

Mansa-Collen, Boiana UBS

Dear Friends of St Andrew,

Thank you very much for the present, enclosed with letters. I really appreciate the present because it was very useful.

How are you all? I hope you are all fairing well? How is your weather condition? hope is not too cold? Today my topic of discussion is, lalhat I was doing in the course of second term.

Firstly, I'll like to talk about the inter school competition which happened between many schools, where by our school came out 2nd position. It was a very happy day for all students in my school, including my self.

Secondly, The school get very excellent teachers, they make us understand anything which doubts us. They also give us assignments to search at the internet, so that we can perfectly understand the topics. They engage us in many things such as; letter writing, poem, stories and experiments. They are really working hard because in the next two years we will seat to G.A.B.E.C.E. where by all students in the will do the exam. We are really preparing for the exam, because if we pass our school's name will reach to the apper. I really want you all to do the same and I want all of you to work harder in other to make your school the best.

Finally, I will like you to know that I join a club called Red Cross where by we helped people who are injured. I really love to be part of

the club because when an accident occur before the arrival of the ambulance, we usually go there and help before they'll lost their life. I'll like to stop here and I wish to here more from you.

Your lovely Friend,
Haddy.
