

It is Waste Week! This year the focus is on **Reuse**.

To take part in 'Waste Week', you need to find an unwanted toy or game and make a pledge to reuse it using the **Toy-tastic Pledge card**.

Upload a photo of yourself holding your pledge card with the toy/game you wrote about by **Wednesday 19th April 2023** by clicking on this link: [Waste Week Toy Tastic Pledges 2023](#) and you will receive 30 House Points.

If you manage to send in before Friday 31st March your photo can be entered into **The Pod Competition Prizes**: six **NASA Water Rokit Kits** to giveaway as prizes for each of the three winning schools taking part in our **Toy-tastic Pledge competition**. These kits contain everything you need to run your own space experiments in class, whether you're just having fun or learning about Newton's Laws of Motion, acceleration, or trajectory. The Water Rokit has been designed to launch itself automatically at a set pressure, so you can reuse it again... and again... and again!

TOY-TASTIC PLEDGE

This toy is fantastic and deserves a new home because...

So I am going to...

DON'T LET TOYS GO TO WASTE!
