

Marshmallow Playdough

Ingredients

- 6 large marshmallows
- 2 teaspoons coconut oil
- 8-12 drops liquid food coloring (multiple colors)
- 4-5 tablespoons cornstarch

Method

1. In a microwave-safe bowl, add the marshmallows and coconut oil.
2. Microwave on high for 20-30 seconds, or until marshmallows puff up slightly.
3. Add a few drops of food coloring to the marshmallows, and mix well until combined.
4. Add 4 tablespoons of cornstarch and stir to combine.
5. When the dough becomes too difficult to stir with a spoon or spatula, knead it by hand. (Allow it to cool first until it can be handled comfortably)
6. Knead the dough on a surface floured with cornstarch until all of the ingredients are completely combined and the color is the same.
