Dear Parents/Carers,

On Tuesday 9th February it is Safer Internet Day and in light of everything going on we feel it is even more important now to celebrate this day. Therefore, each class will be setting age appropriate activities around this at some point that day.

As a school we use the motto Stop, Think and Click when talking about internet safety. What this means is as follows:

Stop – Don't touch or click anything yet

Think – Does a trusted adult know what I am doing on my device?

Click – Only when I am told by a trusted adult.

We have found this message is very simple and easy for the children to remember when using electronic devices which have internet access. We ask you to remind your child/children of this because obviously this year we haven't been able to embed this message as much as we normally do in school.

You will also be sent a document full of sources for you to use if you require any further information or advice with this. Please do take a look and if you have any other questions do not hesitate to get in touch with myself or the school and we will do our best to answer all your questions.

Kind Regards

Miss Edgley
EYFS Lead and Computing Co-Ordinator
