

INDIA SEVEN STARS TOPIC KNOWLEDGE ORGANISER

Overview

- India is a country in south Asia.
- It shares borders with Pakistan, China, Nepal, Bhutan, Bangladesh, Afghanistan and Myanmar.
- India has coastlines on the Indian Ocean (south) the Arabian Sea (south-west) and the Bay of Bengal (south-east).
- India also includes several islands in the Indian Ocean.
- With an area of 3,287,263km², India is the 7th largest country in the world.
- About 1.35 billion (1,350 million) people live in India. It is the 2nd most populated country in the world, after China.
- The Capital of India is New Delhi.
- The currency used is Rupee.
- It would take 9 hours 42 minutes to fly from London to India.

Human Geography

The area that is now India was ruled for several hundred years by powerful local empires. In its more-modern history it was a part of the British Empire. Throughout the 20th Century, India became an independent nation.

Population		- Much of the population inhabits the northeast and southern areas of the country. The population density of India is 464 people per square kilometre: it is very densely populated for a large country.
Settlements		-New Delhi is a part of the wider city of Delhi, containing 11 million people. However, it is not quite the most populous city in India, as Mumbai has around 12.4 million people. The next most populous city is Bangalore, with 8.4 million people.
Economic Activity		-The Indian Rupee is the national currency of India. India is a land of great disparity, with some of the richest people in the world, but also millions of people living in poverty. India has the world's 5 th largest economy.
Resources/ Trade		-India's biggest exports (in order) include petroleum, followed by gems and jewelry, pharmaceutical products, transport equipment, machinery and instruments, ready made garments, metals, electronics, rubber/glass and products, cotton, yarn and fabrics.
