MEASLES MUMPS RUBELLA

MEASLES IS CIRCULATING

With one in five children needing a hospital visit, measles is very infectious and can lead to serious complications; especially for those with weakened immune systems, babies under 1 year of age and pregnant women.

If you or your child has symptoms of measles please ***RING*** your GP or 111 first for further advice.

YOUR VIEW IS IMPORTANT!

Help us gather local intelligence by scanning the QR code and sharing you opinions on MMR.

Having the free MMR vaccine is the best way to prevent measles.

Two doses of the MMR vaccination can stop you or your child being seriously unwell with measles. For more information visit nhs.uk/mmr

MMR is for everyone. It is never too late.
