**Coronavirus testing unit**

Dear Resident(s)

A mobile testing unit will be set up in the car park next to the Cricket Club in the next few days and will be open for testing from Wednesday 23rd next week.

We're working with Somerset County Council to set up a temporary one-way traffic system for people coming to get tested.

**One-way system**

Vehicles will come into the Showfield via the access lane off Berkley Road, opposite Frome Football Club. They will then follow a marked route across the Showfield down to the testing unit. They will leave via the main gate near the cricket club (joining Rodden Road).

This route is shown in green on the enclosed plan and will be marked to keep people safe.

This means some parts of the Showfield will be temporarily closed off. We're sorry if this causes any disappointment or inconvenience but working with the NHS and the County Council to set up a local testing station is, we hope you'll agree, really important.

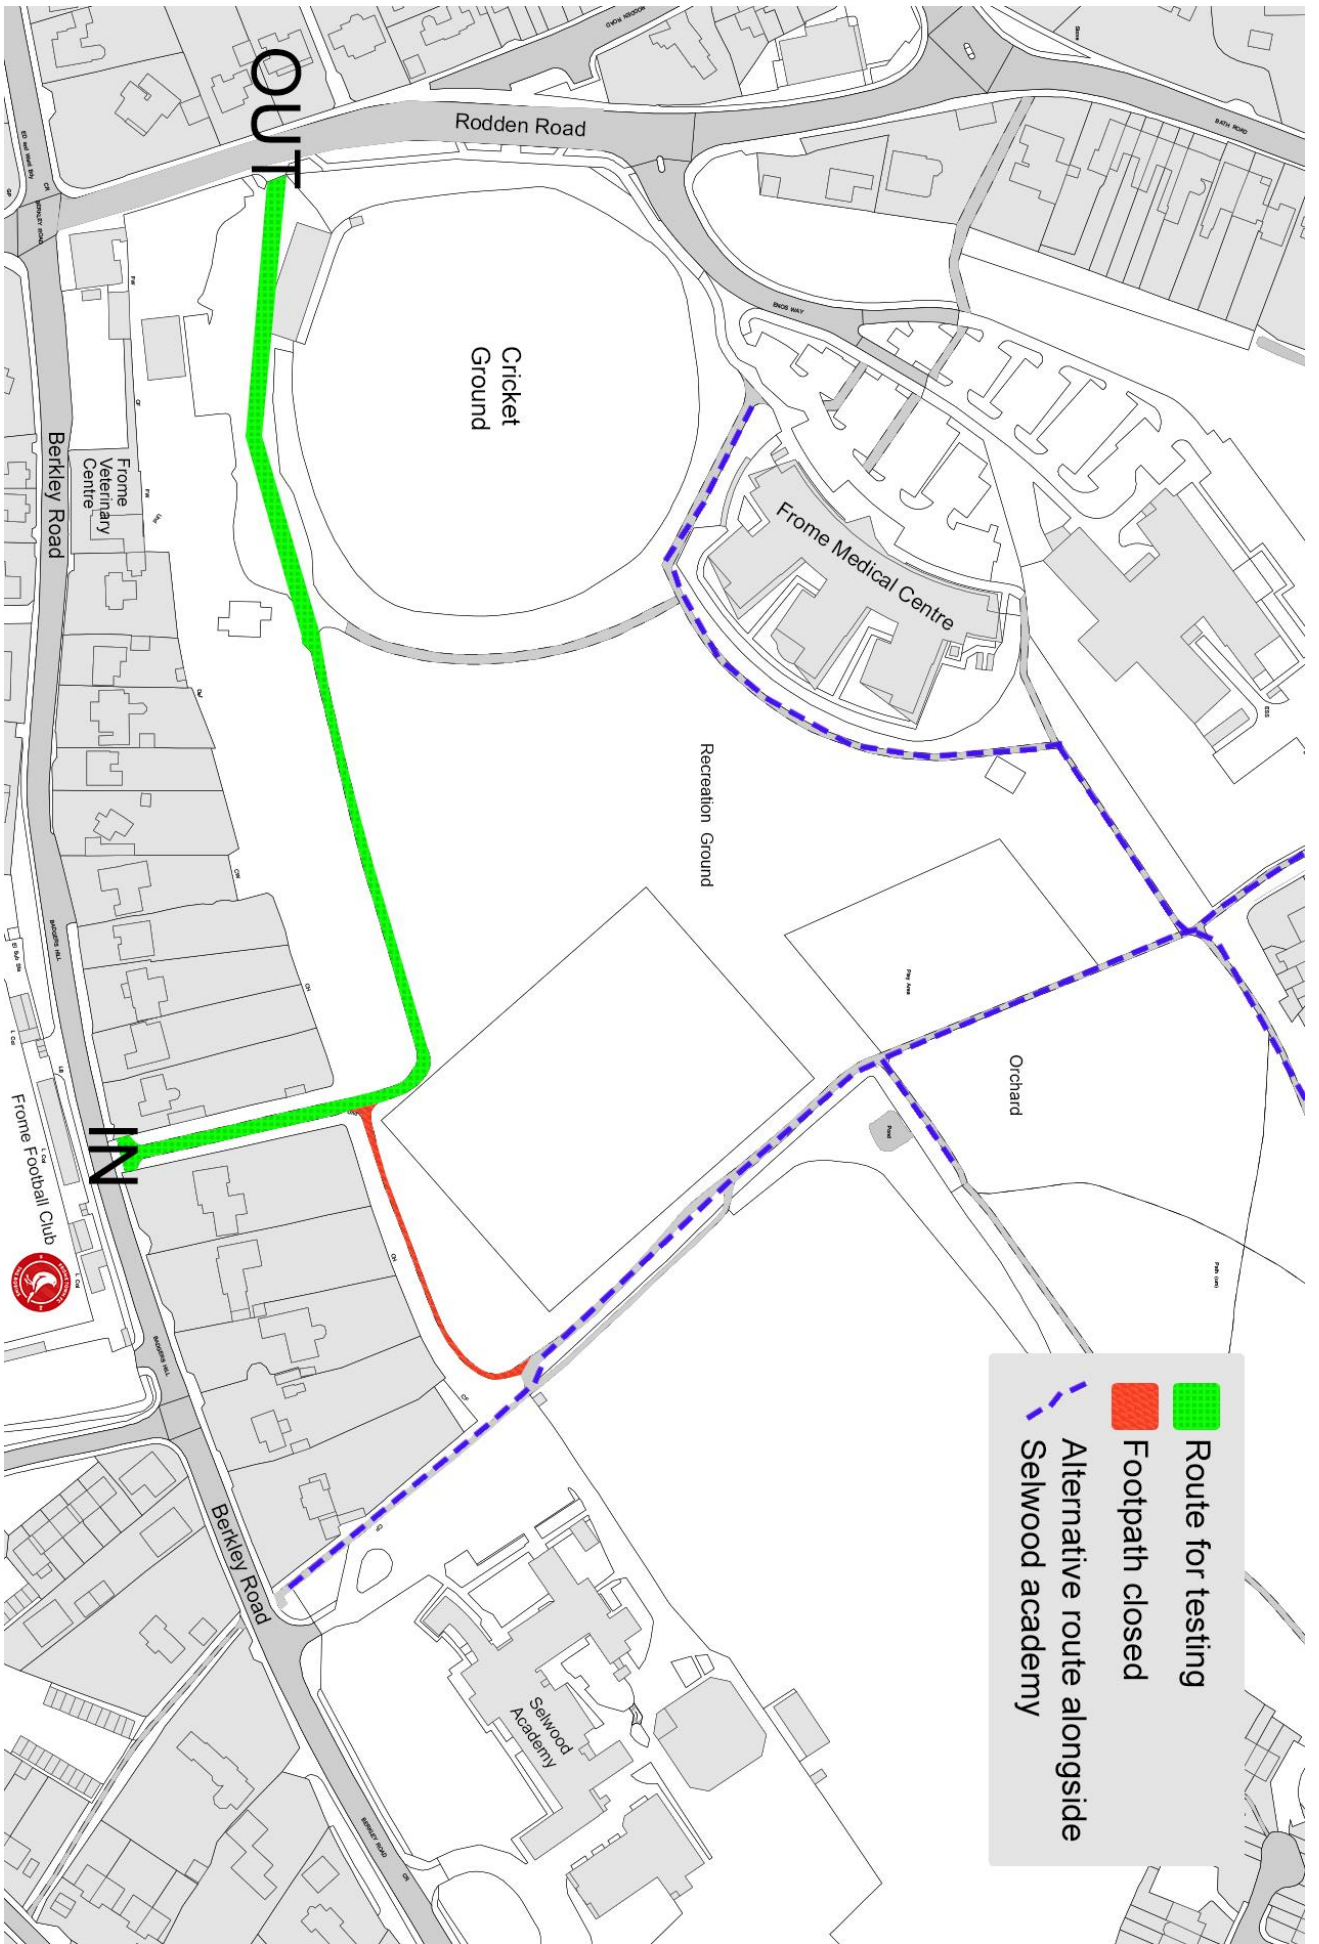

The testing unit will be set up for 6 weeks and open on a Monday, Wednesday, Thursday and Sunday, 10am – 4pm; although this could change based on demand and circumstances.

If you have any queries about this please email [info@frometowncouncil.gov.uk](mailto:info@frometowncouncil.gov.uk) or call us on the number below.

Yours faithfully,

**Paul Wynne**

Town Clerk

OUT

IN

-  Route for testing
-  Footpath closed
-  Alternative route alongside Selwood academy
