

14th March 2025

Dear Parents and Carers,

Living Eggs

On Monday we had a delivery of 10 eggs to school in an incubator. 9 have hatched. Classes have been up to the science room to visit them. They will be at school until next Friday and everyone will have the chance to visit again next week to see how much they grow.

OT Food Session

Lina, our Occupational Therapist will be running another parent session next week on Thursday 20th March at 9.45 – 10.15 with a focus on feeding and food play. All are welcome.

Red Nose Day

Next Friday is Red Nose Day. If your child would like to come to school wearing something red or gold then they are very welcome to.

Year 11 Residential

Many of our year 11 students will be going on a residential next week. They will be away from Wednesday to Friday next week. They will have the opportunity to try lots of new activities. I'm sure I'll be able to share more news and photos about that next week.

Have a lovely weekend.

Best wishes,

Erin McCarthy
Head of School
