

Aged 3 - 5

WEEKLY INSTRUCTIONS

WEEK 9

ALL THESE ACTIVITIES ARE ALSO AVAILABLE IN MINI MASH.

Go to edit pins within Mini Mash and select weekly activities.

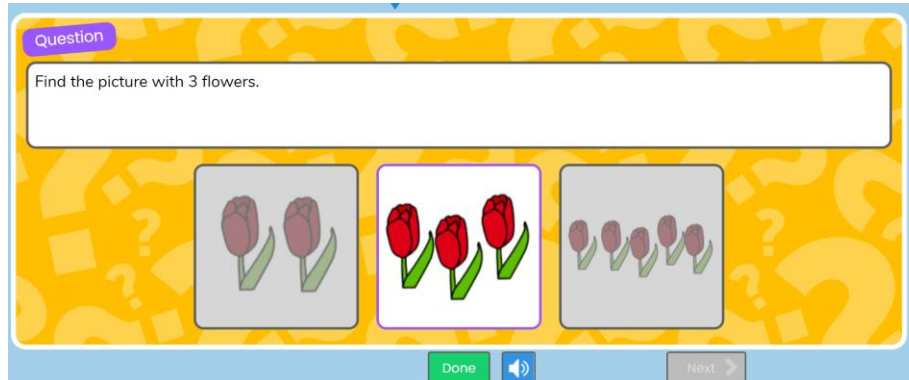

Monday

Welcome to the start of a new week! This week we are going to be doing some activities about Spring. Spring is the name of a Season. Do you know the names of the other Seasons? In England, we are now in Spring. What do you already know about Spring? First, you can read the short story. What can you see in the pictures?

I see flowers growing.

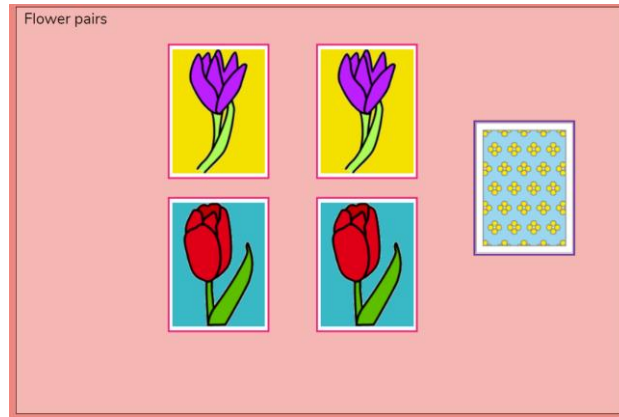

You can then have a go at the counting objects game. Listen to the question then find the picture with the correct number of objects.

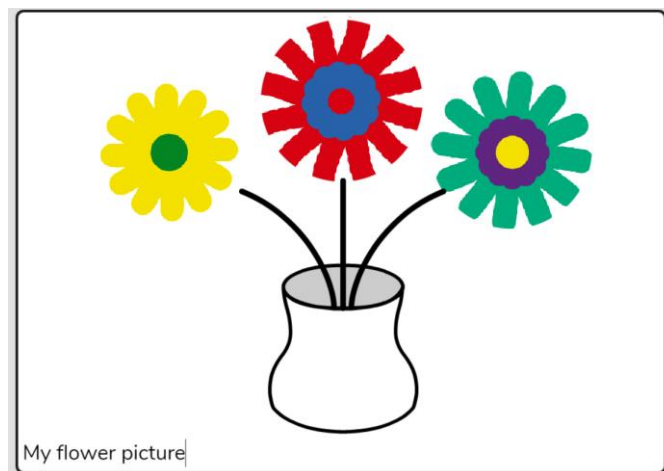

If you can go for a walk, look around you for any signs of Spring. Can you see any flowers growing?

Tuesday

Today we are thinking about Spring flowers. Lots of flowers start to grow in Spring. First today, have a go at the flower pairs game. Click on the flowers and try to find the matching pairs.

After that, you can have a go at creating your own flower picture. Use the different coloured pens to make different flower patterns.

