

Times tables progression across the school

In the table below are the National Curriculum times tables end of year expectations for each year group. Children regularly work on their times tables in school but it is important for them to practice at home too.

Year Group	National Curriculum Objectives
Reception	Children should be able to count confidently, develop a deep understanding of the numbers to 10, the relationships between them and the patterns within those numbers
Year 1	Count in multiples of 2, 5 and 10. Recall and use doubles of all numbers to 10 and corresponding halves.
Year 2	Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers.
Year 3	Recall and use the multiplication and division facts for the 3, 4 and 8 multiplication tables.
Year 4	Recall and use multiplication and division facts for multiplication tables up to 12 x 12. Children will complete the Multiplication Tables Check in Year 4 (MTC)
Year 5	Revision of all multiplication and division facts up to 12 x 12. Relating this knowledge when multiplying and/or dividing by multiples of 10.
Year 6	Revision of all multiplication and division facts up to 12 x 12. Relating this knowledge when multiplying and/or dividing with decimals.

To support your child with learning their times tables, here are some useful websites and apps which you could use at home.
