# Summer Holiday Camps 2026: HERE in Bicester

## Polymer Science

Join us to investigate the science of polymers! We'll investigate a compound that can absorb up to 25 times its own weight, a mixture that has the properties of both a solid and a liquid and instant chemical reactions that form long chains of polymers.

## Under Pressure

Every breath we take changes the atmosphere around us, but air pressure always wants to stay the same. Join us on an awesome air adventure to explore how much pressure influences our everyday lives and do some exciting experiments along the way!

## Elemental Engineering

Calling all budding inventors and engineers! Can you help us solve some engineering challenges? Join us to explore natural structures, compete in time trials and put your new skills to the test in our construction challenge!

## Kitchen Concoctions

Our kitchens are full of science! Let's explore the science behind cooking and discover some experimental kitchen secrets. Mix up some fantastically fizzy concoctions, make your own sherbet and more!

## Bodyology

Join us to explore human anatomy and learn how our tissues and organs work together to keep us alive. We'll investigate senses, understand our brains better and even journey through our digestive system. Yuck!

Gagle Brook Primary School, Cranberry Avenue, Bicester, OX27 8BD

Mon 24th to Fri 28th August

Daily - 9am to 3.30pm. £35 per child per day.

To book, please go to the 'Holiday Camps' tab on our website, and click the 'register here' button on the holiday camps page. All bookings are processed through Active Network. Spaces are subject to availability.

Call a member of our team or visit our website for more details. Sibling discount available.
