

TOPIC

In Geography, Maple will be learning all about the coast! We will seek to answer the question: 'what is it like to live by the coast?'

ART/DT

In art, Maple will be learning all about painting and mixed media. We will learn about primary and secondary colours and colour mixing techniques.

COMPUTING

In computing, the children will explore programming, specifically animations through theory and practical use of equipment.

ENGLISH

This term, Maple are exploring The Tale of Peter Rabbit by Beatrix Potter. Our non-narrative focuses on our trip to the woods where we will create a travel journey. Our half-term finishes with our poetry unit The Owl and the Pussycat where we will write and perform nonsense poetry!

MATHS

Maple will commence this half-term deepening their understanding of place value with numbers up to 100! We will move onto our money unit followed by our time unit. Reception will continue their learning with mastering number to increase fluency, flexibility and confidence with numbers and calculations.

RE

In RE, Maple will begin to explore other faiths! We will ultimately answer the question: 'what makes some places special?'

MAPLE

Summer Two

CURRICULUM OVERVIEW

SCIENCE

science, we will be consolidating our learning with our making connections unit. This unit draws on all learning undertaken throughout the year, allowing the children to form connections between them.

MUSIC

Maple will explore musical symbols through the theme: under the sea! We will combine all the musical concepts learned throughout the year for an underwater-themed performance with instrumental, vocal and body sounds.

PE

In PE, Maple will be learning all about striking and fielding and athletics. We will also practice for our sports day!

PSHE

Our PSHE topic for this term focuses on safety and the changing body. We will prepare ourselves for our next transition as we move to the next year group.
