## RE: How to access the Microsoft Teams link

A link to each meeting will be sent via Purple Mash email. Please copy and paste this link into a new **private /incognito browser**. When asked, please choose to continue in browser (not the app) and type in your name.

Please be aware that Chrome will not allow you to open a private browser if you are logged in. We have found Microsoft Edge to be the easiest search engine use. However, if you are using a different browser (Safari, Firefox, Explorer), please google instructions for how to open a private browser. Instructions are clear, but different for each search engine.

See images below for help.
