

Digital support for Rotherham residents

We want anyone who lives or works in Rotherham to have the opportunity to enjoy the benefits of being online. Our work is focussed on digital inclusion.

We are here to help you get online and feel more confident about using technology so you can do the things you want to do.

Digital support is available to help you get the most out of all things digital.

This includes:

- Free sim cards for Rotherham residents on low incomes
- Digital Champions who can visit community groups and provide the information and advice that you need
- Online and in-person training to help improve your digital skills

Come and talk to us today or visit the Rotherham Digital website to find out more: **www.rotherhamdigital.co.uk**

You can also contact the team at **rotherhamdigital@rotherham.gov.uk**
