Dear Juliette

### Ofsted Inspection Report

I am writing to congratulate you, your staff and governors on the outcome of your recent Ofsted inspection.

I am very pleased that inspectors have judged that Sinai Jewish Primary School continues to be a good school, and have recognised the strengths of your leadership in creating a harmonious, inclusive and outward looking ethos. They have also acknowledged the many improvements to the school that you, your senior leaders and governors have made over the last two years.

The report confirms your success in developing leaders from within the school, including middle leaders who are involved in monitoring the quality of provision in their areas and confidently report on the impact of their work. Leaders, governors and staff share your high ambitions for the school's pupils who 'thrive'.

Inspectors have recognised that reading is a strength of the school, and that progress in writing and mathematics continues to improve. The rich, exciting and inclusive learning environment in the early years ensures that all children make a good start at the school and are safe and happy.

I was pleased to read that parents appreciate the energy and drive you have brought to the school and that pupils feel valued, secure and show respect for each other and for those from different cultures and religions.

Brent Council is very grateful to you and your colleagues for your hard work and ambition to ensure the best possible provision and outcomes for pupils at Sinai Jewish Primary School.

Yours sincerely,

**Brian Grady**

Operational Director, Safeguarding, Partnerships and Strategy
