

## What I already know...

Uses simple tools and techniques competently and appropriately. (EYFS, MM)

Experiments to make different textures (EYFS, MM)

Understands materials can be combined to create new effects (EYFS, MM)

Uses simple tools and techniques to join and complete work. (EYFS, MM)

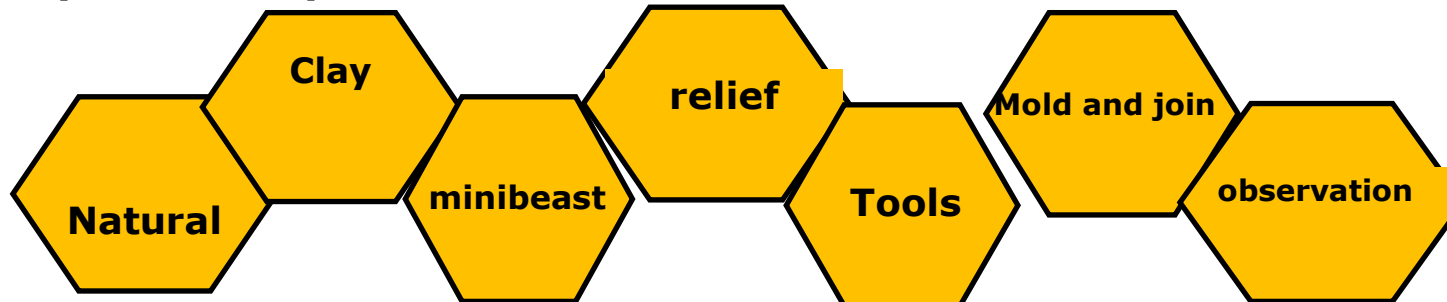

Used clay and push and pull technique to make dinosaur and animals in Year R.

# Clay Minibeasts

Building on previous knowledge of clay modelling chn will now move on to join and create different textures in clay work via use of tools and previously learnt pull and push technique. Chn will focus on creating natural realistic work from observation of real-life observations of minibeasts.

## Key Vocabulary

## I will learn...

- ⇒ To draw considering accuracy via observation technique to create realistic art work.
- ⇒ To use tools to shape and create texture on clay.
- ⇒ To make correct colour choices to create a realistic clay model.
- ⇒ To evaluate their work against original minibeast for closeness to real life observation.

## Learning values

Independence
