Care, Collaboration, Challenge

19th November 2020

Dear Parent,

We have been advised that a further two members of our school community have tested positive for COVID-19.

We know that you may find this concerning but we are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

We have carried out a full risk assessment for both positive cases. In the first case, symptoms began whilst self-isolating, therefore no one within the academy has had contact with this person. In the second case, there have been no close contacts identified, therefore the academy remains open as usual.

The most common symptoms of COVID-19 are recent onset of a new continuous cough and/or a high temperature and/or a loss of, or change in, normal sense of taste or smell (anosmia). If your child, or anyone in your household, develops these symptoms, your whole household must remain at home and not go to work, school or public areas. You should arrange testing for the person who has developed symptoms. When the result is known further advice will be available.

Testing can be arranged by calling 119 or via the NHS website: www.nhs.uk/coronavirus

There are things we can all do to help reduce the risk of you and anyone you live with getting ill with COVID-19:

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards
- maintain an appropriate social distance with non-household members of over 2 metres

Further information is available at www.nhs.uk/coronavirus

Yours sincerely

A. Willett