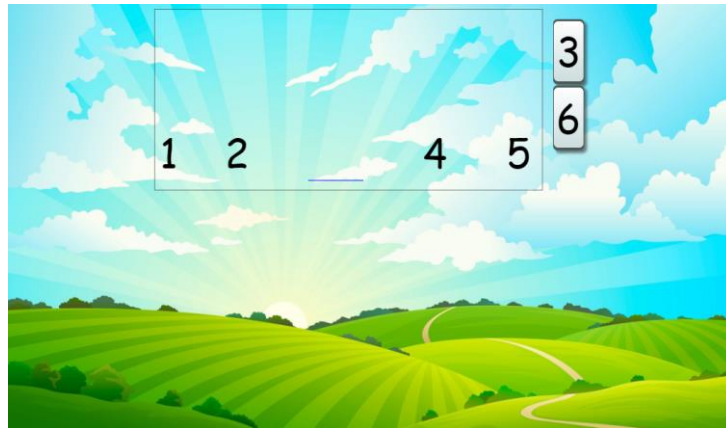

Remember to eat a healthy snack today and try to do some exercise!

Wednesday

Well done for all your hard work so far, keep it up!

Today we are going to start by doing a maths activity. In this activity, you need to find the missing number from the sequence. Drag the correct number to fill the gap.

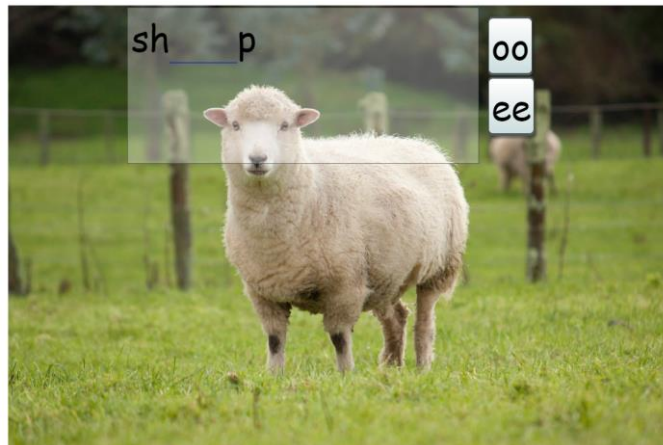

After that, you can make your own Spring picture. Use the different textured pens to draw flowers and trees.

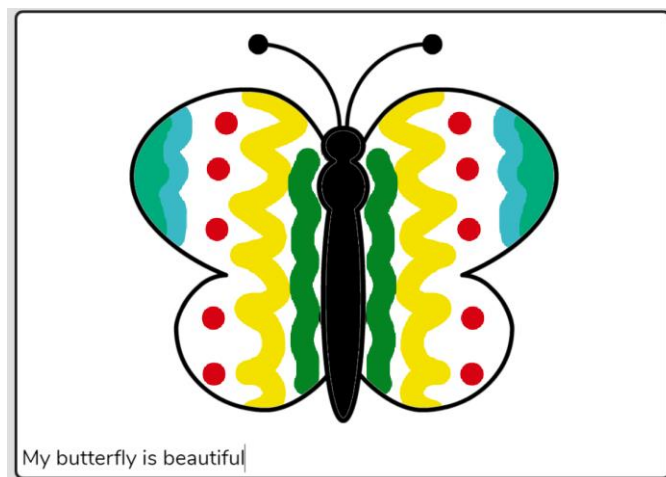

Hopefully, the sun is shining, and you will be able to enjoy the season of Spring today.

Thursday

Today we are going to start by practising some phonics sounds. If you can, sound out the words and work out which sound is missing. Drag the correct sound to make the word which matches the picture.

For the second activity today, you can make your own beautiful butterfly picture. This picture is symmetrical. That means that whatever pattern you do on one side will be the same on the other side. How many different colours can you use on your butterfly?

Well done!

Friday

Today we are going to be thinking about all the baby animals which are born in the Springtime. Have a go at the mother and baby pairs game. Can you match up all the animal mothers with their young? You can have a go at naming them too.

When you have finished, have a go at the chick jigsaw. Lots of chicks are born in the Spring. Have you ever seen a baby chick?

Well done for all your fantastic work this week! Have a lovely weekend.
