

Digital Ambassadors

"We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world." –
David Warlick

Who Are They?

Our school has a team of specially trained children who understand that the internet is an amazing place with tons of entertainment and information! Although, they understand that when we are using the internet, we need to know how to keep ourselves safe! Their job in school is to provide support and guidance on all things digital!

What They Do?

Our Digital Ambassadors are a new fixture of our school community and support young people in their computing lessons and help to run our Online Safety Events in school.

They deliver assemblies to Key Stages one and two and spend time with other classes talking to them all about staying safe online. We help people with internet and computing issues.

They give advice on age appropriate games and apps for children of a primary school age and ensure children are knowledgeable about how to stay safe online by doing assemblies and class workshops.

How They Make A Difference?

Digital Ambassadors are our higher level of support within the school and drawn from Year 5 and 6. They work closely with the schools Online Safety Lead, Senior Leadership Team and Governors to promote online safety in school and review school policies and produce display materials.

They also meet with school governors, school visitors and parents to share their knowledge and explain their roles within the school.

Striving for Excellence, Inspired by Gospel Values
