

Our Core Purpose

#EveryoneALearner

At Southwold Primary and Nursery School, our whole school community accepts wholeheartedly these statements:

- The definitive, undeniable, and obvious **goal** of any leader, teacher or teaching assistant is to improve outcomes for every pupil.
- Pupils, in any class, learn because of **what they do**—the activities they positively engage in, the demonstrations they watch and listen to, the tasks they complete, the problems they solve all to the best of their ability.
- In any class setting, pupil learning experiences and processes are **equally** the result of the teacher's/teaching assistant's actions and the children's behaviour and attitudes: in the form of lessons, instructional approaches, interactions, activities, assessments and planning.
- Therefore, pupil **success** is largely a result of positive, collaboration of the whole school community.
