quality careers education and guidance in school or college is critical to young people's futures. It helps to prepare them for the workplace by providing a clear understanding of the world of work including the routes to jobs and careers that they might find engaging and rewarding. It supports them to acquire the self-development and career management skills they need to achieve positive employment destinations. This helps students to choose their pathways, improve their life opportunities and contribute to a productive and successful economy.

2. Commitment

The Selwood Academy is committed to ensuring there is an opportunity for a range of education and training providers to access students, for the purpose of informing them about approved technical education qualifications and apprenticeships. The Selwood Academy is fully aware of the responsibility to set students on the path that will secure the best outcome which will enable them to progress in education and work and give employers the highly skilled people they need. That means acting impartially, in line with the statutory duty, and not showing bias towards any route, be that academic or technical.

The Selwood Academy endeavours to ensure that all students are aware of all routes to higher skills and are able to access information on technical options and apprenticeships (The Department of Education, July 2021: "Baker Clause": supporting students to understand the full range of education and training options, and the Provider Access Legislation, January 2023).

3. Aims

The Selwood Academy policy for access to other education and training providers has the following aims:

- To develop the knowledge and awareness of all career pathways available to pupils, including technical qualifications and apprenticeships.
- To support young people to learn more about opportunities for education and training outside of school before making crucial choices about their future options.
- To reduce drop out from courses and avoid the risk of students becoming NEET (Young people not in education, employment or training).

4. Student Entitlement

All students in year 5-8 at Selwood Academy are entitled to:

- Find out about technical education qualifications and apprenticeship opportunities as part of our careers programme, which provides information on the full range of education and training options available at each transition point
- Hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships
- Understand how to make applications for the full range of academic and technical courses

The Selwood Academy fully supports the statutory requirement for students to have direct access to other providers of further education training, technical training and apprenticeships. The school will comply with the new legal requirement to put on at least two encounters for year 8 with providers of approved technical education qualifications or apprenticeships. At Selwood we provide these experiences for all students in Yr 5-8. This will be done in assemblies in National Careers Week, providers attending careers events at school and the whole school Careers Day.

5. Development

This policy has been developed and is reviewed annually by the Curriculum Careers Leader and the Strategic oversight Leader for Careers (Jennifer Howell and Andy Ellett) based on current good practice guidelines by the Department for Education. At every review, the policy will be approved by the Trust board.
