## **Key Instant Recall Facts**

# I know the multiplication and division facts for the 2 times table

By the end of this term, children should know the following facts. The aim is for ALL children to be able to recall these facts instantly.

$2 \times 1 = 2$	$2 \div 2 = 1$
$2 \times 2 = 4$	$4 \div 2 = 2$
$2 \times 3 = 6$	$6 \div 2 = 3$
$2 \times 4 = 8$	$8 \div 2 = 4$
$2 \times 5 = 10$	$10 \div 2 = 5$
$2 \times 6 = 12$	$12 \div 2 = 6$
$2 \times 7 = 14$	$14 \div 2 = 7$
$2 \times 8 = 16$	$16 \div 2 = 8$
$2 \times 9 = 18$	$18 \div 2 = 9$
$2 \times 10 = 20$	$20 \div 2 = 10$
$2 \times 11 = 22$	$22 \div 2 = 11$
$2 \times 12 = 24$	$24 \div 2 = 12$

### **Key Vocabulary:**

What is 2 **multiplied by** 7?

What is 2 times 9?

What is 12 **divided by** 2?

They should be able to answer these questions in any order, including missing number questions e.g.  $2 \times 0 = 8$  or  $0 \div 2 = 6$ .

### Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

<u>Songs and Chants –</u> You can use Times Tables CDs or find multiplication songs and chants online. If your child creates their own song, this can make the times tables even more memorable.

<u>Use what you already know</u> – If your child knows that  $2 \times 5 = 10$ , they can use this fact to work out that  $2 \times 6 = 12$ .

<u>Test a partner</u> – Your child can make up their own tricky division questions for each other e.g. *What is 18 divided by 2?* They need to be able to multiply to create these questions.

<u>Use memory tricks</u> – For those hard-to-remember facts, www.multiplication.com has some strange picture stories to help children remember.

<u>Use memory tricks – For those hard-to-remember facts, www.multiplication.com has some strange picture stories to help children remember.</u>
